A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Army Posts Destroyed.

LOSS AMOUNTS TO MILLIONS

Civil and Military Authorities are Rushing Aid to Suffering Thousands. Army Transport Ashore—Cutter Goes Down With All Hands.

Manila, Sept. 28.—Reports are now coming in from places along the path of the recent typhoon in the Island of Luzon and the Southern islands indicate great loss of life and property. In the waters surrounding Samar and other islands, many coasting vessels and island transports have been wrecked. The coast guard cutter Leyte is a complete wreck and eleven Americans and 24 natives were drowned.

At the town of Sorsogon fifteen natives were drowned. The loss on hemp plantations is estimated at \$1,000,000.

The army transport Juan Rodriguez is ashore at Legaspi.

In the interior of the Island of Samar, thousands of natives are homeless and the same report comes from many of the small islands.

The army posts in the southern islands have been destroyed.

The civil and military authorities are rushing aid to the suffering people in the form of food and shelter.

Owing to the destruction of the telegraph line reports received from other points are very meager.

SCHOONER ROANOKE BURNS

Largest Vessel of Her Class—John Jones Wrecked, Crew Lost.

Victoria, B. C., Sept. 29.—Details of shipping disasters in south seas were received by the Miwera today. The largest schooner built in America, the Roanoke, Captain Amesbury, was destroyed by fire at Nehou, New Caledonia. When the Roanoke had loaded 200 tons of a cargo of chrome ore, hoisting it in baskets from fighters, fire broke out forward. The 32 men assisted by the crews of the American ship Susquehanna and Norwegian bark Arabia, fought the fire. The smoke was so dense that men could not be sent below, holes were cut in the deck and bucket brigades worked until steam was up and the pumps started, but the fire drove out the engineer and the fire fighters. The Susquehanna's mate and some men were overcome by fumes and had a narrow escape. The fire gained and finally the men had to lower all the boats and leave. They watched the vessel burn to the water's edge from the Susquehanna's deck. The fire roared like a furnace and the heat was so intense that boats could not go nearer than 100 feet. The vessel is a total loss. All that is visible at low water is part of the stem. Captain Amesbury, who has left for New York, says the origin of the fire is a mystery.

The schooner Jones Brothers was dashed to pieces near Newcastle after having broken her tow line from the steamer Helen Nicholl on the night of September 1, and seven men were drowned. The Helen Nicholl was towing the schooner to Sydney with coal when the tow line parted and the vessel was driven ashore. Not a vestige of her, other than some debris smashed to matchwood, was found. The dead are:

Captain Peter Olsen, Sweden.

Thomas Jenkins, mate, England.

William Malley, seaman, Halifax, N. S.

John Shields, Russian.

W. A. Manson, Sweden.

Charles Peterson, Sweden.

AMERICANS INVADE ENGLAND.

Hull, England, Sept. 29.—The mayor of Hull announced last night that negotiations had been concluded with an American company for the establishment at Hull of a manufactory employing 1000 hands. The nature of the business, the mayor withheld, but he said it was to be the first of its kind in England.

NOT GENERAL'S FAULT

Conqueror of Sakhalin Not Blamed for Only Taking One Half.

Tokio, Sept. 29.—Lieutenant General Haragushi, commander in chief of the Japanese military forces on Sakhalin island, accompanied by his staff, arrived at the Uyeno railroad station this morning and were met by General Terauchi, the minister of war and M. Ijui, Japanese consul general at New Chwang, representatives of the army and navy, and Viscount Tanaka, the household minister. Among those present were delegates from the different societies and representatives of the Lada Aid association, who in welcoming the general said:

"We are sorry that only one half the island has been taken, but that was no fault of yours." A statements which created much merriment.

General Haragushi took luncheon at the imperial army headquarters and then proceeded to the palace.

EATEN BY CANNIBALS

Two Native Traders of Muskelin Island Killed and Roasted.

PREPARED AS ROAST PIG

They Were Suspected by a French Trader, but the Matter Was Explained by Saying They Were Dead Pigs—Confess to Having Eaten Victims.

Victoria, B. C., Sept. 28.—News of a cannibal feast by Blacks at Mallicola, natives of Muskelin Island, were trading when they were waylaid near Mallicola by Kanakas. The men were slaughtered and their bodies carried to a coast village where they were opened as game, and prepared for a feast. The bodies were placed in a native canoe and as the murderers were leaving they incurred the suspicion of Dr. Vigoureux, a French trader. The natives told him they had killed some pigs, and the Frenchman believing their story, allowed them to go. It subsequently transpired that several tribes were assembled and a feast on human flesh was held. White settlers learned of this, and under pressure the natives admitted they had roasted the bodies and devoured the arms and legs of the unfortunate men.

HORRIBLE TEXAS TRAGEDY

Out of Family of Five Only Baby Is Spared by the Fiends.

