MEN ARE POWERLESS

To Fight Against Disease Unless They Strike at the Underlying Cause.

To treat Dandruff, and Falling Hair, with irritants or oils on which a parasitic germ will prosper, is like scooping water from the ocean to prevent the tide from rising.

You cannot accomplish a satisfactory cure without having a right understanding of the fundamental causes of the trouble.

You must kill the Dandruff Germ. Newby's Herpicide does this because it is specially made to do that very thing. When the germ is removed, the hair has no choice but to resume healthy growth and beauty.

Destroy the cause, you remove the effect.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Eagle Drug Store, 351-353 Bond St. Owl Drug Store, 549 Com. St., T. F. Laurin, Prop. "Special Agent."

RODENTS RUN RIOT

Army of Rats Terrorize Sailors on Bark Sabine.

CRAFT CARRIED SUGAR CARGO

For Two Weeks the Crew Engaged in Regular Pitched Battles with Rodents—Hold Fairly Alive With Rats and Men Did Not Dare Invade the Place.

New York, October 31.—Almost crazed by the harrowing experience with hundreds of rats which besieged them during a voyage from Java to New York, fifteen men comprising the crew of the steamship Sabine drew their pay and resigned today when the boat reached port.

Timothy Pycroft, fireman on the Sabine, said the rats became so bold after several days at sea that they attacked the crew, and for two weeks the sailors had nightly battles with the rodents. He said the sailors finally rigged up hammocks out of bolts of canvas given them by the captain and by sleeping in these managed to avoid the rodents. This is the story Pycroft told today.

"We left Java with 6,000 tons of sugar. The rats must have come aboard while the cargo was being loaded. When we had been at sea several days they started crawling over us while we were asleep. When the rats began biting us we made a complaint to the captain.

"By this time the rats were overrunning the whole boat and had even got into the officers' quarters. It was almost worth a man's life to go into the hold. There were hundreds of rats down there, and some of the men were in fear lest a hole be gnawed in the boat.

"As we neared this port the animals became a menace. We fastened the hatches and even burned charcoal, the fumes of which kept them off the deck. I consider myself lucky to get back to New York with a whole skin."

TUBERCULOSIS KILLS

A ST. LOUIS GIANT. Disease Said to Have Been Brought on by a Diet of Raw Meat Which He Ate Freely.

St. Louis, Oct. 31.—William Cobden, said to have been the largest and strongest man in the Lafayette Park district, died last night at his home from tuberculosis, which his friends insist was brought on by a raw meat diet.

Cobden was a superintendent of steam fitters. He was six feet two inches tall and weighed 280 pounds. His workmen say he could carry three times as much dead weight as they, and it was no unusual sight to see him pick up a 300-pound radiator and carry it from the ground to the third floor of a building. His feats of strength, Cobden often said, were due to his diet of raw meat. He was known to eat a two pound beefsteak and three boxes of imported sardines at a sitting. Six boxes of the fish were only a snack to him, his friends say, while he would drink half a dozen large glasses of beer, one after another.

BEEETLES OF EVERY COLOR

DESCEND ON FRENCH VILLAGE

Attempt to Wash Streets Clear of the Pests Results in Clogging up the Drains.

Angers, France, October 31.—This city has been visited by a curious rain of beetles. Red, yellow and green insects have descended in myriads upon the town.

An attempt to wash the streets clear of the beetles has resulted in stopping up the drains, and it has been found necessary to remove them with spades and dust carts.

SMALL BOY IN EVIDENCE.

Hallowe'en Not Forgotten and Many Pranks Result.

Last night was hallowe'en and as usual the small boy had his inning. In spite of paternal objections, and the vigilant watchfulness of the police, he was able to indulge in his heart's content in his merry larks and playful pranks.

Only a few of the results of his work last evening, are thus far known to the police—but the full extent of the depredations will be discovered when the householder awakens this morning—and finds a wheel off his buggy, hid in his neighbor's barn, a knob turned off the door, or a few other like depredation

done. Those already discovered, however, give evidence that the day is not entirely forgotten.

One of the depredations the most annoying to the police occurred at Eighteenth and Exchange streets, where a huge telephone pole was laid diagonally across the highway. It is in such a position that traffic is blocked, and two or three patrolmen were unable to dislodge it from its position last night. "I'll bet those pesky kids carried that pole a mile," said a patrolman last night, "and it must have taken forty of them to lift it."

Sixteenth street and Grand Avenue was not forgotten by the boys who were out for a time. There they opened a man hole, and crammed a log into it, in such a position that it will be exceedingly hard to remove.

A new sign which Roelofs, the tailor recently ordered, was found in front of the tailoring establishment of Allen, a rival in business.

OCTOBER WEATHER.

Report of Observer Powell for the Month Just Ended.

Weather Observer Powell made up his report last night for the month of October and from the mass of detail incident thereto, the following essential figures were taken by an Astoria reporter.

Maximum temperature, (10th) 68. Minimum temperature, (18th) 37. Rain fall for October, inches 8.60. Rainfall, greatest, 24 hours, 1.60. Clear days, 13. Cloudy days, 14. Partly Cloudy days, 4.

