He said: "I am not pleased with this nation. No man hates this nation more than I do. When I go to say my prayers I have a struggle to get to the place where I am willing for God to allow the United States Supreme Court to have a part in my prayer. That damnable institution has robbed the negro of every vestige of human and manhood's rights. The men that compose that body may get to Heaven the best way they can, but it is little help God will grant for any request that I make. The negro will never be anything in this country but a scullion until he shows his manhood. Go to Africa and build up a great nation that will command the respect of the civilized world."

## SEBASTOPOL AT MERCY OF MUTINEERS

RIOTERS PARADE CITY WITHOUT INTERFERENCE

Proceedings of Zemstvo Congress and All Other Developments Pale Into Insignificance Compared to Present Impending Disaster.

DEMAND FOR BETTER FOOD BELIEVED TO BE THE CAUSE

Admiral Chouknin Unable to Cope With the Situation and Even With Troops at His Disposal Could do Nothing, as the Guns of the Rebel's Ships Sweep the City, and Thus Dominate the Situation and Prevent Any Active Measures Being Taken to Quell the Mutiny or Interfere With the Mutineers.

St. Petersburg, Nov. 26.—In view of the alarming news received of the mutiny at Sebastopol, today the proceedings of the Zemstvo Congress at Moscow and other developments of the Russian situation have paled into insignificance. The formidable revolt of the sailors of the fleet, the shore equipages and the infantry garrisons participating, appears to be beyond the power of Vice Admiral Chouknin, commander of the Black Sea fleet, to control, as the dispatches say nothing of counter measures being taken, or of the attitude of the other regiments of the regular garrison. Mutineers and riotous sailors parading the city with the regular flags, without interference, may be possible as was the case at Odessa, now that the guns of the battleship Paterellon (formerly the Kniaz Potemkine) and other vessels of the fleet dominate the situation and prevent active measures being taken to quell the mutiny, even if Admiral Chouknin has sufficient local troops at his disposal. The dispatches say nothing of the reasons for the mutiny or the demands of the mutineers, and no details are obtainable at the admiralty, the conjectures being advanced that demands for better food, and the release of the reservists might partly be responsible. The force of the commissioned officers at Sebastopol is now only about one officer to over 400 men, and many of these are utterly incapable. The revolutionary ferment, in spite of the efforts of the officers, is known to have affected a portion of the enlisted men in many of the regiments, and the Sebastopol mutiny may be a spark necessary to set the flame of widespread revolt.

## FOOTBALL HAS OUTGROWN ITS USEFULNESS.

San Francisco, Nov. 25.—President Benjamin Ide Wheeler, of the University of California in an address to the students yesterday, discussed football and used very plain words. Among other things, he declared the promised reforms had never come. He said: "The game has outgrown its intention. The trouble with it is that it is too highly specialized for the average student. Men have to be in an artificial stage of preservation to play the game as it is played today. I never objected to it on the ground that it is rough, but that it is not in the sphere of usefulness for the ordinary student. The great trouble is that the game is in the hands of a select appointed, self organized committee of rules. I refer to Mr. Camp and his assistants. They have promised reforms but have done nothing. Now college presidents have lost patience. We will revise the rules ourselves and the changes we make will be radical."
