A DANGEROUS DOCTRINE.

The man, or men, in this county of Clatsop, who are attempting to spread the doctrine that "the Requblican legisever shall become of the balance of the have met with the Philippines. candidates," is speaking without authority and without judgment. It is an erroneous and dangerous doctrine and subversive of the best interests of the lady-like game? party CLATSOP COUNTY MUST GO REPUBLICAN, FROM UNITED STATES SENATOR TO CONSTABLE OF HER LAST PRECINCY. Everyone knows the righteous necessity of sending up a strong Rebublican representation to the capitol and it is all right that such a plea should be heralded, but not in the exclusive sense, nor to the detriment of a single element of the ticket. There must be no seggregation. no indifference, no pandering to any clique, faction, interest, nor constituent phase, of any sort; the ticket, as a whole, must invite the absolute and unqualified concern of the Republicans of this country, for to embarrass it with peculiar of divergent action is to thretaten, not alone the restoration of the dominant party to power in this county, but the success of the larger par- | what bill it is they are going to kill. ty interests in the Senate. It is a false premise and cannot be abandoned too quickly if the opposition is to be put where all minorities, good, bad and indifferent, are supposed to be. There is a plain and significant duty confronting the earnest and honest Republicans here and if the work cut out for them is not done, to a verity and completeness required by every consideration of \$35,000,000 from the city. safety and success, the Democrats will not be in the line of reproach; they will be utterly exempt by reason of the fact that what they shall win will have been deliberately handed out to them, the largees of treachery and the spoils of Republican faithlessness,

RADICAL PROGRESSIVENESS.

"A Bill for an Act Requiring Physicians to Take Human Life." This is the title of a bill now pending before the legislature of the State of Iowa. It is the first and most radical demonstration, in a legal way, of the theory that it is expedient, socially, and industrially, to destroy idiotic and helplessly deformed children, at birth, and maladystricken adults and incurables later in life, that has ever been broached in this country, and its progress will be watched with tremendous interest all over the county. It took courage of rare sort to frame and introduce such a measure and it will require no less to enact it into a statute. It has an ugly sound and at first thought inspires repugnance and horror, but the reading of the bill minifies this, and engages the more tolerant interest of the mind by the wealth of argument in favor of the progress, as a legal and a merciful method of reducing the endless miseries and dreadful dependencies of life. The fact that the abnormal children are to be skillfully disposd of with the consent of the parents, and the adults with their own consent, or in default of this, with that of the nearest of kin, puts the bill on a footing of rational con-ideration it might lack under less thoughtful provisions, and if it should pass to the code of Iowa, an organic and actual prescrip-
