A. V. ALLEN

Morning Astorian, 75c per month.

TO BUILD A TRAIL

Communication to Fairbanks Will
Soon Be Established

A. & C. R. R. GIVES PROMISE

In Twelve Months Road Will Be in Operation from Seward to Knik, from There a Well Constructed Trail Extends Rest of Way to Fairbanks.

Seattle, Nov. 24.—Within another 12 months passengers bound from Seattle to Fairbanks or other places in the Tanana will be landed within 300 miles of their destination by steamers and railroad trains. From the end of the Alaska Central, which by that time will be in operation from Seward to Knik, a distance of 142 miles, there passengers will find a well constructed trail extending the remainder of the distance to Fairbanks.

This fact was made public as the result of a meeting of the stockholders of the Alaska Central railway, which has just come to an end in this city, and the promise of better transportation facilities is embodied in the annual report of President Frost of the company.

In referring to this matter in his report President Frost said that the road will be completed to Knik by next fall and will be ready to handle all of the business to Tanana and other parts of the interior from that time on.

Will Build Roads to Interior.

He stated that trails and wagon roads will be built during the coming summer from Knik to the new Kantishna diggings and to Fairbanks. These trails will be built along the line now surveyed for the railroad, and the work of constructing them will be to a certain extent in the nature of preparing the country for the coming road itself, and it will in the meantime greatly lessen the hardships of winter trips into the interior.

The report further states that in the interval from January 1, 1905, to November 1, \$1,900,000 had been expended in the construction of the road, which is now in operation to mile 46. Graders are working as far as mile 105, and this work is to be pushed all winter and without interruption until the road is completed to the Tanana river, a distance of 450 miles from Seward. The company will build a branch of thirty-eight miles from Knik to the Matuska coal fields.

ST. PETERSBURG BUSINESS CIRCLES RESIST STRIKERS

Refuse to Treat With Employees Until National Assembly Acts and Count Witte Seconds Action.

St. Petersburg, Nov. 24.—Employers of St. Petersburg have taken a lead in resistance to the workmen, whose constant strikes, alternately on political and economic grounds have utterly demoralized the business of the country, bringing ruin and bankruptcy to all branches of industry.

They have formed an association and mutually pledged themselves to not only refuse strike pay, but to absolutely decline to treat with employes on questions of wages or hours until the National Assembly acts. Witte seconds the employers by directing that an identical action be taken by the government works.

CHANCE FOR RECOVERY.

Chicago, Nov. 24.—Doctors in attendance upon Marshall Field Jr. who was accidentally shot yesterday, issued a bulletin at 9 o'clock this morning as follows: "Pulse 88, temperature 92; there is a chance for recovery."

LOGGER IS INJURED.

A logger named Jos. Smidler was injured in Hoerk's camp near Frankfort yesterday afternoon. The bones in one leg were broken and the other limb was badly bruised. He was brought to St. Mary's hospital in the Evening, and is doing nicely.

They who worry much work little. Give fretful thoughts the busy signal typewrote from dictation, with her she is beautiful helps her to become so.

THE THIRD PARTY

Mutual Life Insurance Co., yesterday, by order of President Richard A. McCurdy. It was Mr. Davies who seconded the original resolution of investigation when President McCurdy proposed it. He has been considered as Mr. McCurdy's closest adviser throughout the investigation of the Mutual by the Armstrong Legislative Committee. He also acted as counsel for the investigation committee until the appointment of James B. Dill.

Committee Branching Out.

Springfield, Mass., Nov. 24.—President John A. Hall, of the Massachusetts Mutual Life Insurance Co., of this city has been requested to appear shortly after December before the Legislative Investigating Committee, now sitting in New York and furnish detailed statements of the company's business. President Hall expressed his willingness to furnish the information desired.

Illinois leads in the number of rural mail routes with 2608.

The dressmakers have decreed that waists shall be smaller this season. This encourages more pressure.

Commander Eva Booth, of the Salvation Army, was taken with what the doctors called appendicitis in New York the other evening. She is a grand little woman.

At the 36th annual meeting of the Woman's Foreign Missionary Society of the Methodist church held in New York, the ladies pledged to raise \$542,799 the coming year.

You must have a peculiar tea taste if no-one of the five Schilling's Best is right for you; and coffee four.

Your grocer's; moneyback.

A PIANO NUMBER WITH EVERY \$2.50 SALE.

A Word About York- shire Suits

Wise is the only man in Astoria who has them; as a rule fine houses in the largest cities carry these clothes.

Each clothier selects his own name, some call theirs "The Chesterfield," "The Buckingham," I call mine the "Yorkshire." These clothes are made by Sturte, Mayer & Co., Chicago; who do not advertise at all, but they are known by all clothing men as the makers of the highest grade clothing in the United States.

Suits to sell, from \$22.50 to \$40.00 and there are not a dozen tailors in all of the largest cities who can equal their work; a big boast but a true one.

ASTORIA'S RELIABLE CLOTHIER

TWO GOLD MEDALS AWARDED THE MONARCH

At the Lewis and Clark Exposition

Two Gold Medals awarded the Monarch at the Lewis and Clark Exposition, the first and only time this range was ever shown at any exposition.

No grand prizes were offered, but the Jury on stoves and Ranges voluntarily manifested their high esteem of the Monarch Range by writing the letter reproduced here. Several gold medals were awarded different Range and Stove manufacturers for various things--the Monarch received two. But it remains for the Monarch alone to receive the unqualified endorsement of the Jury, as is evidenced by this letter.

Mr. F. S. Rogers,
c/o Malleable Iron Range Co.'s Booth,
Manufacturers Building,
Lewis & Clark Fair, Portland.

Dear Sir:

I am in receipt of your letter of thanks and appreciation in receiving the gold medal, (highest award) on Monarch Malleable Ranges.

It may please you to know, as the jury, awarded the gold medal on first ballot and had there been any higher prize offered, the Monarch Range would certainly have received it.

We found the Monarch the best finished and best constructed Range with more special features than any other Range on exhibit.

Jury on Stoves and Ranges.

J. H. Astor
J. B. Ripley
P. L. Johnson
L. D. Johnson

This Demonstrates beyond the shadow of a doubt the superiority of the Monarch over all others. No other Range or Stove exhibited was, in the opinion of the Jury equal to the Monarch.

Pages of matter in praise of this Range could not speak as convincingly as does this letter, written by men of undisputed judgment and knowledge.

An examination of the MONARCH Range at our store will prove to any one the justice of this verdict.
