WEATHER.

Oregon and Washington, partly cloudy, with possibly showers.

THE PUBLIC WITH HIM.

The assault made upon Editor Piper of the Morning Oregonian, on Monday last, by W. A. Johnson, whose feelings are alleged to have been hurt by reason of the trenchant and candid policy of that paper in its strenuous and righteous fight against the Portland gas monopoly, is one phase of the warfare that should rouse public sentiment absolutely in favor of the big daily and create a tendency for a summary and wholesome solution of the controversy.

THE CORPORATE HOG.

Slowly, yet most certainly, the American public is awakening to the outrageous burdens of cost and profit to which it has been subjected for long years, by the corporate concerns of the country.

EDITORIAL SALAD.

Kansas has adopted a plan to teach boys scientific farming in the rural schools.

Four battleships cost more money than is given by all Protestant Christendom for missions.

We know a man who is always crying poverty, yet he drinks more whiskey than John D. Rockefeller.

The Chinaman has as many wives as he can afford to buy, and the more he pays for them the more he is looked up to.

Only the doctors know how little real sickness there is in the world.

Mr. Hamilton is a volcanic witness at the start, but should be sure to tell it all.

If the law isn't just right, kick Jevons for it, seems to be the only recourse of the eager.

The realms of air have ceased to be free in Canada. A license must be taken out there to practice wireless telegraphy.

Editor Hearst has broken with Colonel Bryan. By the time the colonel gets back to the home shore he will find his fences all shot to pieces.

The hope of Missouri Democrats is ebbing out since they discovered that they will not be called in to write the Republican state platform.

The United States holds the world's war record, having won an average of 82 per cent of all the battles in which it has engaged.

President Roosevelt recently issued an order extending civil service to the employment of laborers throughout the service of the government.

As a sort of reciprocity, the racetrack gamblers might be requested to present a few observations on how the churches ought to be run.

Admiral Dewey is anxious the country should have battleships, perhaps remembering he never got a chance to command one in action.

Japan is preparing to have erected in Washington the finest legation building in the national capital. It will surpass in magnificence all other embassies.

A Welsh mountain is gradually changing its location at Troedryhiwfuwh. Why don't the spelling reformers try it first on Wales?

Canada has more miles of railway per capita than any other country, but the United States is ahead in the per capita of transportation trouble.

It will be all right to proceed with the oil investigation in the absence of Mr. Rockefeller. He will stand for anything that the company has done, or that may be done to the company.

Too many young people are always getting ready to do something but never beginning. The way to develop our latent resources is to put to work what we have.

According to Professor Darwin a twelve-thousand-ton ship can be run twice across the Atlantic at fifteen knots per hour on twenty-ounces of radium.

A Kansas pastor has discovered that the "unfermented" wine made especially for church communion contains wood alcohol, hard cider, and aniline coloring.

Jim Hill will give cash prizes for the best tilled and best governed farms along the Northern Pacific. Incidentally it may be remembered that the producer pays the freight.

It took four volleys from a firing party of sixty men a hundred feet off to kill the Russian mutineer, which causes one to wonder why any Japanese was careless enough to get hit.

The Arabs have a tradition that "Adam fell out of Paradise with three treasures: the myrtle, sweetest scented of flowers; a wheat-head, chiefest of foods; and pressed dates, rarest fruit in the world!"

Here is a wonderful machine. It folds the letters, places them in envelopes, addresses them, seals and stamps the envelope, and all accomplished with a speed that startles the quickest fingered girls who formerly did the work.

A Democratic paper published in that Gibraltar of its party, Monroe county, Mo., declares that "Unless the present warfare and petty hostility against every man who is friendly to Governor Folk ceases the Folk men will be forced to organize in self-defense." Perhaps the yeomanry of Monroe objects to Folk's indictment of his ten Democratic predecessors for failure in law enforcement.

Speaking of the next Congress, an Alabama paper remarks that "The gain of eight seats by the Democrats in Missouri is not at all improbable, and if a widespread coal strike is brought on the gains in Ohio, Indiana, Illinois, Pennsylvania, and even New York, will be heavy." That paper is badly deceived about Missouri, but its prayer for calamity has an orthodox Democratic flavor.

Since the 2-cent a mile passenger rate went into effect in Ohio excess baggage costs 50 per cent more than before, and but for the electric roads all baggage would be charged for. The traction lines move into the situation quietly, but they get there.

LIVELY HELD RESPONSIBLE.

