ASTORIA MAY APPEAR
Invited to Make a Showing on Oregon Day.

MASS-MEETING IS CALLED

Other Towns Are Getting Ready for the Opportunity—Astoria to Decide Tomorrow Night—If She Makes a Display it Will Be a Winner.

Another avenue for the proverbial enterprise of this city and county has presented itself, in the shape of an invitation from the management of the Lewis and Clark fair, to Astoria and Clatsop, to be among the 30 cities and 33 counties of Oregon, to exhibit their resources and other elements of interest at the exposition, on Oregon day, Sept. 30th, (next Saturday) either by a float, or some device adapted to the occasion and the wishes of this community. The invitation was placed before this public by Assistant Secretary J. N. Dolph, of the centennial fair, yesterday, immediately upon his arrival at noon.

He called upon the leading officials of the city and county and fully explained his mission and the matter was fully and largely discussed, with the result that the following call for a mass-meeting is made for the purpose of ascertaining whether, or not, the people here desire to further exploit the advantages of this section in the manner suggested. The call is as follows:

TO THE PUBLIC.

To the citizens of Astoria, and Clatsop county.
The management of the Lewis and Clark exposition have designated Saturday, September 30th as Portland day. It is proposed at that time to have a large street parade made up of floats from all parts of the state. We have been called upon by a representative from the exposition asking that Clatsop county arrange to be represented.

We would therefore ask all who are interested in the welfare of the county, and the state to meet at the rooms of the Chamber of Commerce on Monday, September 25 at 7 p. m., to consult and decide this matter. Manufacturing interests are especially requested to be represented at the meeting.

- JAS. W. WELCH, Pres. Chamber of Commerce.
- J. W. SUPRENANT, Mayor.
- C. J. TRENCHARD, County Judge.

HURT AT DEEP RIVER

Miss Vaughn Falls from a Logging Train, Receiving Serious Injuries.

Yesterday afternoon a party of young ladies were riding down into Deep River on Brix' logging train, in full enjoyment of the day and the journey, when suddenly the coupling between two of the trams broke and the section on which they were sitting began to pound into the forward end of the train with such violence as to dislodge the entire party of four. Three of the young women sprang safely to the ground, but Miss Vaughn, one of the group, fell off and sustained serious injuries. Her collar bone was fractured and her left foot was caught under the wheels of the moving train, smashing the fore part of it so badly as to make amputation of several toes necessary.

She was given the promptest and best aid at hand, and as soon as it was possible to move her into Deep River, she was taken there and a boat placed at her disposal for a journey to this city. This was undertaken, but on the way the boat was met by the Shamrock, whose captain, to the credit of his good sense and kindly feeling, turned and gave a tow to Astoria.

The injured lady and her friends arrived here about 8 o'clock and she went to St. Mary's hospital where her wounds were attended to by Doctors Tuttle and Fulton and she was made as easy as circumstances would permit. The wounded foot will probably be operated upon today, if it is found to be absolutely essential. The fractured collar bone was set at once and everything done to make her comfortable for the night.

CLEARING BOND STREET.

The accumulation of dirt along the walk line of Bond street, west, is being removed at the cost and expense and under the supervision of the resident owners of the property, and the work is an appreciable improvement to that thoroughfare both as to looks and public convenience.

TREASURER POHL NOW.

Funeral Director W. C. A. Pohl, of this city, who has been in attendance upon the sessions of the Oregon Funeral Director's association, at Portland, during the past week is due to arrive home today. At the annual election of officers of that body, he was made its treasurer for the new year, a selection which is cordially confirmed by his numerous friends in this city.

INSTALLED IN NEW OFFICE.

The water commission of this city has directed the removal of the business office of that department, to its new quarters in the city hall tomorrow. This should be promptly noted by all consumers as the order will be carried out promptly, and all further transactions will take place from that point. The old office will be retained for the use of the engineer of the department and his employees, and the housing of the tools and appliances belonging to the business, until such time as the commission shall make other and permanent arrangements for them. All future meetings of the board of commissioners will be had at the new municipal office.

ON TOUR OF INSPECTION

Five Big Plants of the Simpson Milling Company Being Looked After.

Hon. A. M. Simpson, president, general manager and controlling owner of the properties and business of the Simpson Milling company, is in the city, a guest at the Hotel Occident.

Mr. Simpson has just arrived from Humboldt, California, where one of the mills is in operation, and from Coos Bay, where two more are doing business and he will go from here to South Bend, Washington, to look after the mill, there, but will take a few observations at Nappton's big plant, before going to South Bend. His tour is a tri-annual event and is made with great regularity, in order that the head-quarter office may keep in constant touch with the properties, from another viewpoint than that offered by correspondence.

He reports that as far as he has gone everything is in the fine working order, business good, the demand lively, and the sellers about six to one as to buyers. The latter estimate, he says is inevitable in view of the constantly increasing number of mills being built at all available points on the coast. His own company is in the same swim, being now engaged in re-building the South Bend plant destroyed by fire about five months ago.

The five mills operated by his company are turning out from four hundred thousand to one-half million feet of lumber per day, and this will be notably increased when the South Bend property is set going again. The universal spirit for improvement among the Pacific coast towns is responsible for the present fair market and there is no immediate sign of any abatement, while the export end of the business is satisfactory everywhere and likely to be for some time to come, the demand in the Far East being just "turned flood" in the lumber line.

Mr. Simpson is in the best of health and says nothing ails him except that he is long on saw-mills as he has about four too many.

Are You Engaged?

Engaged people should remember that, after marriage, many quarrels can be avoided, by keeping their digestions in good condition with Electric Bitters. S. A. Brown of Bennettsville, S. C., says: "For years, my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor, and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once, and finally made her entirely well. She is now strong and healthy." Chas. Rogers, druggist, sells and guarantees them, at

SOULE BROS., PIANO CO.
372 and 374 Morrison street, corner West Park Street, Portland.

IS SHE KNOWN HERE?

The following is from yesterday's Salem press news and may interest some one here:
"After waiting 24 hours for some information or instructions from relatives or friends, Undertaker W. T. Rigdon, is unable to learn anything as to the identity of a woman whose body was brought to his establishment yesterday from the Salem hospital. The woman, about 40 years old, was suffering from paralysis, and was brought to the hospital a few days ago by a man and woman whose names were not learned. From the conversation of the invalid it is supposed that he name was Thurber, and that she may have relatives at Astoria or McMinnville."
