ITCHING ECZEMA

In July, 1883, I began to break out with Eczema on my head, legs and arms, and began treatment with local doctors, but did not get much relief. They said the disease had become chronic. I then quit them and tried various ointments and soaps for another two years, but as soon as cold weather came I was as bad off as ever, so I finally decided to let medicine alone, and for twelve or thirteen years did nothing towards curing the Eczema, except bathing. This seemed to do about as much good as anything I had tried. During the time I lost about one-half of my hair. My eyes were sore, and I was so long, but soon discovered your medicine was doing me good, and continued to take it. I used seven bottles, when I was completely cured, not having a single spot on my body, which before was almost completely covered. F. C. NORFOLK, 1017 Hackberry St., Ottumwa, Ia.

The head, feet and hands are usually the parts affected, though the disease appears on other parts of the body. While external applications allay the itching and burning temporarily, it is the acids thrown off by the blood that cause the irritation and eruptions upon the skin. The acids must be neutralized and the system cleansed of all humors and poisons before the cure is permanent. S. S. S. is guaranteed entirely free of Potash, Arsenic and other minerals. Book on the skin and its diseases sent free. Medical advice furnished free.

By Special Arrangement with Wadhams & Kerr Bros. THE ASTORIAN has secured a large quantity of their

FAMOUS ECONOMY FRUIT JARS

One of which, together with a Booklet of Recipes, will be given with each 25-cent or higher want ad. inserted in either The Daily or The Sunday Astorian.

What Mr Fred Dresser has to say about the ECONOMY JAR: Kerr Glass Manufacturing Company, Portland, Oregon. Gentlemen: Referring to the ECONOMY FRUIT JAR, we are pleased to say that we have been selling them for three years. The first year we ordered three gross, the second year ten gross, and this year our order calls for twenty-five gross. We believe that within a few years they will be the only jar in use; first, because the quality of the jar far exceeds all others; second, the jar is sanitary, having a wide mouth, therefore easily cleaned. The cover is as sanitary as the glass itself, while the covers on many other jars are made of zinc, which produces poison when in contact with fruit and vegetables. The absolute certainty of every ECONOMY JAR sealing makes it the ideal jar for canning purposes. We bespeak a great future for the ECONOMY JAR. We are very truly yours, F. DRESSER & CO. By F. Dresser, Pres.
