Malthoid Roofing

Malthoid on your houses, sheds and all farm buildings will help you raise healthy, thrifty stock. Cover your cattle sheds, hog houses, chicken houses and sheep folds with Malthoid and give your stock warm, dry and comfortable quarters. Malthoid is wind tight, water tight, heat tight and proof against dampness. It is fire resisting and will last for ages. Send for booklet.

The Paraffine Paint Company

FISHER BROS., CO., Sole Agents.

MAKES HARD FLOORS

Feel like a cushion, what does? THE DR. A. REED CUSHION SHOE. Why? because the sole is constructed in four sections, the outer sole, then a cork section, an inner sole, and next to the feet covered by fine French calf is the fibre cushion. That's where the secret is. Keeps the feet cool and comfortable in the summer.

43 Bond St., opp. Ross, Higgins & Co.

Attractive Booklet.—"A Glimpse of Utah Where Health and Wealth Abound" is the title of an exceedingly attractive booklet just issued by the passenger department of the Denver & Rio Grande Railroad. The book was written by Mr. Edward F. Colburn and treats of the early settlement of Utah; the Mormons and Gentiles; the natural wonders of the State; its resources, and of its growing cities and towns. The whole State is clearly and adequately described and a careful reading of this publication cannot fail to be of benefit to any one desiring to keep posted on the resources and progress of our great western empire.

ANGRY WATERS CLAIM TWO

(Continued from page 1)

reach shore. One was seized and landed safely by Alex McLean, of the McLean Launch Company, and the other, who had left all his clothing aboard, managed to crawl ashore himself, to receive attention and clothing and a good place beside a blazing bonfire.

The Corinthian, bound from this port to San Francisco, attempted to cross out of the harbor at 7 o'clock. A heavy sea was running, and as the vessel reached the outer entrance she was struck by a comb wave, which flooded the engine room and rendered her helpless. The little vessel became water-logged at once and all hands were forced to take to the rigging.

NEILL-REYNOLDS REPORT.

(Continued from page 1)

Slayden and Fulkerson discussing the advisability of the report in scathing terms. Ames defended both the President and the report and insisted that the packers should pay the cost of inspection.

HOIST PENNANT.

New York Nationals Will Raise World's Championship Pennant.

NEW YORK, June 12.—This promises to be a memorable day in the annals of baseball in New York. The presentation of the world's championship pennant to the New York club of the National League and its unfurling at the polo grounds will be made an event long to be remembered by the patrons of America's national game. The polo grounds will be decorated more handsomely than ever before and from 2 to 4 o'clock besides the band concerts, there will be fireworks.

The pennant will be formally presented by the National Commission to President Pulliam, who will then turn it over to Patrick F. McGowan, president of the board of aldermen, who in the absence of Mayor McClellan, will present the pennant to the New York Club. After this ceremony it will be hoisted on a specially prepared pole by the giants and members of the Cincinnati team.

Incident to the regularly scheduled game between the New Yorks and Cincinnati there will be a parade, in which nearly all of the prominent amateur and semi-professional clubs in Greater New York will participate.

THROWN OUT WINDOW.

Infuriated Husband Pushes His Wife From Fifth Story Window.

NEW YORK, June 12.—Campbell O. Adair, an English bricklayer, was arrested early today after his wife, Agnes, had been killed by a fall from the front window of their home, on the fifth floor of a tenement house at 229 East 127th street.

James Smith, who lives in the house said he was coming home and was just about to enter the door on the ground floor when he heard screams overhead, and looking up saw the body of a woman come whirling through the air and strike heavily on the pickets of an iron railing in front of the house. Smith recognized the woman as Mrs. Adair, and hurried to a police station.

The woman was dead when picked up. Two detectives went up to the Adair apartments and found, they said, that the bricklayer had barricaded himself in the room. When they asked him to open the door his replies were curses and threats. They broke down the door and arrested him. The questioned his 18-year-old daughter Kitty, who said her father and mother had quarreled during the night.

STAY OF EXECUTION.

CANTON, Ohio, June 12.—Application was made today to Justice Day of the United States supreme court for a stay writ of appeal and a consequent stay of execution in behalf of lawyer Albert T. Patrick. After hearing the reasons of Patrick's counsel, Day granted the writ. It will be heard by the supreme court in October.

MISSIONARY WORK

Different Phases of Missionary Endeavor Set Fourth.

EVANGELISM AMONG THE JAPS

Missionaries Say the Japanese Soldiers Were Ready to Receive the Gospel and Aid in the Work.

CLIFTON SPRINGS, N. Y., June 12.—The home side of foreign missions, the reaction of missionary interests upon the spiritual life of the home church and the support of missionaries and missionary stations by individuals and churches were the subjects discussed at yesterday's session of the International Missionary Union.

