- EPIDEMIC SUBSIDING.**

and the mass of those who took it, are convalescing rapidly. It is one of those diseases that must wear itself out and this it has done completely, and by the 4th of June there will not be a single case left in Oregon. The freedom accruing from this release from contagion is felt most gratefully all over the state and the surcease from its thrill is hailed with vast satisfaction everywhere. It is one of those insidious ills that creep into the political system at odd junctures and under wholly deceptive premises, and piles up one adverse condition after another, until it poisons the whole scheme of partisan autonomy, a crisis that can only be circumvented by the most vigorous and unremitting course of self-analysis and purgation possible. The people themselves have found the sovereign remedy, and its careful and uniform application, under the ministrations of Dr. James Withycombe and his staff of capables from the republican dispensary has worked the marvel of absolute liberation from the pestilence. The last quarantine will be raised one week from Monday.

"CITS" NOT SO SANGUINE.

What has become of the conspicuous assurance of victory, that characterized the earlier days of this campaign, on the part of the Astoria "Cits"? They are not nearly so chipper as they were about eating up the republican majority of old Clatsop; they are beginning to realize that their anonymous relation with the democratic push, and their peculiar sponsorship for the previous successes of the democrats in this county, are reacting against them disastrously and will eventuate in their discomfiture at the polls nine days hence, and their utter annihilation afterward. This is one of the penalties for attempting to work the people under false premises, and is in historic sequence with the career of every such assumption, especially when the artifice is as raw as it has been for a long time past on the part of the alleged "citizens" and their masters, the Clatsop democrats.

LOCAL WHOLESALE JOBBING.

The suggestion made in these columns a few days ago in relation to the establishment of a wholesale jobbing house here and its control by local capital and its efficacy in the unfolding of a big commercial impetus, is not without its effect upon the minds of the merchants here and the impression is generally very favorable, nor will the matter be allowed to drop out of sight entirely, though at the present moment there are numerous other engagements of a commercial and political nature, that impose their first and exacting demands for consideration and disposal. The subject will not be permitted to lapse and an exposition of the views of the leading citizens Astoria will be made as soon as expediency permits.

An eighteen year old girl, her mother and her grandmother, all chorus girls in one company playing at a local theatre, is the startling fact laid bare by a lawsuit. What a shock to the admiring boys beyond the footlights! And it is further related that the grandmother received more bouquets and coaxing smiles from these boys than did any other member of the chorus.

The stories of revolution-inciting financial straits in Santo Domingo's governmental affairs are known to be inspired. Morales in Porto Rico and a specious out-of-power Dominican in New York are fooling with the press bureau gun. They don't know it is both loaded and spiked.

The new protected cruiser St. Louis has shown a speed of more than twenty-five land miles an hour, an average expected only from express trains in former years. Whenever a naval job is to be performed quickly the St. Louis will be apt to figure in the business.

One of the large railway systems is preparing to put phonographs in the places of human announcers on the name of stations and the time for the departure of trains. It will seem strange to have a silvery distinctness take the place of an unintelligible gurgles.

A Positive Necessity.
Having to lay upon my bed for 14 days from a severely bruised leg, I only found relief when I used a bottle of Ballard's Snow Liniment. I can cheerfully recommend it as the best medicine for bruises ever sent to the afflicted. It has now become a positive necessity upon myself.

EDITORIAL SALAD.

It is unsafe at present to tell even a fish story in Washington.
Democratic members of Congress invariably shy at the navy budget.

It is a poor political party whose existence is in peril when railroad passes are cut off.
A Texas paper says "the strawberry crop is large, likewise the berries." How about the boxes?

Congress in its present temper will hardly risk a session prolonged into the intensive influences of dog days.
It is amazing that even a Democratic state chairman should raise a public howl when the lid is put on the convention railroad pass.

Can it be that any one in Washington, excited by the rate bill, has discovered what "rail mad" spells backwards?

Former Senator Chandler can not be said to be a very great success as an intermediary. He intermediates too much on one side.
Tennessee's new senator, "Bob Taylor," has several strings to his bow. Besides his fiddling he can edit a newspaper and do a lecture stunt.

A new light seems to be breaking in the East. The Standard Oil people have issued a statement to the effect that their business is being conducted on the highest moral lines.

The United States marshal reports that 4288 gallons of liquor had been confiscated and spilled in Oklahoma. Seems a shame to use it for a fertilizer, but the Oklahoma farmer should now be able to raise more "cain" than ever before.

In Muhlhausen, Germany, they have just tried a man for creating a disturbance by sneezing. He barely escaped by the bridge of his nose. Arrested for snoring he would probably have escaped on his nightmare.

How awfully it might muss up the map of Europe if sometime the Sultan of Turkey were to stick one of those ultimatum in his pocket and forget to "yield unconditionally at the eleventh hour!"

We may yet find out something about the navigation of the air, if only the supply of aeronauts holds out. Only one should be allowed to ascend at each experiment. That would increase the number of experiments.

The senate committee has at last decided that sea-level Panama Canal is feasible and has recommended the digging of that type of ditch. What the people are wondering is not whether the canal can be, but whether it will be dug on the level.

It is Dangerous to Neglect a Cold.
How often do we hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurrence that a cold, however slight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency of a cold to result in pneumonia, and has gained its great popularity and extensive sale by its prompt cures of this most common ailment. It always cures and is pleasant to take. For sale by Frank Hart and leading druggists.

Doan's Kidney Pills cure such ills.
Mrs. Mary Dumbardner, of 424 Water street, Salem, Ore., says: "I have found Doan's Kidney Pills a remedy that is worthy of all confidence and am pleased to endorse them so that other sufferers from kidney complaint may know how to get relief. I procured Doan's Kidney Pills and several members of our family have used them with the most gratifying results. I took them myself for a tired aching back and a dragging down feeling that comes from irregular and deranged kidneys. The results were of the best. The aching and soreness was banished and the kidneys were rendered normal. My health became better in every way."

Plenty more proof like this from Astoria people. Call at Charles Rogers' drug store and ask what his customers report.
