### NO COMMUNICATION

**Dr. Funk Says He Held no Conference With Spirits.**

**HE HAS HOPES OF DOING SO**

**Noted Psychologist Expects to Hold Communication With Spirit of the Late Dr. Hodgson in Short Time—Is Investigating Psychological Phenomena.**

NEW YORK, Jan. 22.—Dr. Isaac K. Funk, who for many years has been identified with psychological research, last night discussed the claim of a western man that he had held a communication with the spirit of the late Dr. Richard Hodgson of Boston.

Dr. Funk said that he expected to be able to communicate with Dr. Hodgson's spirit on January 25. He based his hopes on a statement made to him by Professor J. H. Hyslop, of Columbia University, who was referred to in the message credited to the spirit of Dr. Hodgson.

Of a report that he and Mrs. Mary Pepper had communicated with the spirit of Dr. Hodgson, Dr. Funk said: "It is wholly untrue and without any foundation. I have held no such communication and do not know of such communication being held. I have never made any statement about the Hodgson case, but I am anxiously awaiting the result of further developments."

"Professor Hyslop has told me that he expects that by January 25th Dr. Hodgson's spirit will be able to communicate with those he has left behind. I am very curious to begin investigation on that line as soon as the time appointed by Dr. Hyslop arrives. I have done nothing as yet and I am awaiting Professor Hyslop's action."

of Ague and Malaria, can be relieved and cured with Electric Bitters. This is a pure, tonic medicine of especial benefit in malaria, for it exerts a true curative influence on the disease, driving it entirely out of the system. It is much to be preferred to Quinine, having none of this drug's bad after-effects. E. S. Munday, of Henrietta, Tex., writes: "My brother was very low with malarial fever and jaundice, till he took Electric Bitters, which saved his life." ### MEN ARE POWERLESS

**To Fight Against Disease Unless They Strike at the Underlying Cause.**

To treat Dandruff, and Falling Hair, with irritants or oils on which a parasitic germ will prosper, is like scooping water from the ocean to prevent the tide from rising.

You cannot accomplish a satisfactory cure without having a right understanding of the fundamental causes of the trouble.

You must kill the Dandruff Germ. Newbro's Herpicide does this because it is specially made to do that very thing. When the germ is removed, the hair has no choice but to resume healthy growth and beauty.

"Destroy the cause, you remove the effect."

### DENOUNCE DESPOTISM.

**German Chicago Socialists Condemn the Russian Autocracy.**

CHICAGO, Jan. 22.—Russian despotism was denounced in the most scathing terms and the Russian revolution was cheered by Germany Socialists of Chicago yesterday at a meeting commemorating "Bloody Sunday," January 22, 1905, when scores of workmen petitioning the Czar, were shot down in the streets of St. Petersburg.

The date was declared to be a milestone in the revolutionary movement of the Russian proletariat and the death knell of industrial and economic despotism of the capitalistic class throughout the world.

The meeting was attended by nearly 500 members of the various local German Socialist organizations.

A collection of \$500 was taken up for the benefit of the struggling Russian comrades, and a resolution of fraternal greetings was adopted and sent to the revolutionary committee of Russia.

### EDUCATE NEGROES.

**Would Teach Them to Cultivate the Soil.**

NEW YORK, Jan. 22.—At a meeting last night in the Church of the Holy Communion, W. J. Schieffelin, of this city and Rev. E. L. Chichester, chaplain of the Hampton Institute, told of the purposes and accomplishments of that school for negroes.

Mr. Chichester laid strong emphasis on the practical character of the work done, saying that no negro boy or girl might go through the institution without earning his or her own living. The first step, Mr. Chichester said, is work in the fields, and this results in a "skilled, intelligent, interesting gardener with the rudiments of a thorough agriculturist."

Mr. Schieffelin, who is a trustee of the school, recommended that anyone who was too well satisfied with himself to make the trip to Hampton and absorb a little of the spirit of the place where last fall but three hundred out of 1900 applicants could be accepted and where the standard was being constantly raised.

Acknowledging the limitations of the race, Mr. Schieffelin said that probably ninety per cent would be better off on farms—are better fitted for agriculture—but he made an appeal for the remaining ten per cent, saying:

"If they are going to be segregated, as the whites want them to be and as seems best to the South ought they not to have leaders?"

### CURSE OF INTOXICANTS.

**Chicago Ministers Speak on the Same Subject.**

CHICAGO, Jan. 22.—"The curse of Intoxicants," was the subject of the second of the series of co-operative sermons which was preached simultaneously last night by Jenkins Lloyd Jones in All Souls Independent church, the Rev. Brown Thorpe in South Congregational church, Dr. J. H. McDonald in Oakland Methodist Episcopal church, and the Rev. E. P. Tiller in Memorial Baptist church.