At the afternoon session the following topics were discussed: "Evangelism in Japan and Korea"; "Effects of the Recent War Upon the People"; "Protectorate of Japan in Korea."

Rev. G. F. Draper described the work of the Y. M. C. A. among the soldiers of the Japanese army in the recent war and said that the soldiers and officers were ready to receive the gospel and help to support the work.

Rev. J. P. Moore said that the people of Japan were now ready for Christianity, as they never were before. This was especially noticed among the wounded soldiers in the hospital in one of them over 2000 soldiers being converted.

Miss Ethel M. Estey said the opening wedge to Christianity in Korea was medical work and that the Korean people were today pleading for more workers to come among them.

The topic for the evening service was "Christianity and Japan's Leadership in the East."

Rev. G. F. Draper said that Japan today was the commercial leader of the Far East and that it would pay the United States to hold the commercial friendship of this rapidly growing country.

FATAL QUARREL.

INDIO, Cal., June 12.—Gregorio Berdusa was shot and instantly killed by Julian Sabadra at Thermal today. The men were employed on a ranch and the shooting took place just after the employees left the breakfast table. Sabadra fled immediately and was traced through the brush into the mountains for twelve miles. The slayer will have to return for water soon or perish on the desert.

BRAINS DASHED OUT.

SAN PEDRO, Cal., June 12.—Bion Scott, the 60-year-old son of F. B. Scott, formerly editor of the San Pedro Times, was instantly killed and Robert Wayne, a playmate severely injured in a runaway this morning. In turning on Beacon street, the carriage was overturned throwing the boys from the seat. Bion struck his head against the cement curb, his brains being dashed out.

MAY PLAY SUNDAY.

NEW YORK, June 12.—Managers of baseball games for financial profit played in Brooklyn on Sundays felt encouraged by the discharge of two men who were arrested by the police on Sunday for displaying contribution boxes on the ball grounds during a game there. As a result President Ebetts of the Brooklyn National League Club said he might decide to play the Cincinnati team at Washington Park next Sunday.

DENOUNCE IMMIGRATION LAW.

NEW YORK, June 12.—The proposed Gardner-Dillingham immigration law was attacked last night at a meeting of the New Immigrants' Protective League held at Cooper Union. Resolutions were passed denouncing the bill as un-American and asking that President Roosevelt and Speaker Cannon hold the measure in abeyance until a committee appointed by the former could investigate the immigration conditions and report to the federal officials.

The Very Best Remedy for Bowel Trouble.

Mr. M. F. Borroughs, an old and well-known resident of Bluffton, Ind., says: "I regard Chamberlain's Colic, Cholera and Diarrhoea Remedy as the very best remedy for bowel trouble. I make this statement after having used the remedy in my family for several years. I am never without it." This remedy is almost to be needed before the summer is over. Why not buy it now and be prepared for such an emergency? For sale by Frank Hart and leading druggists.

CONTESTS ARE COMING

(Continued from page 1)

ting down the water-competition element and railway-competition element. Rates in competitive regions are now much lower than in the non-competitive. Should the commission adopt a cold line of reasoning, important changes might be made for many great jobbing centers.

These are but suggestions of what is possible, after a hasty survey of the field following the conflict. Courts will have to determine finally the scope of the change. Interpretations and constructions advanced now may suffer demolition when real issues are joined before the highest tribunals. If the legislative mind can control and regulate in railway affairs, it is believed that the recently completed bill accomplishes that end for more than the preceding law, yet every one feels that it is futile to reckon upon the future with any degree of absolute certainty.

In the Pacific Northwest the opportunity for disturbance is said to be not considerable, if the pending law bestows the powers upon the commission that is generally understood to be conferred. Spokane's complaint of her jobbing rate has become time-honored. Portland's inability to reach the radius of tributary territory given by railway rates to San Francisco, is also on many tongues. Local rates on many of the northwestern roads have been complained of at various times. But these complaints are light compared with issues promised by Philadelphia, Cincinnati and Chicago. These great centers are rumored to contemplate a number of test cases which may make or unmake cities and shift manufacturing centers. Whenever their leading business men feel that the commission is open to the arrangement of new schedules for them, a mass of evidence is expected to be adduced.

The future is rather vague, but seems to be prolific with traffic problems. Within a short time business men are expected to be confronted with the necessity of studying complex questions that have taxed the brain of traffic experts.

To Try Case.—District Attorney Harrison Allen left last night for Oregon City where he will try a case in the circuit court.

If you knew the value of Chamberlain's Salve you would never wish to be without it. Here are some of the diseases for which it is especially valuable; some nipples, chapped hands, burns, frost bites, chilblains, chronic sore eyes, itching piles, tetter, salt rheum and eczema. Price 25 cents per box. For sale by Frank Hart and leading druggists.

TO LATE TO CLASSIFY.
