ASTORIA, OREGON, TUESDAY SEPTEMBER 5 1905.

PRICE FIVE CENTS

MOST SEVERE IN YEARS

Eighteen Lives and Millions in Property Lost on Lake Superior.

STILL RAGES AFTER 48 HOURS

Reports from All Points Relate Stories of Shipwreck and Loss of Life-Steel Steamers Sink-Heroism Shown by Sevonia's Crew.

Duluth, Minn., Sept. 4 .- Eighteen of 20 lives have been lost, and property valued at a half million dollars has been sacrificed in the furious storm that swept Lake Superior all day Sunday and continued nearly all Monday night. The gale is the most destructive to lake shipping that has been experienced for many years.

Besides the wreck of the steel steamer Sevonia, which broke in two on Sand Island resf, seven of the crew losing their lives, it is now believed that two more ships are lost with their entire crews. One of these is beleived to be the schooner Pretoria of Bay City, Mich., the largest sailing ship on fresh water, and carrying a crew of eight men. The other is thought to be the Olive Jeannette, carrying a crew of seven men. The Pretoria broke loose from the steamer towing her during the storm and today Captain Wenig of the steamer Mary Boyle reported that the spars of a sunken three-masted schooner was seen a short distance east of the outer island of the Apostle group, 100 miles from Duluth.

The Olive Jeanette, it is believed, went to the bottom about ten miles from the portage entry, as a mass of wreckage was sighted near that point, and alidentified there seems to be but little doubt that it was the Olive Jeannette.

The storm at times reached the proportions of a hurricane and the staunchest new steel vessels were forced to run

Steamer Stackhouse arrived at Soo with her hatch-covers sprung, and water pouring continually into her hold. One of the crew was washed overboard, The steamer Samuel Mather also lost

one of her erew. The terrific battering the steel steamers received gives rise to grave fears for the safety of the many wooder ships which have not yet reported, and the record of deaths and destruction may reach much greater proportions than the

present estimates. The monetary loss of the Sevonia is placed at \$170,000, and that of the Pre- . The greater part of each of the toria at \$150,000.

crew were drowned by the capsizing of the yawl in which the crew took refuge when the boat began to founder. Five survivors were rescued by the efforts of John Irvin, the keeper of the outer island light and his assistant.

Pequaming, Mich., Sept. 4.-Wreckage has been found 15 miles off the portage entry, indicating that an unknown ship foundered in the great storm of Sunday morning. Some wreckage marked "Olive," indicated that the lost boat to be the Olive Jeannette.

Sand island, on which the Sevonia was wrecked, is in the center of a patch of dangerous reefs. One mile and a half east of the light on the island is the Sand Island reef. The storm obscured the Raspberry light and the vessel struck. A great hole was torn in the bow, and half an hour later the pounding of the waves had hammered the steamship in two.

JEROME IS WRECKED.

Strikes Sunken Rock and Goes Down Instantly-Crew Escape.

Walla Walla, Wash., Sept. 4.-The steamer Jerome, secured by the Open River association to transport a cargo of wheat from Kennewick to the Celilo Portage railway, was wrecked Saturday afternoon about 5:30 o'clock at the West rapids, near the mouth of the Snake river. The boat was going down the Columbia at about ten miles an hour, and when the upper end of the rapids were approached the boat struck a sunken rock, which tore two large holes in the starboard bow. The steamer rapidly filled with water and listed on the right side, going down in about 20 feet of water. The crew attempted to launch the lifeboats, but the steamer went down so quick that they were unsuecessful.

The accident was witnessed by a number of government engineers who were engaged in making a survey of the river near that point. Two large scows were pushed into the river, and the engineers succeeded in rescuing the officers and crew of the boat.

The Jerome was loaded with about 100 tons of wheat, and was making the initial trip of the line arranged for by the Open River association in connection with the portage road. The steamer and the wheat will be a total loss. The Jerome was in charge of Captain Danalier and Chief Engineer Wheeler, with a crew of about ten men.

SENSATIONAL PROCEEDING.

Millionaire Farmer Declared to Be Mentally Unable to Handle Estate.

Sioux Falls, Sept. 4 .- A sensation has been created by the commencement of proceedings to have a guardian appointed for Irving D. Smith of Lake county, well known as the millionaire farmer of South Dakota. The proceedings are instituted in behalf of his wife, as it is asserted that Smith is mentally unable to handle the business of his estate.

His many benefications have attracted a host of besiegers who are insistent upon donations for all sorts of purposes, and up to date Smith has donated to his wife, tenants, and various relatives an aggregate of 29,720 acres of land, which is valued at \$679,200.

FEVER SPREAD STEADILY.

Soldiers Are Ordered Away from All Infected Points.

Jackson, Miss., Sept. 4.-The yellow fever is spreading steadily along the Gulf coast. Five new cases are reported at Gulfport and two at Mississippi City. The removal of all military guards around the infected points has been

ordered owing to the prevalence of the

disease among the soldiers. New Orleans, Sept. 4 .- The official report up to 6 p. m. is as follows: New cases 58, total 2,082; deaths 5, total 296; under treatment 321; discharged 1,469.

MURDERERS ARE ARRESTED

Little Girl Is Caught by Feet and Hurled Against a Post-Face Cut to Pieces-Both Legs Broke and Body Is Thrown Under Stairway.

New York, Sept. 4 .- A child-murder of unusual cruelty came to light when the body of a 3-year-old girl was found early today in a dark stairway in a west side tenement house. Both leghad been broken at the knees. There were nine stab wounds in the face, evidently made by a penknife, and numerous other bruises. The body was well dressed.

Even before the body had been removed to the morgue, more than 1,500 persons residing in the vicinity of the tenement house, where the dead child was found, had viewed the body. None of them ever had seen her before, and the coroner appeared to be satisfied that she had not lived in the neighborhood.

The craft and cunning, even the cruelty, of the person or persons who sent the little one to her death, were emphasized by 'the coroner's investigation. It has been found that the stab wounds on the face are entirely superficial. Death was caused by an ugly bruise on the side of the head, which the physicians who have examined the body and Commander Winslew will be presthink may have been caused by the child being swung heavily against a post, presumably by someone who held her by the feet. It is the opinion of the coroner that the body was carefully washed and fully redressed after the the Te Deum services will be held. The
