

SECRET ORDER TO ENFORCE THE LAWS

Novel Corporation Formed by the Citizens of Pullman.

A novel method of enforcing laws has been adopted in Pullman, where a corporation with a capital stock of \$100,000 has been organized for this purpose.

The corporation is a semi-secret institution and it is difficult to get the facts concerning it.

From one authority it was learned that the organization was perfected two weeks ago and has held two or three meetings.

"In addition to what has been subscribed at the meetings a number of parents of students have sent money from various points in the State to aid in the work."

A Dandy for Burns.

Dr. Bergin, Pana, Ill. writes: "I have used Ballard's Snow Lintiment; always recommended it to my friends, as I am confident there is no better made."

PORTLAND WON.

At the ballgame yesterday, Portland had rather easy time, and walked away with the game, by a score of 19 to 3.

Take Hollister's Rocky Mountain Tea this month. Drives away spring tiredness, gives appetite and sleep, makes you well and keeps you well.

BIG TIMBER DEAL OFF.

The big thing's off! The Vilette is informed, by persons whom it considers good authority, that the deal between the National Lumber & Box Company of Hoquiam and the Weyerhaeuser Timber Company has fallen through.

WOMEN NOT TRUTHFUL

This Statement Has Been Unjustly Made, Because Modest Women Evade Questions Asked By Male Physicians.

An eminent physician says that "Women are not truthful; they will lie to their physician." This statement should be qualified; women do tell the truth, but not the whole truth.

It is a terrible ordeal to a delicate, sensitive, refined woman to be obliged to answer certain questions when those questions are asked even by her family physician.

Is it any wonder, then, that women continue to suffer and that doctors fail to cure female diseases when they cannot get the proper information to work on?

This is the reason why thousands and thousands of women are now corresponding with Mrs. Pinkham. To her they can and do give every symptom, so that she really knows more about the true condition of her patients.

If you suffer from any form of trouble peculiar to women, write at once to Mrs. Pinkham, Lynn, Mass., and she will advise you free of charge.

The fact that this great boon, which is extended freely to women by Mrs. Pinkham, is appreciated, the thousands of letters received by her prove.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

fall obtained an option on 64,000 acres of timber land lying from two to ten miles south of Montesano, in the North river country, at a price of \$2 per thousand feet stumpage, the total amount involved being estimated at about \$2,000,000.

The reason assigned for the failure to close the deal is too great a difference in the estimates. The real reason, probably, is that the Weyerhaeuser company does not care to sell at the price quoted.

Cures Coughs and Colds

Mrs. C. Peterson, 625 Lake St., Topeka, Kans. says "Of all cough remedies Ballard's Horehound Syrup is my favorite; it has done and will do all that is claimed for it—to speedily cure all coughs and colds—and it is so sweet and pleasant to the taste. Sold by Hart's Drug Store."

Claire Monteith was at his best and rendered "The Unseen Kingdom" to perfection. He is well known here and in other cities for his vocal art and last evening he lived up to his already high reputation.

Claire Monteith's voice is full and true and magnificent in its power and richness. Apparently he sings without the slightest effort—a quality that soon establishes him in the sympathy of the listener.

SEAMEN'S ENTERTAINMENT.

There was an entertainment last Saturday night under the auspices of those who are trying to establish a Seamen's Home. A fine program was rendered and to Rev. Ellefson who had charge of the affair is due credit for it.

Sick headache results from a derangement of the stomach and is cured by Chamberlain's Stomach and Liver Tablets. Sold by Frank Hart and leading druggists.

Now is the time to take Hollister's Rocky Mountain Tea. It cleans your system of all impurities. A wonderful spring tonic. A family benefactor. 35 cents, Tea or Tablets. Frank Hart, druggist.

EAGLES CONTRIBUTE.

The Astoria lodge of Eagles have contributed the sum of \$25 to the California relief fund.

A HOUSE BEAUTIFUL.

An Example of Artistic Elegance Joined With Comfort.

(Copyright 1906, by Louis H. Gibson, Indianapolis, Ind.)

This design is along the lines of modern house planning—a large living room 15 by 24, a vestibule before one enters the living room in which may be placed hats, umbrellas and wraps, thus keeping them out of the room, and then from a doorway of the vestibule a beautiful prospect as one looks into the room. One sees a large fireplace

PERSPECTIVE VIEW.

of brick at the other end, with a seat on one side and a French window opening on to a porch at the rear. At one's left is a little group of three windows, set tolerably high from the floor, with a broad shelf on the inside, where may be placed when one pleases a few flowers and other decorative objects.

FIRST FLOOR PLAN.

kitchen is not so large that there will be many waste steps in moving from the sink to the range. There is a large china room between the kitchen and the dining room, and in this china room is a cupboard with glass doors above and panel doors below, and then there is a table with drawers and trays and other conveniences.

On the second floor are four bedrooms, a study, a bathroom and any number of large closets.

This house will cost from \$3,200 to \$3,500. It should be finished in cypress or yellow pine. The floors should be narrow edge sawed yellow pine, and all the wood should be stained and finished a good deal like the craftsman's furniture, and the finish and fittings on

SECOND FLOOR PLAN.

the inside should be made and arranged in the simple, artistic, honest way that belongs to the work of the craftsman.

In the cellar are a heating apparatus and a laundry. The outside is of cement and shingles, and both are standard. The ingenuity and interest of the owner in the finishing and fitting and the little garden that goes with the house, all expressive of a delightful personality, will make this a beautiful home.

The Importance of Ventilation.

The science of architecture, if under this head we include the principles of building construction and the heating and ventilation of buildings, has done and is doing much of interest and importance to the student of public health science. The air supply, especially for the modern civilized and too often sedentary form of mankind, is in the long run quite as important as the water supply, the milk supply or any other supply. Surely we cannot be too careful of the purity of a substance which we take into our bodies oftener and in larger volume than any other and which has come, rightly or wrongly, and

as the result of sin, and painful experience, to be known as the very breath of life. Human beings may survive and seemingly thrive even for long periods on bad air, but for the best work, the highest efficiency, the greatest happiness and the longest life, as well as for perfect health, the very best atmosphere is none too good—Scientific American.

Our special correspondents are scattered all over the world. You will run across a Kicker man in every town from Maine to California and from London to Stanley falls and around to the Himalaya mountains of India. They are told to spare no expense. No politician can turn his coat, no wife clope, no husband stay out after midnight, but what the fact is telegraphed to us in one minute. There are days when we receive a thousand cablegrams alone and when the expense foots up \$25,000.

The Koran forbids true believers to destroy the vines, palm trees, fruit trees, corn and cattle even of their worst enemies.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root, and cleans the scalp of dandruff and leaves it in a perfectly healthy condition.