All the four clergymen denounced the habitual use of intoxicants and the baneful influence of saloons. Mr. Jones urged a revival of tee totalism and enforcement of liquor laws.

Dr. McDonald decried the license system, and censured Mayor Dunne for failure to close saloons on Sunday.

Pastor Thorpe advocated fights for local option in wards, villages, and cities, the increase of saloon licenses to \$1000, and the prohibition of sales of liquor in dance halls.

Dr. Tuller also favored increase of saloon licenses, an addition of 1000 men to the police force and declared himself for a state law prohibiting the sale of liquors.

### NARROWLY ESCAPES

**Aeronaut Ascends in Aeroplane and Takes Tumble.**

**FALLS THREE HUNDRED FEET**

**Automobile Hauling the Airship With a Long Rope Stops Suddenly and Aeroplane Falls to Earth—Aeronaut Barely Escapes With His Life.**

CHICAGO, Jan. 22.—A dispatch to the Tribune from Ormond, Fla., says:

Charles Hamilton, an aeronaut, dropped 300 feet with his airship yesterday and escaped fatal injuries by the narrowest of margins. Hamilton, when his airship dropped, was pitched forward upon the board walk. He struck heavily and lost consciousness. Later it was found no bones were broken.

Although Hamilton was in the air not more than three minutes, his flight was regarded as a good deal of a success. The collapse was due to the insufficient power of a sixty-horsepower touring car which was used to do the towing. The combined weight of the aeroplane, man and 800 feet of rope was sufficient to cause the car to slip backward slightly when the chauffeur tried to increase his speed. The aeroplane rose like a bird with the first pull, and in a few seconds was 500 feet in the air. When the speed of the tow began to lessen the airship began to wobble like a kite on a string, and Hamilton, by mistake, dropped his cap which was to have been the signal to the tow driver to stop.

The aeroplane at once began to flutter downward with increasing speed until the rope caught on top of a flagpole. Then a corner of the machine struck the bathhouse plaza roof, and wedged between the building and the flagpole.

Young Hamilton hails from Houston, Tex.

### GETS THE MONEY.

**Japanese Secures \$7,000,000 to Invest in Mills and Machinery.**

SAN FRANCISCO, Jan. 22.—Shizuo Kondo, a Japanese capitalist, has arrived here from London on his way to Japan. The Chronicle says that Kondo has secured \$7,000,000 paid up capital in England, which is to be invested in mills and machinery under the management of an English-Japanese corporation. After effecting a combination of steel and iron works of Japan, the manufacture of celluloid and silk will be taken up and other industries will be taken up as the capital of the international corporation permits. The intention is to do the actual manufacturing in that country where it can be done most cheaply, so that the ramification of the company's business is likely to be widespread.

### CROWDS ENJOY WEATHER.

**Warm Wave Brings Out New York's Thousands to Coney Island.**

NEW YORK, Jan. 22.—Coney Island came back to life yesterday. The mild weather caused a crowd, estimated by the place. The cry of "Come on in, the water is fine," was heard for the first time in several months and thirty-five men stripped and took a dip in the chilly brine.

The board walk extending from the parkway baths to Manhattan Beach was well filled with people and the winter bleakness of the section took on a semblance of life. Bartenders were kept busy serving drinks and restaurants did a big business.

### TOWARD DEMOCRACY

**World Movement Is Toward Democracy.**

**AMERICA'S GREAT FUTURE**

**President Eliot of Harvard Predicts That in One Hundred Years United States Will be Greatest Democratic Country in the World.**

CAMBRIDGE, Mass., Jan. 22.—President Eliot of Harvard pictured a mighty American republic a hundred years hence in an address yesterday before the "Prospect Union on Reverence, Consistent with Genuine Democracy." He spoke in part as follows:

"The great movement of the world today is toward Democracy. The great keynote of the present century, the century that we are just entering upon, will be democracy in all things. One hundred years from now the population of our country, which is now for the most part wilderness, will be beyond any present conception, and this great nation will be the most democratic that the world has ever known."

"The progress of Democracy will be the great future of the advance of civilization in the present century. If this is to be sound, the character of our people must be as sound as their proficiency in the arts, in commerce, in governments."

"Though critics of democracy say that democracy has destroyed some of the finer characteristics of the older countries, such as reverence of children toward parents, pupils toward teacher the people toward their rulers, there is in all relations a more genuine relation than formerly. No nation in the world has such reverence for women as have the men of the great republic. Our reverence for symbols has diminished, but not for the ideals which these material signs of religion and love of country stand for."
