VAIN ARCHITECTURE

America Uses Little Taste in Their Buildings.

FEW BUILDINGS HAVE ART

America Has Run the Gauntlet of Styles From Gothic to Colonial—New Structures Are Soon Out of Date and Torn Down.

NEW YORK, Feb. 2.—Hugh M. G. Gardner of Chicago spoke on "Agricultural Styles and American Life," before the delegates of the architectural League of America last night. He said that its architecture was an indication of the character of a nation and that our architecture was vain, tawdry, and shamming.

At present there is a battle of styles and conditions, he said. American has run the gauntlet through the Gothics and the dear old Louises and the Colonial, which appears with hay fever regularity. In ten years the best houses are out of date and in twenty they are torn down. The accumulation which we tear down every year, is worth millions of dollars; more than any other nation spends in the erection of new buildings.

A building is the fruit of a man's nature, he went on. It is a mirror, not only of himself, but of the whole people at any given time and place. The vain, tawdry and unseemly buildings reflect us.

But there are a minimum of buildings which are sane, sound and wholesome. The existence of the two opposing sides denotes the war between the influence of the Democratic idea and the threatened oppression of the dollar. We should have a school of architecture of our own.

Professor A. D. Hamlin of Columbia spoke on the "Relation of Decorative Sculpture to Architecture."

In the afternoon the delegates, the guests of the National Society of Mural Painters, made an excursion around the city.

J. P. Morgan's art galleries, Gorham's and Tiffany's new stores," said a Chicago architect, "are the three best buildings on the continent. The new custom house is very imposing; for its use it is perfect."

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Mannell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 5, '99, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

END ARMY GRAFT.

House Committee on Military Affairs to Investigate Conditions.

CHICAGO, Feb. 2.—A dispatch to the Tribune from Washington, D. C., says: The House Committee on Military Affairs, of which Representative Hull, of Iowa, is chairman, has determined to put an end to graft in the army.

If Congress enacts legislation in accordance with its recommendations mileage accounts can no longer be passed, nor can army transports be used for excursions by officials, or members of Congress, or anyone else. The committee is searching for other leaks in the laws which permit diversion of money into the pockets of interested parties.

"We estimate that \$50,000 has been paid out in mileage," said Representative Hull, "to which the recipients were not entitled. They got hold of the money by evading the law which Congress has enacted for the express purpose of introducing economy in transportation. The intention of Congress was to reduce the amount of money an officer shall receive who was under orders to the Philippines."

"The law states specially that only actual expenses shall be paid between the United States and its insular possessions, but we have found that officers have been ordered to Nagasaki, Japan, or Shanghai, or even down to Hongkong, and thence to Manila, traveling with the exception of the last leg, on government transports. These have received mileage when they should have been reimbursed only for their actual expenses and the latter amount to about \$1 a day while mileage for the trip amounts into the hundreds. An officer going to Manila via Europe receives over \$900 in mileage. If ordered to Manila he goes direct from San Francisco and it is cut down two-thirds."

TO WIN STRIKE.

Printers Believe They Can Win Over Strike Breakers.

CHICAGO, Feb. 2.—The printers believe they have evolved a scheme for winning strike breakers to the union ranks without violating Judge Holdom's injunctive order. The plan consists in compelling the non-union men to make affidavits to the effect that they have not been solicited to join the union.

"We believe that will forestall any possibility of further contempt proceedings on the ground of interference with the business or employes of the Typothetae," said President Wright of the union yesterday. "We shall continue to take non-union members into the union by this system hereafter."

LIBRARY MEMORIAL.

Chicago University to Erect Library in Memory of Harper.

Chicago, Feb. 2.—The Harper memorial committee of the Board of Trustees of the University of Chicago recommended to the trustees yesterday that the memorial take the form of a general library building to cost \$1,250,000. All the friends of President Harper will be asked to co-operate in securing the funds.

It was recommended also, that the final resting place of the president's body be designated by the wishes of the family. This leaves in some doubt the question as to whether the building will serve as a mausoleum as well as a memorial.

APPOINTED DELEGATE.

Mexico Names Man to Attend International Postal Congress.

MEXICO CITY, Feb. 2.—Postmaster-General Dominguez has been appointed by the government a delegate to the International Postal Congress to meet at Rome next month. Two other delegates have also been selected. The post office bureau is preparing plans for perfecting the postal service of this republic and the delegates go instructed to look into the advanced methods adopted by European powers.

A PECULIAR MANIA

Crazy Woman Fills House With Costly Trash.

HOUSE IS CLOSED 19 YEARS

Woman Spends \$250,000 Out of Fortune of \$500,000 for all Kinds of Costly Articles Which Are Heaped in Confusion in Her Home.

