

RELIEF CORPS MEET

Twenty Third Annual Convention Now Being Held in Denver.

PATRIOTIC ADDRESSES MADE

National President Fanny E. Minot Says That Soldiers Were to Protect Flag and Woman's Work Is to Teach Rising Generations to Respect It.

Denver, Sept. 7.—The Woman's Relief corps met in 23d national convention in Trinity M. E. church this morning. Mrs. President Minot of Concord, N. H., presiding. The exercises were opened with salutes, flag drills and tableaux in the curriculum of patriotic teaching.

Fanny E. Minot, the national president, in her annual address, spoke as follows on the subject of patriotic instruction:

"The encouraging work of the past year along patriotic lines has justified the adoption of the example of the Grand Army in reappointing our patriotic instructor. A plan for sending more flags for schools in the South has been successfully carried on, and without expense to our organization, the patriotic instructor has visited some of the Southern and Western states and assisted in these presentations. In the great problem that America is solving in teaching the men and women who come to this country to become good citizens and 'to do their part in making for weal or for woe the future of our land,' we must disseminate a patriotic spirit. There is much truth in the recent utterance of Commissioner McFarland: 'For most people something which they can see or hear best makes such impressions. The flag itself is enough to rouse most right-minded people to recall the past and resolve for

the future. Those who say that a truly patriotic country does not need lessons in patriotism, even to the extent of displaying the flag, contradict the teachings of all experience.'

"Perhaps no more notable example of the value of intense patriotism has ever been shown than during the recent Japanese and Russian war. We have marveled at the success of the armies of the sunrise kingdom; but one secret has been the devoted loyalty of every soldier, who counted not his life dear unto himself, and no suffering too terrible to be endured if for his country's fame and honor.

"The mission of the soldier has been the defense of the flag, its protection that of every true American; and, as members of the Woman's Relief corps, we can do no better work than to teach the rising generation to love and reverence the Stars and Stripes, and to respect the men who fought for the preservation of the Union."

LOGAN AT ANCHOR.

Transport Arrives With General Corbin and Party on Board—All Are Well.

Amoy, Sept. 7.—The Transport Logan with Major-general Corbin and party on board, arrived here this morning at day-break. Many of the party went on shore and viewed the scenes of the recent riots. The present condition of affairs in connection with the anti-American boycott movement is uncertain and the Chinese are expected to make a serious outbreak on or about September 13. All the members of the party are reported well on board the Logan, which will sail for Shanghai at 2 o'clock this afternoon.

The riots referred to took place on July 22 last. On that date a mob of Chinese fanatics, after attending a meeting, where resolutions were passed pronouncing a boycott on American products, attacked the American consulate and threatened the native servants of Consul Anderson with death. The local authorities promptly put down the uprising and punished the offenders.

GERMAN KAISER INTERVIEWED.

Fears Japan Will Close Open Door in China and Control Oriental Markets.

New York, Sept. 7.—Congressman McNary of Massachusetts, who was a member of the American party received yesterday by Emperor William, is quoted in a Times dispatch from Berlin as follows:

"In our conversation the emperor dwelt on the 'yellow peril,' and expressed the opinion that the Japanese would follow up their military successes by closing the 'open door,' and by their command of cheap labor force Europe and America out of the Oriental markets:

"He went on to say that it was necessary for the white nations to stem the yellow peril by uniting. The only power that Japan feared was America, and it was a good thing for the world that the United States was on one side

of the Japanese empire. "The emperor asked us what we thought of German railways. We said frankly that we believed the American lines were better. The kaiser assented, but said he thought German cities were better paved than those in America."

A GREAT BOON FOR THE LADIES.

Years ago there lived in Chicago a prominent physician who had concocted and was using in his practice a certain preparation of extraordinary merit and which was highly prized by his patients. Even though his patients were numerous the field thus offered for the remedy was comparatively limited. Being a member of the medical profession it was not quite germane for him to advertise his discovery, and after much persuasion he was induced to impart his secret to a friend. This friend being a layman, was at liberty to advertise, manufacture and sell the preparation on a large scale.

The new proprietor worked up a large business, but died without having made arrangements for its continuance. The manufacture of the remedy was suspended, and the formula itself lost sight of. When in the act of destroying some of her late husband's papers which she thought worthless, the widow's son asked permission to look them over. Among these papers he found the long-missed formula. He at once revived his father's enterprise and with marked success. Under his administration the business grew to such an extent that it was finally incorporated under the name of Dr. Charles Flesh Food company, in deference to the formulator of the remedy.

It is a fact of scientific interest that the preparation referred to, Dr. Charles' Flesh Food, demonstrates the soundness of the absorption theory of nourishing the tissues of the human body. Being composed of ingredients that supply real nutriment and in the form of an ointment, it is applied externally, and is thus absorbed through the pores of the skin. The effect is truly medicinal. The plain, the wrinkled and the sallow-faced acquire good looks, and the middle-aged and the elderly become youthful again. That it is not to be classed with "cold creams" and other things of like superficial potency is proved by the fact that it is prescribed in hospitals for the nutrition of invalids whose stomachs are too weak to digest food.

WOULD KICK AND SCREAM

Baby's Awful Suffering from Eczema — Could Not Hold Her — Tore Face and Arms Almost to Pieces— Grateful Mother Says:

"CUTICURA REMEDIES SAVED HER LIFE"

"When my little girl was six months old, she had eczema. We had used cold creams and all kinds of remedies, but nothing did her any good; in fact, she kept getting worse. I used to wrap her hands up, and when I would dress her, I had to put her on the table, for I could not hold her. She would kick and scream, and when she could, she would tear her face and arms almost to pieces. I used four boxes of Cuticura Ointment, two cakes of Cuticura Soap, and gave her the Cuticura Resolvent, and she was cured, and I see no traces of the humor left. I can truthfully say that they have saved her life, and I should advise any one suffering as she did, to give Cuticura a fair trial. Mrs. G. A. Conrad, Lisbon, N. H., Feb. 7, 1898."

FIVE YEARS LATER Mrs. Conrad Writes

"It is with pleasure that I can inform you that the cure has been permanent. It is now six years since she was cured, and there has been no return of the disease since. I have advised a lot of friends to use Cuticura in all diseases of the skin."

Instant relief and refreshing sleep for skin-tortured babies, and rest for tired, fretted mothers, in warm baths with Cuticura Soap and gentle anointings with Cuticura Ointment, the great skin cure. This is the purest, sweetest, most speedy, permanent, and economical treatment for torturing, disgusting, itching, burning, scaly, crusted and pimply skin and scalp humors.
