

## FOR NAVY INCREASE

Federated Union Men Would Enlarge Navy.

## ADOPT SUCH RESOLUTION

Union Men Decide That More Battleships Should be Constructed and Government Ought to Build Its Own Ships.

NEW YORK, Feb. 19.—The attitude of organized labor on the subject of increasing the size of the United States navy was reflected last night in the discussion of a resolution presented in the Central Federated Union, urging the building of more battleships. The resolution was adopted with the important provision that the ships be built in government yards instead of by private companies. Not all the delegates were agreed as to the advisability of increasing the navy, a representative of the Amalgamated Wood Workers' Union making the assertion that his conscience forbade him to "sanction the manufacture of machines to murder human beings."

Another delegate said his feelings were just as sensitive in the matter, but so long as "murderous machines" are to be built he argued that union men ought to be employed in the work. A delegate from the seamen's union said that the battleships the government now has are rusting at anchor. He said he did not see the use of building more vessels, because union men are not employed in them when they are finished.

Action at this time is particularly desired because the battleship Connecticut, now building in the Brooklyn navy yard, will soon be completed. It was affirmed that twenty per cent of the employees already have been thrown out of work because there is no more battleships now ordered to be constructed there and that fifty per cent of the men will be discharged as soon as the Connecticut is ready for launching.

"It appears that the influence of owners of private shipyards is all-powerful," it is set forth in a resolution, "in forcing government officials, through both Houses of Congress, to refuse to continue the building of government vessels in the navy yard, when it has been shown by actual experience that better results accrue to the government by the government building its own ships."

## CAN'T BE SEPARATED.

Some Astoria People Have Learned How to Get Rid of Both.

Backache and kidney ache are twin brothers.

You can't separate them. And you can't get rid of the backache until you cure the kidney ache.

If the kidneys are well and strong, the rest of the system is pretty sure to be in vigorous health.

Doan's Kidney Pills make strong, healthy kidneys.

H. B. McCarver of 201 Cherry street, Portland, Ore., inspector of freight for the Trans-Continental Company, a man who is very well known among the railroaders of the coast, says: "Doan's Kidney Pills are the among the few proprietary remedies which do all that is claimed for them, and they have my thorough confidence. I used them for backache and other very marked symptoms of kidney trouble which had annoyed me for months. I think a cold was responsible for the whole trouble. It seemed to settle in my kidneys. Doan's Kidney Pills rooted it out. It is several months since I used them, and up to date there has been no recurrence of the trouble. I have recommended them to a number of the boys about the freight house and I know if they gave them a fair trial they certainly must have been pleased with the results."

Plenty more proof like this from Astoria people. Call at Charles Rogers' drug store and ask what his customers report.

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

The vote in the house on the railroad rate bill, 346 to 7, is coming to be looked upon as the greatest damper on eloquent congressional oratory in some years.

## A WONDERFUL PROOF.

The Burning Glass as a Demonstrator of the Sun's Heat.

"The sun's heat is so great"—But an intelligent young woman interrupted the scientist impatiently.

"After all," she said, "it is guesswork this talk about the excessive heat of the sun. You can't prove any of your claims."

He was disgusted.

"I can't," he cried. "Why, it is the easiest thing in the world to prove that the sun is hot enough to melt iron, granite, the hardest substances known into liquid, into steam."

"How would you make such a proof?" she asked incredulously.

"With the burning glass," said he. "A burning glass is slightly rounded. Thus it bends into a focus—it concentrates upon one small point—a number of sun rays. The tiniest burning glass catching only a few rays, will light a fire, set off a gun or bore a red hole in your hand."

"Yes."

"The solar heat which the burning glass collects for us is the tiniest fraction of the sun's actual heat. We can prove this by focusing with our glass rays from a powerful lamp or a great fire. We get a small, bright spot, a little heat, but this heat is nothing to compare with the heat of the lamp itself."

"So, knowing, now, that the solar heat which the burning glass gives to us is but a fraction of the heat of the sun, we take a burning glass a yard in diameter—such glasses have been made for the sole purpose of convincing skeptical persons like yourself—and this glass concentrates many hundreds of sun rays for us, and it gives us a heat greater than we can obtain in any furnace, a heat that will melt rock into vapor."

The scientist smiled triumphantly.

"There is your proof," he said. "The burning glass will only collect a tiny portion of a burning object's heat, and the tiny portion of the sun's heat that it gives us is yet sufficient to change in a jiffy a block of granite into a puff of steam."—Exchange.

Treatment to Appearances.

"A photographer is really among the most trusting of men."

"How do you make that out?"

"Doesn't he always take people at their face value?"—Baltimore American.

A Relief.

Mother—Do you think it is a good thing to spank a child? Doctor—Well, it often relieves the parent of a bad fit of temper.—Detroit Free Press.

A mother's tears are the same in all languages.

Dr. D. A. Sanburn  
FRENCH SPECIALIST.

The King of Cures

I am now in your city introducing my wonderful art of healing. Come one and all and I will tell everyone their disease and you will be made well. My medicines are all nature's remedies, roots, herbs, barks and berries.

After I introduce my medicine I will leave certain kinds of it in your drug stores.

Office hours: 9 to 12 a. m.; 2 to 8 p. m., at the Megler House, 680 Commercial street, rooms 1 and 2.
