ANNAPOLIS, Md., June 12.—The board of visitors to the naval academy were officially received the first day of the annual examination on the academy grounds with the usual salutes and military honors and afterward reviewed the corps of Midshipmen. Following the review the portrait of John Paul Jones painted by Mrs. Cecilia Beaux, was presented to the academy by Colonel Lauchheimer of the marine corps, on behalf of the graduating class. Secretary of the Navy Charles J. Bonaparte accepted the gift for the navy in a brief address in the course of which he said:

"John Paul Jones was, first of all, a fighting man; and in this he was eminently successful. He did not win high honors along any other line. The honor which is now being paid his memory indicates, I think, the country's appreciation of fighting qualities, and that it will appreciate them.

"The American people must keep the standard of the fighters as high as that which any race can show. To get such men, it must treat them as such men ought to be treated. You, gentlemen, in thus reminding us of the needs of our first sea warrior have aided to make sure that we have a navy able to defend a great country and a country worthy to be guarded by a great navy."

In the afternoon there was a meeting of the board of visitors attended by the following members: United States Senators Dick of Ohio; Alexander M. Patterson of Colorado; Representatives E. L. Hiley of Connecticut; Ernest W. Roberts of Massachusetts; A. W. Gregg of Texas; F. M. Shales of North Carolina; F. Murphy of New Jersey; C. F. Brooker of Connecticut; Brigadier-General C. A. Woodruff, California; G. P. Blow, Illinois; Stratharn Hondrie, Michigan; Frank J. Sprague, New York.

In the evening a concert was given in honor of the board of visitors.

**A Bad Mix-up.**—A rattling runaway occurred yesterday morning on Seventeenth street. One of the milk-driving wagons of F. & K. Johnson was being driven out of Irving avenue into Seventeenth, and as the team rounded on to a hillside, coming down, the neck-yoke slipped off the tongue end, and the team took fright at once and lit out. The driver who was riding on the side step, dropped off, and the outfit plunged headlong down the steep thoroughfare, and there is no telling the sum of damage that might have ensued, had they not run foul of a wood-pile in front of William Boch's place. Here the momentum of the outfit was lost in a general collapse, of team and wagon and for a few moments there was a genuine and inextricable confusion of woodwork and horse flesh, and it became necessary to cut the harness into ribbons to extricate the animals. Luckily there was no serious damage done, though the scattered milk-cans (which were mainly empty) might have indicated as much to the immense throng that gathered to witness the run.

NEW YORK, June 12.—About 150 delegates attended the annual convention of the Team Owners' Association of America, which began yesterday.

The present convention is the most important the association has yet held as the transportation companies have begun to recognize the necessity of better facilities for loading trucks at terminals and an appeal will likely be made to the companies for co-operation in an effort to bring about more rapid deliveries of merchandise.

President McGowan of the Board of Aldermen made a speech of welcome and the rest of the forenoon session was taken up chiefly by the reports of the officers and the appointment of committees.

Another session was held in the afternoon at which "The Commercial Automobile in Theory" was discussed.

George W. Tilton, Chief Engineer of Highways in the Borough of Brooklyn, spoke on good streets and discussed the merits of asphalt, the oblong granite block and the wooden block.

The relations between the team owners and their employes will be discussed today.

**Four Hundred Needed.**—The Astoria & Columbia River Railroad Company is still lamenting the shortage of freight cars, as there is immediate demand for four hundred to move waiting mill stuffs along the line. And, even with that demand filled there would be a steady use for forty per day to keep down any congestion. Like all other western roads, however, it sees no way at present, of breaking the hold-up, and will do the best it can, under the circumstances. There will be two more Sunday excursions out of Portland for the southern beaches, and then, on the 30th day of this month the new summer schedule will go into effect, and the new extra train out of Portland, on Saturday afternoon at 3:10 o'clock, will go into operation. This train will make but five regular stops between Portland and Seaside, Rainier, Clatskanie, Astoria, Warrenton and Gearhart, and at Holton and Goble, on flag. It is bound to be a popular train and run.

**An Interesting Question.**—The Astorian some days ago intimated that in order to try out the legal taxable status of its property the Callender Navigation Co. intended to determine once for all in which State, Washington or Oregon, the taxes due upon them, should be paid, and that Sheriff Linville had made due levy for the 1905 tax, and delinquencies, upon certain of the company's property here. The issue has now been properly raised and will be presented at the ensuing term of the Circuit Court. In the meantime, a plea in junction, to prevent the sale of the steamer Wenona, upon which the weight of the sheriff's levy fell last week, in this behalf, has been set up and will be immediately submitted to Judge BeBride.

in chambers. The steamers involved are the Jordan, Melville, Eclipse, Wenona, and Vanguard, and the motor launch Queen. All of these vessels are alleged to be owned, and amenable to taxation, in Washington, though they are registered at the federal customs house here, as of Astoria, and the question raised is, which state shall collect the general tax upon the property? The tax on the vessels here this year, approximates, with delinquencies, \$480.

**The Blue and the Gray.**—An attractive window is a store's greatest asset, so much so that a window dresser is the most valuable man around a store of any pretensions. In many cities such art has been used in the dressing of windows that a new amusement has been in vogue of late years that of "window shopping." That is to say a man and wife will stroll up and down the busy streets of a large city for hours, perfectly contented and happy admiring the things without their reach or spotting future purchases. Astoria is fast climbing up to the window shopping point and a window like P. A. Stokes "Blue and Gray" window of this week makes a long stride toward the inauguration of the "window shopping" stage. Mr. E. H. Stone, the dresser of this window, is full of good ideas and an expert in his line.