Eona, Texas, Sept. 29.—Mrs. A. J. Condit and four children, a daughter 12 and three boys from six to 10 years old, were murdered in cold blood at their homes near here yesterday. The mother and daughter were assaulted and their bodies brutally disfigured. A baby of about 2-years old was the only one left alive. All of them seemed to have been murdered with some blunt instrument. Their heads were crushed and their throats cut with a knife or razor. Officers were informed at once and the entire country is in search of the murderers. It is supposed there were two of them.

The girl and mother were killed in the house. The boys were killed about 100 yards away. Mr. Condit was away working in the rice fields. A negro boy about 12 years old, says he saw a man running after a woman, who was running around the house. Being afraid to go to the house, he ran to a neighbors and told what he had seen.

GHASTLY DISCOVERY.

Workmen Find Woman's Skeleton With Bullet Through Skull.

New York, Sept. 29.—The skeleton of a woman with bullet hole through the skull was found yesterday by laborers who were digging a cellar in St. George, on Staten Island. Coroner Schaefer reported the matter to the police and ordered a thorough investigation. The body had been buried more than a foot and a half deep, which fact, the police, argue, tends to show that it was a hurried burial. No clothing was found. The coroner believes that the woman was shot through the head and buried more than two years ago.

AWFUL EXPERIENCE

British Mission Lost 50 Men, 5000 Camels and 120 Horses.

WORK IS FINALLY COMPLETED

Mad Wolves and Jackals Attack Camp, Causing Hydrophobia—Freeze in Winter, and Die of Sunstroke in Summer—Supplies Carried 500 Miles.

London, Sept. 29.—The members of years and a half in making the boundary between Persia and Afghanistan in the Seistan region report that they encountered terrible hardships. Fifty of the members died from various causes, and nearly 5000 camels and 120 horses succumbed. The mission consisted of 11 British officers under Colonel Arthur Henry McMahon, with survey staffs and 200 native infantry and a transport service, embracing altogether some 100 men. The base which is situated at Quelta, whence all supplies were brought to Seistan, 500 miles distant, over a waterless and uninhabited desert. During the summer several persons died from sun stroke or thirst, while during the winter others were frozen. Last winter numbers of jackals and wolves, which abound in Seistan, went mad for some unexplained season and in large packs attacked the men and animals belonging to the mission. Many of the men, camels and horses were bitten and died of hydrophobia.

On March 29 of this year the temperature fell to zero, accompanied by a blizzard and during this storm 600 camels were killed.

POLICE CALLED OUT.

Use Clubs on Battling Students at Columbia University.

New York, Sept. 29.—Sophomores and freshmen of Columbia University waged a fierce battle at the Bronx casino, 154th street and Third Avenue, last night on the occasion of the Sophomore smoker which captive freshmen were forced to furnish the entertainment. When a list of the casualties had been completed it was found that the most seriously injured was a Sophomore student named Brokaw, who had three ribs broken.

The captive freshmen who were held by the sophomores for the entertainment got word out of their plight in some manner to their classmates. When the sophomores smoker was its height the Casino was broken into by the freshmen class as a body. Entrance was made through the music hall from neighboring house-tops.

The sophomores were taken completely by surprise, and the freshmen waged a brief and victorious war. Hand to hand fighting was still in progress when a squad of police reserves arrived on the scene and finally restored order. The police drove the fighters into the street and clubbed many of them into a more peaceful frame of mind.

SWINDLER'S SMOOTH SCHEME

Works in Department Store Long Enough to Know Customers, Forges Bills.

Chicago, Sept. 29.—George E. Moore known to the police under three different names, was arrested yesterday on a charge of larceny and obtaining money under false pretenses. The scheme adopted by him, the police declare, is one of the most ingenious used in the past criminal annals.

Moore would obtain employment in one of the department stores and in that way learn the names of the patrons of the store, who had charge accounts and the amount of goods usually bought by them during the month. He would call at their homes and state that he had come to collect a bill that had been past due. He succeeded in mulcting many persons out of hundreds of dollars.

RAILROAD RAISES WAGES.

Baltimore, Sept. 29.—The wage scale of the ironworkers and machinists in the locomotive repair shops of the Baltimore and Ohio railroad have been revised resulting in an advance of from 10 to 25 cents a day. This advance affects about 3700 men in the various shops.

THE TELEGRAPH'S NEW RATE.

The swift steamer Telegraph leaves Callender dock, Astoria, daily, for Portland, except Friday, at 2 o'clock p. m., arriving in Portland at 8:30 p. m. A round trip fare of \$2.25 has been established for the next 60 days, going into effect today. No better way to observe the beauties of the Columbia river.

Dangers of Defective Plumbing.

Defective plumbing permits the entrance into the house of sewer gas bearing germs of contagious diseases to which the human system readily succumbs.

Sewer gas is not necessarily generated in the sewer, but is frequently created in the plumbing system within the home and enters the apartments through defective fixtures.

If in doubt, consult us regarding the piping and replacing defective fixtures with "Standard" Porcelain Enameled Ware—acknowledged as the best sanitary equipment.
