NATURE SPARES

The Stricken Rose From Grief.
What a fortunate provision of nature it is, that deprives the rose of mental suffering; for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable store-house of pleasing rewards, for those who seek her aid. In the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women. But thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Full of Tragic Meaning.

are these lines from J. H. Simmons, of Casey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough, that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took D. King's New Discovery for Consumption, Coughs and Colds, which completely cured me." Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At Chas. Rogers' drugstore; guaranteed; 50c and \$1.00. Trial bottle free.

CRISIS AT HAND

High Officials Are Called to An Audience With King-Emperor.

Buda Pest, Oct. 2.—The idea is current tonight that the political crisis is undergoing an important development. Minister of the Interior Kristoffy, who originated the plan for the defeat of the coalition by the introduction of measures for universal suffrage, has gone to Vienna with Premier Fejervary and Minister of Justice Layni for an audience with the king-emperor tomorrow and this has given rise to a report that his majesty is ready to abandon his resistance to the suffrage reform. Nothing definite, however, can be known until after the audience.

CONCOMELY WILL LEAD.

Astoria Red Men to Open the Social Season of 1905-6.

There was a rousing meeting of the braves of Concomely tribe, at their wigwam last night, and among other affairs presented and disposed of were the following matters of general interest.

The building committee made the satisfactory announcement that the new hall of the I. O. R. M. would be ready for occupancy on the first day of November.

The committee in charge of the Christmas exercises of the tribe, reported a grand measure of progress made and a pleasant scheme of entertainment outlined for the holiday season.

Chairman Foster of the committee having charge of the big Thanksgiving Eve. ball reported that the Foard & Stokes hall had been engaged for the occasion; that a member of the committee had been dispatched to Portland to see a professional costumer and make definite arrangements for an unlimited number of varied and brilliant costumes and disguises; that the committee, with the tribe, will endeavor to make this event famous in the history of the order here, for scope and originality.

It was determined that every member of the tribe shall be in costume on that night and this, of itself, means a gathering of 200, not taking into account the hundreds from the outside, who will be present. From all indications this affair will be a signal opening for the winter social season if the Tomahawk people can do it, and there is nothing to stop them.

MADE CAMP AGAIN.

The superintendent of the water system of this city has moved his camp of 25 men to another 4000 foot section of the big wooden water-pipe line, and will go to work on the new division this morning. Good progress is being made, and it is hoped the job will be finished by November 20th.

PRESIDENT IS INTERESTED

Calls Mineworkers President to Washington for Interview.

New York, Oct. 2.—John Mitchell, president of the United Mineworkers arrived in this city today on his way to Washington to have an interview with President Roosevelt. It was understood that the president had sent for Mitchell to talk over the threatened revival of the troubles among the miners in the anthracite coal region and to see what steps are to be taken to avert the threatened strike. Mitchell denied that he was going to see the president on such a subject.

NO REASON FOR IT

There can be no just reason why any reader of this will continue to suffer the tortures of an aching back, the annoyance of urinary disorders, the dangers of diabetes or any kidney ills when relief is so near at hand and the most positive proof given that they can be cured. Read what an Astoria citizen says:

Mrs. N. Jacobson, living at 127 Suomi street, says: "In our experience Doan's Kidney Pills performed all that was claimed for them. Their action was speedy and the results satisfactory. I procured a box of them at Charles Rogers' drug store, 459 Commercial street, for my grandmother, Mrs. M. Beck, and she used them. From the satisfactory results obtained we value Doan's Kidney Pills exceedingly."

Dangers of Defective Plumbing.

Defective plumbing permits the entrance into the house of sewer gas bearing germs of contagious diseases to which the human system readily succumbs.

Sewer gas is not necessarily generated in the sewer, but is frequently created in the plumbing system within the home and enters the apartments through defective fixtures.

If in doubt, consult us regarding the piping and replacing defective fixtures with "Standard" Porcelain Enameled Ware—acknowledged as the best sanitary equipment.
