### WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without soap or water? If you did what would you say of him?

It is every bit as foolish to try to get rid of Dandruff and to prevent Baldness by feeding the germs which cause it, with Cantharides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Vigors. Newbro's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots. It is the original and only genuine scalp germicide manufactured. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

### HILL IS OFFENDED

Criticizes People of Washington for Creating Commission.

### ORIENTAL TRADE INCREASING

Big Crew Working on Victoria, Vancouver and Eastern Line—Denies Report That Great Northern is Associated With Projected Victoria-Yukon Line.

Seattle, Sept. 30.—James J. Hill, the president of the Great Northern railway and party, reached this city late this afternoon and in the evening were entertained at the Rainier club. During the evening Mr. Hill made a speech in which he took occasion to criticize the people of Washington for creation of the railway commission.

To a representative of the Associated Press Mr. Hill made the following statement:

"The Portland and Seattle railroad will be rushed to completion. It is being constructed for business purposes and the Great Northern and Northern Pacific are jointly interested in this new line. While business demands that the road from Kennewick to Portland, or Vancouver be built, I cannot say at this time how the Great Northern will participate in that movement.

"The Oriental trade passing through Puget Sound is increasing all the time and we are receiving plenty of freight for our ships. The question of building ships to engage in the Oriental trade is a matter for the future.

"At the present time we have 2000 men at work on the construction of the Vancouver, Victoria and Eastern and this line is to be rushed to rapid completion as we are building up a trade in the British Columbia country which demands the use of these branch lines in the immediate future.

"The name of the Great Northern has been associated with the projected Victoria, Westminster and Yukon line, but the rumor is without foundation. In fact the first I knew of this proposed railway movement was since reaching the coast."

### THIEF MAKES BOAST

Man Who Swindled New York Bank Told Police to Watch.

### SUSPECT IS WELL KNOWN

Though Bank Officials Deny That An Employee of the Bank is Guilty, Yet Detectives Believe That a Least One Person is Implicated in the Crime.

New York, Sept. 30.—While no definite statement has been made by the detectives in the case, it is believed in certain quarters that the arrest is imminent of the man behind the plot by which \$350,330 worth of securities was stolen from the National City Bank on Wednesday by the presentation of a forged check for the amount of the loan for which the securities stood as collateral. Numerous reports, all lacking confirmation, were circulated last night. One was to the effect that an attempt was being made by the forgers to negotiate for the return of their plunder. It is believed by the detectives that back of the whole plot will be found a man who has an international reputation as a get-rich-quick swindler and whose record in Wall street is as well known as the alphabet.

This man was behind a somewhat similar transaction some years ago. In that case the securities were taken from a messenger, who asserted that they had been stolen from him. The bank was successful in keeping the thing absolutely quiet and pretty soon an offer was made for the return of the securities. This offer the bank accepted and the case was closed.

In the present case, although the National City Bank officials and members of the brokerage house are earnest in their assertions of belief in the innocence of their respective employees, yet the detectives are satisfied there was collusion with at least three persons in the plot.

This collusion was between some person who indications place within the bank, an "outsider" who could be any one of several messenger boys in the district and a third person—the master mind—to devise the plot and to work it out with an elaboration of detail unprecedented in criminal attempts in Wall street. This third person is identical according to the theorists, with the swindler previously mentioned. For years he has been in the Wall street district and every year has seen his name involved in some swindle, either by means of a spurious corporation or by a bucket shop concern or discretionary pool syndicate. He has been indicted a half hundred times, and has been twice convicted. A boast said to have been made by this man some time ago was reported to the police, and they began a watch at once. "Watch," he is reported to have said, "and you will hear something that will dazzle you."

### POLICE WILL SHOOT

University Students Must Cease Boisterous Demonstrations.

### WILL SHOW NO FAVORITISM

President Van Hise, University of Wisconsin Requests Municipal Court to Show no Discrimination Toward Students.

Chicago, Sept. 30.—A dispatch to the Tribune from Madison, Wis., says:

"My men are all provided with weapons, and while we would deplore any bloodshed, yet I have given my officers instructions to shoot in case they are assaulted by students or in case the students resist arrest. Any attempt to rescue an arrested student also will be met with a reception calculated to inspire respect for authority."

These words were spoken yesterday by Mayor W. D. Curtis over the telephone to President Van Hise of the University of Wisconsin, who called up the mayor and thanked him personally for breaking up a boisterous student demonstration the night before. President Van Hise declared that he heartily would co-operate with the city authorities in suppressing student violence and that he had asked Judge Donovan of the municipal court to show no discrimination toward students, as has been the time honored custom of the past. He announced that any student arrested would be suspended pending disposition of his case and if convicted would be expelled from the institution.