NEW YORK, Feb. 2.—More than \$250,000 worth of goods bought in New York City, on shopping tours and stowed in rooms, closets and halls nearly filling a large four-story brownstone mansion in Brooklyn, lay for nineteen years unneeded.

Laces were heaped upon calico, furs on cotton, the daintiest of linens and silks were stored with common household garments, \$500 gowns from the most fashionable of dressmakers were laid on cheap mother hubbards, solid silver and cheap plate, the most fragile of china sets were mixed with ironware, crystal, and cut glass, with common glassware—all cast in piles reaching as high as the ceilings, stuffed in closets and lying on the stairs.

This was the result of a search of the "House of mystery," No. 178 State street, Brooklyn. It tells of the mania of Mrs. Mary Cook, who died two weeks ago in a Flushing sanitarium and it explains what became of part of the \$500,000 estate left to her by her husband, twenty years ago. The search was conducted by J. H. Squibb, executor of Mrs. King's estate.

There were no children born to the Kings and when Mrs. King came out of mourning two years after her husband's death it was found she had developed an eccentricity of character bordering on insanity. She discharged all her servants, she had the windows and doors of her home iron barred, and she refused to receive visitors. She grew worse and at the end of four years, about 1889 it was thought best to send her to a sanitarium. At the time she was promised that no one should enter her home until after her death.

When the court appointed a committee for her estate it was impossible to find more than \$250,000 in a bank and she refused to tell what had become of the rest. There was then no thought of searching the house.

Mrs. King died two weeks ago and by her will Mr. Squibb was the executor. When the legal formalities were concluded he began a hunt for the missing securities and on Thursday of last week he turned the key in the rusty lock and entered the house. The astonishing discovery was then made.

CHANGE OF TIME

The Baltimore & Ohio Railroad Commencing Sunday, November 19, train No. 6, the Royal Blue Limited, will leave Grand Central passenger station, Chicago at 5 p. m., instead of 3:30 p. m. and will arrive in Pittsburg at 6:35 a. m., Washington at 4:40 p. m., Baltimore 5:50 p. m., Philadelphia, 8:19 p. m., New York 10:40 p. m. the same as with the old schedule, thus reducing the time one hour and thirty minutes. No excess fare will be charged on this fast limited train. All other trains will arrive and depart the same as formerly. Stop-over is allowed at Washington, Baltimore and Philadelphia, not to exceed ten days, at each place, on all first-class through tickets.

ELECTED PRESIDENT.

CHICAGO, Feb. 2.—Albert M. Johnson, who has been vice-president of the National Life Insurance Company for several years, was elected its president at the annual meeting yesterday, held here. He succeeds H. M. Starnes, who gave in his resignation in December because of impaired health, and is now on the Pacific coast.

LIST OF IMPORTS.

Japanese Imports Are Increasing To This Country.

SAN FRANCISCO, Feb. 2.—The local appraiser's office yesterday gave out a list of goods of staple quality that are now being imported from Japan. The list does not include the regular staples of that country, but articles of almost every kind and description. The report shows that the Japanese are encroaching to an alarming extent; upon the American trade. A few years ago some of these articles came from Japan. Now they are imported and sold here after the duty is paid much cheaper than the American manufacturer can turn them out.

QUASH INDICTMENTS

Burlington Attorneys Move to Quash Proceedings.

ALLEGATIONS INSUFFICIENT

Railroad Indicted on Seven Counts Offering, Granting, Receiving, and Giving of Rebates, Concessions and Discriminations—Cases Up In April.

KANSAS CITY, Feb. 2.—The Burlington railroad freight traffic manager, George H. Cosgrove, and Freight Broker George L. Thomas, replying to indictments returned against them in the federal court, filed motions to quash the entire proceedings. The Burlington had been indicted on seven counts. It may be made seven answers, all of them identical in text and demurring on the grounds that the allegations contained in the criminal suit brought against them were insufficient.

In the instance of Thomas, the freight broker, who is alleged to have had a deal on with the Burlington, his clerk, Taggart, and Cosgrove, the Burlington's freight manager, motions to quash were also filed. After demurring on the grounds of insufficiency of allegations, no reasonable certainty and "Because the indictment charges no offense against the United States for the reason that the alleged conspiracy became merged in the completed offenses which are alleged to have been the object of the alleged conspiracy, the demurrer reads:

"Because the objects of the alleged concert were the offenses of offering, granting, receiving and giving rebates, concessions and discriminations, which offenses in themselves required a concert and participation of plurality of agents, and the said indictment shows no concert or combination of persons other than that necessary to commit the said offense."

These cases cannot now come up until the April term of court, as the jury has been dismissed for the present term.
