Magoon of Panama Says All is Lov ly.

UPHOLDS ADMINISTRATION

Governor of Panama Canal Zone States Things Are Progressing Beautifully in Land of Mosquitoes, Malaria, and Yellow Fever—Very Healthy Place.

NEW YORK, Jan. 21.—Governor Charles E. Magoon, of the Panama Canal Zone, who arrived here from Colon yesterday on his way to Washington, met T. P. Shonts, chairman of the canal commission, at the Waldorf Astoria last night. Later he talked with reporters and it developed that his view and Poultney Bigelow's of conditions on the canal zone as expressed by Mr. Bigelow in a series of published articles differ widely. He said:

"Mr. Bigelow's visit was very brief. He reached Colon at 10 o'clock in the morning on Thanksgiving day, caught a train that landed him in Panama City at four o'clock, remained there an hour and a half and returned to Colon. He left the Isthmus the next day at 2:10 o'clock. I understand that he spoke of the manner in which the work was going forward, and spoke of seeing laborers at work. As a matter of fact, he was at Panama on a holiday, when no one worked, so in that respect he is mistaken.

"I was appointed in April," continued the governor, "and went down there in May. This is the first time I have been back. As to whether the country is healthy, I suppose my own appearance might afford some indication."

Mr. Magoon smiled as he said this. He is more than six feet in height, and weighs more than 200 pounds. He has a fine tropical tan and is the picture of health.

"The only illness I have had down there," he continued, "was a rather bad attack of malaria shortly after reaching the Isthmus. There was an epidemic of yellow fever when I arrived, but it was suppressed. The measures adopted to combat by the sanitarians have driven it out I believe.

"Malaria on the Isthmus is very bad. It is a common disease, and of course, immunity is not acquired. It is not so severe, however, as the malaria which developed in some of the Western states, such as Michigan and Illinois when they were first opened up.

"The steptomysia as the yellow fever

Pears'

Pears' Soap leaves the skin smooth, cool and healthy. There's no free alkali in Pears' Only good soap and pure.

KEEP YOUR HEAD UNCOVERED.

The Constant Wearing of a Hat Propagates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalps of these same men once became infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicide kills these germs and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading druggists. Send for stamps for sample to The Herpicide Co., Detroit, Mich.

Eagle Drug Store, 351-353 Bond St., Owl Drug Store, 549 Com. St., T. F. Laurin, Prop. "Special Agent."

breeding mosquitos are named, develop in habitations, and are attacked in the towns by fumigation. The anophels, the malaria breeding mosquitos are propagated in the swamps and are attacked with great success by draining. A great deal of oil is also used. It is our ultimate object to drain a strip half a mile wide clear across the isthmus to reduce the propagation to a minimum."

Governor Magoon said that there are now about 15,000 laborers engaged in the canal work and 30,000 others employed. In reply to a question concerning the efficiency of the Isthmian police the governor said:

"I have no hesitation in saying there is not a house of gambling or of ill-fame in the canal zone. There have not been any such nor will there be.

The stories concerning the 180 Martinique women now in the zone are discredited by the conduct of the women themselves. They have been watched by the police all the time since their arrival. There have been no arrests and no complaints about them, of the whole number, 160 are living with men whom they declare to be their husbands. They are attending to their ordinary household duties, as would women of their own class in any peaceful community. The majority of the remaining government of many wardrobes and other house fixings.

"The Panama Railroad commissaries import and sell such things as they desire to handle," he said. "They are not bought with government money at all. There is no doubt they did import 1,000 suit cases. If anything is needed in that country to pack things in, it is a suit case. People wear collars, cuffs, and neck ties there as elsewhere and they are to be bought, as are perfumes and the like.

"Regarding the work on the canal I can only say that it speaks for itself. That is out of my province."

The men are all busy. They are paid from 14 to 26 cents an hour, silver. The men are housed in cleanly barracks, with 300 cubic feet of breathing space for each. From twenty-five to thirty negroes are housed in one building. More white men are allowed in a single building, but the buildings are larger. They sleep in sanitary cots, some of them double deckers. The floors in the new buildings are all watertight, most of them being of cement.

"It was necessary at first to use the old buildings used by the French. They were first repaired, however. More new barracks are going up all the time, and it will not be long before the old ones will be abandoned."

BRIGHT IDEA.

Woman's Department of Institute is Named After Founder's Mother.

PITTSBURG, Pa., Jan. 29.—The trustees of the Carnegie School of Technology have received a letter from Andrew Carnegie, thanking them for naming the woman's department after his mother. Mr. Carnegie says:

"I am delighted with the action of the trustees. Please say that I am deeply touched by this remembrance of one to whom I owe everything that a wise mother ever gave to a son who adored her."

STEAMER IS ASHORE.

German Steamer Mariechen Drifts on Alaskan Beach.

SEATTLE, Jan. 29.—A special dispatch to the Post-Intelligencer from Sitka states that the German steamer Mariechen from Seattle to Vladivostok, went ashore in False Bay last Thursday. The officers and part of the crew arrived at Sitka Sunday on the Georgia. The cargo will be a total loss, but the ship may be saved. Captain Hibbard, one of the charters who was on board, said: "We encountered a gale eight hundred miles off Cape Flattery. It smashed in the deadlight and waters flooded the engine room and extinguished the fires. We have been drifting ever since."

Captain Hibbard praises Captain Rudolph, who was in command, for his wonderful work in keeping the vessel afloat in spite of the terrible gales and fearful cold.

STRIKE A FAILURE

Structural Steel workers Strike is in a Bad Way.

TO ADOPT DRASTIC MEASURES

Central Federated Union Has Been Persuaded to Order Every Labor Organization Still at Peace With Employers to Break Peaceful Relations.