NO PLACE FOR SHYLOCKS.

Washington, D. C. Oct. 31.—Secretary Hitchcock has ordered the dismissal of four of the employees of the Pension Bureau for keeping money at unbusinesslike interest.

ENTIRE FAMILY KILLED 'N MINE.

Bellaire, Ohio, Oct. 31.—Sylvester Kendall, wife, seven children were caught in the fall of soapstone in a mine today and was killed.

READ ALL THIS

You Never Know the Moment When This Information May Prove of Infinite Value.

It is worth considerable to any citizen of Astoria to know how to be cured of painful, annoying and itching piles. Know then that Doan's Ointment is a positive remedy for all itchiness of the skin, for piles, eczema, etc. One application relieves and soothes. Read this testimony of its merit:

R. B. Long, harness maker, employed with John Clark & Son, 104 Front street, Portland, who resides at 348 Second street, same city, says: "Early last summer I broke out all over my body with eczema, tetter or itch. I did not know just what it was nor what caused its appearance, but I do know that the torture I endured was something fierce. I was very much alarmed about it, was anxious to know what it was and what caused it. I thought the best thing to do was to go to a doctor for treatment. I did so and was treated by different ones, but they failed to do me any good. When I became the least bit overheated I just fairly clawed the skin off me. Anyone who has never had anything of the kind knows nothing at all about it. I was in bad shape when I noticed an advertisement in our paper about Doan's Ointment being a sure cure for such afflictions. It proved to be all that is claimed for it. Less than two boxes made a complete cure in my case.

About this time my younger brother was taken with the same affliction. A box and a half of Doan's Ointment cured him. I know what I am talking about when I say that Doan's Ointment is one remedy which can be depended upon." Plenty more proof like this from Astoria people. Call at Charles Rogers' drug store and ask what his customers report.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

"I Thank The Lord!"

cried Hannah Plant, of Little Rock, Ar., "for the relief I got from Bucklen's Arnica Salve. It cured my fearful running sores, which nothing else would heal, and from which I had suffered for 5 years." It is a marvelous healer for cuts, burns and wounds. Guaranteed at Charles Rogers' drug store; 25c.

Cures Chills and Fever.

G. W. Wirt, Nacogdoches, Texas, says: "His daughter had chills and fever for three years; he could not find anything that would help her till he used Herbine. His wife will not keep house without it, and cannot say too much for it." 50c. Sold by Frank Hart, druggist.

WIRELESS BY WATER

Signals Can Be Sent Through Aqueous Bodies.

SATISFACTORY TESTS MADE

Submarine System of Signalling Given Trial on the Cunard Liner Lucania and the Results Proved Most Gratifying—Other Vessels to Be Equipped.

New York, Oct. 31.—It has been demonstrated now beyond all doubt that the new submarine signaling system which the Cunard Steamship Company installed recently on the Lusania is a success and it will soon be put on all of the Transatlantic steamships. The trial was made on the last eastward trip of the Lucania. The liner came into port last night and today Captain J. B. Watt reported to the officers of the company.

The submarine system is the simplest of all wireless communications between vessels at sea. It consists of two tanks—two sixteen-inch tubes—one on each side of the bottom of the ship. The tubes are connected with transmitters.

From the tanks, one on the starboard side and the other on the port side, there is a wire running up to the bridge of the officer on watch. He can put over his head the same kind of a receiver as the telephone girls use in the central office.

If a vessel is approaching another and both have the system working, each can locate the other without atmospheric interference.

At present the lightship at the approach of our harbor are fitted up with the system, as are also the ones in Liverpool harbor. It was the last trip to the other side that the Lucania had her first chance to test the bells in the lights at the mouth of the Mersey river.

"We got the first signal," said Captain Watt today, "about ten miles from the light. It was very faint on the port side. Then we swung around about two points and got better results on the starboard side. That proved beyond all doubt that the system is a success.

Cured Consumption.

Mrs. B. W. Evans, Clearwater, Kans., writes: "My husband lay sick for three months. The doctors said that he had quick consumption.

We procured a bottle of Ballard's Horehound Syrup, and it cured him.

That was six years ago. Since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal." 25c, 50c, and \$1.00. Sold by Hart's drug store.

HIPPODROME SOCIAL.

The student body of the Astoria High school will give a grand entertainment, dance and hippodrome social, on Friday evening next, November 3, 1905, at the A. O. U. W. hall, (the old Presbyterian church), and those in charge aver that it will be decidedly interesting. The young people need some funds and hope to realize the required amount in this pleasant fashion, at 15 cents admission.

Out of Date Plumbing is Unhealthy

If your plumbing is out of date, the members of your household are constantly risking their health. Defective plumbing generates germ-bearing sewer gases which pollute the atmosphere and cannot help but be breathed by the occupants.

Let us examine the condition of your plumbing, correct defective piping and install the best sanitary fixtures made, namely "Standard" Baths and One-piece Lavatories. Our illustrated booklet "Modern Home Plumbing" sent free upon application.

**J. A. Montgomery, Astoria**