**Astoria Girl Asphyxiated.**—Grecco Teppo, 22 years old, a Finnish servant girl working for Judge A. H. Tanner, at 738 Johnson street, Portland, was found asphyxiated in her room early Sunday morning. The girl went to a party Saturday night and returned home with a girl chum. The chum got up at about 6 o'clock and as it was dark lighted the gas. It is presumed that when going out the girl turned out the gas in such a way that some of it escaped, causing asphyxiation of the Teppo girl. Drs. Stanton and Bell were called and for a long time worked over the girl, but with no result. She was removed to Finley's undertaking establishment. The dead girl has a brother and sister in Astoria. They were informed of the accident and left yesterday morning for Portland, returning last night with the body of their sister. No arrangements have yet been made for the funeral.

**Dies at Hospital.**—John A. Oen, son of Mr. and Mrs. Fred Oen died yesterday at the St. Mary's hospital in this city as the result of an operation performed for blood-poisoning. The deceased was aged 16 years, 11 months and 28 days, and was born in Dakota. The funeral will take place Thursday afternoon from the Norwegian M. E. Church at 1:15 p. m., and the interment will be in Greenwood cemetery.

**Improvement Club Meeting.**—The Shively improvement club will hold its regular meeting this evening in the city hall, to consider a number of important matters. The matter of securing a suitable site for the proposed hotel will come up for consideration, and a good attendance is desired.

**Park Commission Meets.**—The Astoria park commission met last night in the city hall for its regular monthly meeting, and made arrangements for the election of a band stand in the park in time for use on the third and fourth of July.

**New Bank.**—A new bank has started up at Seaside, known as the Bank of Seaside. The capital stock is \$25,000. F. A. Henninger is president of the new institution and W. S. Henninger is cashier.

**Omission.**—In the list of names of those appointed as members of the charter commission the Astorian unintentionally omitted the name of J. C. McCue as one of the eighteen men chosen.

**Pleasant Social.**—A pleasant and enjoyable basket social was given last night in St. Mary's hall, at which there was a large attendance. Dancing was indulged in, and a very interesting program presented.

**Wires Down.**—The important and ever-

busy telegraph wire between this city and North Head, whence all the bar news comes, went down in the gale of Monday night, and no news was received from that point until noon yesterday. The linemen were not long in locating and correcting the break, however.

**To Build Residence.**—Plans have been completed by Frank Leineweber to build a fine new residence on Harrison avenue.

**Issue Certificates.**—County Clerk Clinton yesterday issued certificates of election to the newly elected officers.

**Goes East.**—D. B. Allen left yesterday for a brief trip East where he expects to visit friends.

**TO REMOVE COURT HOUSE.**

ABERDEEN, Wash., June 12.—A vigorous campaign for the removal of the court house from Montesano to a site between Aberdeen and Hoquiam will be inaugurated Friday night at a mass meeting to be held here. The principal object of the meeting is to arouse enthusiasm and to appoint a committee to conduct the campaign.

The scheme will encounter active opposition from the east end of the county, as Montesano is much more convenient for the residents there. Montesano, too, will use every effort to prevent the removal. But as the western part of the county has much the largest proportion of the population, and as Hoquiam and Aberdeen are by far the largest towns in the entire county, there is little doubt but that the plans for removal will carry.

**SITS ON NAIL.**

**Boy Sits on Nail and Faints From Pain Falling Into the Fire.**

BEND, Ore., June 12.—Lee Duncan, of Silver Lake, had a very painful accident this week. He sat down on a nail that protruded through a box, and fainting from the pain, fell into a fire-place where a blazing fire was raging. He was quite seriously burned about the neck and arms.

**LOWER HOUSE ANGRY.**

ST. PETERSBURG, June 12.—A tempest is brewing in the lower house of parliament and it will break when the military procurator, Pavloff, takes the rostrum on Thursday to give War Minister Rudiger an explanation of the executions in the Baltic provinces. It is claimed evidence is secured, showing an order was issued to stop the execution of eight men put to death on May 29, but the order was deliberately delayed by Pavloff until after the execution. The socialist group intends to make a stormy demonstration and even the conservative members of the constitutional democratic party are enraged at what they term a new proof of governmental duplicity.

**COMPLETES CONSIDERATION.**

WASHINGTON, June 12.—The house committee late completed its tentative consideration of the Beveridge meat inspection amendment. The question of fees was not reached. The only statement made by the committee was that the country could be assured that the result of its deliberations would be a meat inspection law which will suit the most radical democrats in that direction. Final conclusions so far as the committee is concerned will be reached tomorrow and the amendment will be reported to the house as part of the agricultural bill on Thursday.

**BIG PROPERTY LOSS.**

ANACONDA, June 12.—A tornado in Chouteau, Mont., destroyed an immense amount of property. It is reported Fort Assiniboine is seriously damaged. The country is a stock-growing region and the loss is difficult to estimate. The damage reported amounts to \$100,000.

**BUSINESS SECTION BURNS.**

DAVENPORT, Iowa, June 12.—The business section of Le Claire, Iowa, was burned today. The loss was over \$100,000.