NEW YORK, Jan. 28.—A strike embracing 130,000 men and involving the entire building industry of New York is now being eagerly aimed at by the structural steel workers of the city.

Such a desperate step is necessary, they say, in order to preserve their waning organization from complete ruin as a result of a strike in which they have been engaged for the past seven weeks.

The delegates of the Housecarpenters and Bridgemen's Union, which embraces the structural steel workers prevailed on the Central Federated Union yesterday to order every labor organization still at peace with their employers to break those peaceful relations and ally themselves with the strikers. If they fail to do so they are to be suspended from the Central Federated Union.

An extraordinary situation will be thus created. A large number of labor unions, among them the carpenters, stone cutters, roofers, masons, and plasterers, are not only at peace with the Building Trades Employers' Association, but many of them are requested on the joint board of arbitration, composed of both employers and workers. Should they stick to the structural steel workers, they will not only have to strike, but also will have to withdraw from and in effect repudiate the principle of arbitration, which they have been upholding.

Next Friday will decide the fate of the proposed great strike. On that day the organizations which are at work are to appear before the Central Federated Union and answer how they are to stand—whether for or against the strike.

Samuel Gompers, president of the American Federation of Labor, is also to be appealed to by the structural steel workers.

The structural steel workers have been in hard luck ever since their leader, Sam Parks, died. In their present strike, which involves the skyscrapers going up all over the city, they have been nearly overwhelmed, they say, by strike breakers, by non-union men brought here from other cities. Only yesterday 400 of the building strike breakers passed through Jersey City on their way here to work on the skyscrapers.

Back of it all is the question of the "open shop". The delegates of the structural steel workers warned the Central Federated Union yesterday that if they were allowed to go down in ruin the employers in every other building trade would force the open shop on the men thus involving all organized labor in one common ruin. It was in response to that threat that the Central Federated Union resolved to summon all its members to stand by the structural steel workers at all hazards.

MORE COMFORT THAN EVER.

On Sunday, December 17th, the Denver & Rio Grande railroad will inaugurate a daily line of standard and tourist sleeping cars between Denver and Los Angeles in connection with the new Clark road. Both cars will leave Denver daily at 9:30 a. m., and arrive at Salt Lake City at 1:35 p. m., the next day. At this point the cars will be held over until midnight, thus allowing through passengers the privilege of a stop-over of ten hours and a half in Salt Lake City. Eastbound, these cars will leave Los Angeles at 8 p. m., and arrive at Salt Lake City at 6:30 a. m., second morning where they will remain over until 3:50 p. m., thence to Denver where they will arrive at 4:20 the following afternoon. This stop-over at Salt Lake City of the regular line of sleeping cars promises to be an attractive feature for transcontinental travelers.

Spoiled Her Beauty.

Harriet Howard, of New York, at one time had her beauty spoiled with skin trouble. She writes: "I had Salt Rheum or Eczema for years, but nothing would cure it, until I used Bucklen's Arnica Salve." A quick and sure healer for cuts, burns and sores. 25c at Chas. Rogers, drug store.

CASE POSTPONED.

Investigation of Standard Oil Set For February Twelfth.

NEW YORK, Jan. 29.—Henry Wollman, in whose law office Attorney-General Hadley of Missouri took his testimony in his proceedings against the Standard Oil Company, stated yesterday that he had no information as to when Justice Gildersleeve would announce his decision in the contempt proceedings against H. H. Rogers who refused to answer certain questions put to him by Mr. Hadley. It has been intended by Attorney-General Hadley to resume taking testimony in this city tomorrow, but important matters in Missouri have caused him to adjourn the case to February 12.

GIRL IS ASSAULTED

Negro Fiend Attacks Ten Year Old Girl.

MOB WANTS TO LYNCH HIM

Negro Servant Makes Criminal Assault on Ten-Year-Old Daughter of His Master—Is Saved From Mob by the Girl's Mother.

CHICAGO, Jan. 29.—A dispatch to the Tribune from Washington, Ga., says:

Following a criminal assault on a ten-year-old girl by a negro, who was captured by a mob, the assailant's fate was in doubt yesterday while the parents of the girl were pleading for and against burning him at the stake.

Mrs. Roberts, weeping, begged that the law be allowed to take its course, and her husband continued to incite the mob to lynch the negro. She then appealed to her husband to aid her in preventing the lynching. She said that to put the assailant to death within hearing of the girl would be almost as cruel to the child as the negro's act.

Roberts, after some hesitation, came to his wife's side and joined his entreaties with hers. Their united efforts convinced the mob that to lynch the negro would add to the wrong already done the child, and it was agreed to turn the assailant over to the sheriff.

Mamie Roberts was attacked Saturday as she was returning from a neighbor's home by Rich Anderson, a negro employed by her father. As soon as the child reached her home with the story, possums with bloodhounds began pursuit of Anderson.

The negro was captured yesterday in a swamp and taken to Roberts' home, where it was planned to have him identified by the child and then lynch him. When the mob arrived at the Roberts' home the negro confessed his guilt.

A Grim Tragedy.

is daily enacted, in thousands of homes, as death claims, in each one, another victim of Consumption or Pneumonia. But when Coughs and Colds are properly treated, the tragedy is averted. F. G. Huntley, of Oakland, Ind., writes: "My wife had the consumption, and three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, Coughs and Colds, which cured her, and to-day she is well and strong." It kills the germs of all diseases. One dose relieves. Guaranteed at 50c and \$1.00 by Charles Rogers, druggist. Trial bottle free.

Men are quite as eager as women to cultivate looks. We know of hundreds of men in this vicinity that are taking Hollister's Rocky Mountain Tea. Smart fellows, 35 cents, Tea or Tablets, Frank Hart, druggist.