CANON CITY, March 27.—The coroner's jury investigating the Adobe wreck on the Denver and Rio Grande returned a verdict today to the effect that the collision was due to the carelessness of Operator Lively at Swallows, who was asleep when the train passed and failed to stop when asked by the dispatcher, and that said negligence was not willful or malicious and no criminal prosecution should be brought against Lively or the railroad. The jury condemns the action of night operator Van Dusen in deserting his post of duty and recommends changes in the manner of operating trains.

SCOTT OUT ON BAIL.

SAN FRANCISCO, March 27.—Walter Scott, the Death Valley Miner, was not released on the charge of assault with a deadly weapon arrived from San Bernardino and he was formally charged on the prison register. This practically disposed of the writ obtained from Judge Graham Saturday. Scott was again placed in jail but his attorney secured another writ from Judge Dunning attacking the validity of the warrant and Scott was released on \$1000 bail. The writ is made returnable Thursday.

WOMAN DIES.

NEW YORK, March 27.—Word is received here of the death of Mentone France, yesterday or Mrs. Marie Seovel wife of Edward Seovel, formerly of Detroit, Mich. Mrs. Seovel was the daughter of James I. Roosevelt, and a cousin of President Roosevelt. She had two children, Frederick, who married Vivian Sartoris, a grand daughter of President Grant and Cornelia, who married Count Fabri Cotti. Mrs. Seovel for many years had lived abroad.

PUNY CHILDREN

Words of Interest to Every Mother in Astoria.

"Surely mothers are not to blame for that which they cannot help," said our well known druggist, Mr. Charles Rogers, during a recent interview, "but when we see so many thin, pale-faced and puny children on our streets we cannot help feeling that mothers are to blame, and we wish we could tell every mother in Astoria what Vinol will do for her children."

Vinol is not a patent medicine, but it contains in a highly concentrated form all the strengthening and body-building elements of cod liver oil, actually taken from fresh cod livers, without grease or oil. It does not upset the stomach like old-fashioned cod liver oil and emulsions, and its taste is so delicious that children love it.

Vinol strengthens the most delicate stomach, makes rich, red blood, builds strong bone structure, creates hard, firm flesh tissue and rosy-checked, sturdy children are the inevitable result.

Mrs. Jennie Perse of Mansfield, Ohio, says that her little boy had overstudied and was so run down that he was a mere shadow. Vinol made him a strong, well boy in a remarkably short time.

Mr. Charles Rogers says, "For both children and adults Vinol is the greatest strength creator, body-builder, and health-restorer we have ever sold, and we will gladly refund the money paid for it in every case where it fails to give satisfaction." Charles Rogers, druggist.

TIDE TABLE, MARCH

Table with columns for High Water, Low Water, A.M., P.M. for March 1906. Includes dates from Thursday to Saturday.

The Japanese Weekly Chronicle says: "During the late war many foreign steamers loaded with coal were seized by Japanese warships. The coal declared confiscated by the prize court aggregates 94,188 tons, including 86,363 tons of Cardiff and other foreign coal, and 7,825 tons of Japanese coal. Taking the average price of foreign coal at \$7.50 per ton and of Japanese coal at \$4.50 the total value of the coal captured will amount to \$682,935.

FOLEY'S HONEY and TAR CURES Coughs and Colds PREVENTS Pneumonia and Consumption

Foley's Honey and Tar not only stops the cough, but heals and strengthens the lungs and prevents serious results from a cold.

There is no danger of Pneumonia, Consumption or other serious lung trouble if Foley's Honey and Tar is taken, as it will cure the most stubborn coughs—the dangerous kind that settles on the lungs and may develop into pneumonia over night.

If you have a cough or cold do not risk Pneumonia when Foley's Honey and Tar will cure you quickly and strengthen your lungs.

Remember the name — Foley's Honey and Tar—and refuse any substitute offered. Do not take chances with some unknown preparation that costs you the same when you can get Foley's Honey and Tar, that costs you no more and is safe and certain in results. Contains no opiates.

Cured After Physicians Said He Had Consumption.

E. H. Jones, Pastor M. E. Church, Grove, Md., writes: "About seven or eight years ago I had a very severe cold which physicians said was very near pneumonia, and which they afterwards pronounced consumption. Through a friend I was induced to try a sample of Foley's Honey and Tar, which gave me so much relief that I bought some of the regular size. Two or three bottles cured me of what the physicians called consumption, and I have never had any trouble with my throat or lungs since that time."

Three sizes—25c, 50c, \$1.00. The 50 cent size contains two and one-half times as much as the small size and the \$1.00 bottle almost six times as much.

SOLD AND RECOMMENDED BY CHARLES ROGERS, Druggist.
