CONTEST ENDS.

PORTLAND, Me., May 10 .- The contest for control of the Eastern consolidated Oil Company, a Maine corporation capitalized at \$4,000,000 with extensive interests in California, came to an end last night at the adjourned annual meeting when Lafayette E. Pike tive the contractor must discharge of Hartford, Conn., who promoted the enterprise was found to hold certifi- the place of those which violated the cates and proxies representing a ma- arbitration agreement. A stand is also jority of the stock. These directors were elected to represent Mr. Pike's interest: L. A. Pike and A. Noble of Hartford, Conn., and Chesney Burnett of Springfield.

ALL CLASSES PRESENT.

ST. PETERSBURG, May 10.-The most striking feature of the assembly at the palace today was the mulitplicity of races and classes and the color of the costumes of the members. There were noblemen and other men of high station sitting beside simple peasants or workmen clothed in the costumes of shops or villages, turbaned Mussculmans and Buddhists from Bokhara; Idolators from the Kirghiz Steppes; Orthadox Priests in black cossacks and bishops in purple cassocks; Circassians. Armenians and Tartars from the Caucasus. Jews from the Pale; Buriats from Central Asia, and Lithuanians and Esthonians from the Baltic provinces. Most wore their national dress.

Call Legislature

St. Petersburg.

WOULD FIND CITY'S NEEDS IS "BURLESQUE IMITATION"

Governor of California Says First Find Out What Legislation Is Wanted and Then Legislature Can Take Action.

SAN FRANCISCO. May 10 .- Although strongly urged to call an early special session of the state legislature, Governor Pardee is in no haste. He says: "better not have any legislature than to enact bad laws."

The governor does not deny the urgent necessity of legislation to meet the effect of the disaster which has befallen San Francisco, Santa Rosa and San Jose, but insists on having a plain program mapped out before the call is issued. For onis the special legislalation committee today drew a draft of the call and will frame bills which the governor will be asked to recom-

The Governor will discuss the call with the committee and when an agreement is reached the call will be issued Another step was taken toward a resumption of civic conditions today, when a portion of the marines were sent back to their ships. Tomorrow the rest will leave. The state troops have been gradually relieved and it is understood the necessity for the presence of regular troops will soon cease to exist. The rougher element and the criminal classes are gone altogether; the presence of soldiers, and the absence of liquor, being the main reasons for their departure.

EXPERIENCE LESS LOSS.

NEW YORK, May 10 .- According to President Washburn of the National Board of Fire Underwriters, sufferers by fire at San Francisco will experience less loss through failure of insurance underwriters than those of any great conflagration which has hitherto visited this country.

WASHINGTON, May 10 .- Revolution ary movements or election troubles in Panama, which interfere with the work in the canal zone, justify the interference under the statutes supporting the Panama government. Such is the tenor of the instructions sent to Governor Magoon by Secretary Taft. This emphatic declaration by the United States it is believed will prevent serious trouble in the June elections, as it will discourage the opponents of President Amador, who are represented as planning a movement against him outside the canal zone, believing the United States will suppress any insurrection unless it extends within the zone,

Pardee Will Not Be in Hurry to Denounces Opening of Douma in

Russian Revolutionist Says Parliament Is Nothing But "Burlesque Imitation" of Constitutional Government.

NEW YORK, May 10 .- In an epistle addressed to "Brother in Arms, Authors of Free America" Maxim Gorky today denounced the Douma inaugurated in St. Petersburg. Leading up to his subject by criticizing the manner in which Russia for centuries has treated his subjects and ridiculing the "burlesque imitation" of constitutional government he declares the Russian people have at last understand they will get nothing except what they take with their own hands. He says the Douma destroped their hopes and filled their hearts with greater hatred toward the government and that they now know they must have revolutions before they can enter the family of free nations of the world.

WITTE AN OUTCAST.

Count Witte, a Pathetic Figure at The Opening of Russian Parliament

ST. PETERSBURG, May 10,-A pathetic figure in the scene at the palace today was Count Witte, of whom the Associated Press correspondent caught a glimpse before the ceremony pacing the corrider entirely alone. Later he entered the thronged hall clad in gold and black uniform of a secretary of state, one of the highest dignitaries of the court, which still remains to him, and with the ribbon of the Alexander Nevsky order on his breast. He took his place in the ranks of the old bureaucracy. Former Interior Minister Durnovo was there, chatting animatedly and earnestly with companions, but Witte seemed to find a cold welcome from everyone. Finally he wandered away and stood apart until the imperial pageant had proceeded.
