TELEPHONE MAIN 661.

Official paper of Clatsop county and the City of Astoria.

WEATHER.

Oregon and Washington - Fair and warmer, except near coast.

OUR BEST WISHES.

To the eleven young people who graduated so happily last evening from the Astoria High School the Morning Astorian extends its congratulations and best wishes for a full sum of success in life.

DETECTION ESSENTIAL.

That the office of a leading citizen can be entered, his safe wrecked, his private papers mangled over, the place set on fire, fine property put in jeopardy, his neighbors put to the limit of inconvenience by reason of the attack, and the perpetrator go unchecked to freedom, is a peculiar state of affairs in a city of this size.

ASTORIA WILL DO IT.

To interest the stranger, to make him feel that we know how to treat him by ministering to his comfort, to contribute the things he has always known and indulged in, the way of ease and satisfaction, we must have that new and modern hotel. We have a plenty of clever landlords, men trained in all the nomenclature of hospitality and good cheer, but we have not the fundamental accessory, a hotel we are proud of, nor one that represents the city of Astoria and the spirit of lively good will and entertainment of which she is capable.

The home most endeared to the heart of husband and wife is that which has been built up bit by bit. A little now and a little later on, wherein each piece of furniture represents many loving acts of self-denial and personal sacrifices, and round which lingers the memory of the scheming and plotting the getting of it gave rise to, and of the pleasure when it

was got. Ask the happy aged couple to whom prosperity has been the growth of years. They will tell you the happiest time in their lives were the first few years of married life, when, with mutual love and self-denying patience, they built up their little home and watched prosperity gathering around them.

SAME OLD STORY.

From our precious Filipino possessions comes a new story of sudden and murderous uprising and assault, with a sharp record of death and plunder to match. This will be the text of a thousand such tales during a thousand years to come, no matter who shall dominate the islands. It is the one, ineradicable test of the Latin blood; it is the undying taint, the most natural expression, the incarnate impulse of the race; and we may as well make up our minds to its periodical demonstration and prepare fully for the proper treatment of the disease.

EDITORIAL SALAD.

Much of the feeling against motor cars in the country is due to the disregard or an apparent disregard, of the rights of others. The feeling would melt rapidly if all automobilists understood human nature as well as one man in Missouri. On the back of his machine is a large sign, "thank you." When a farmer has pulled out at one side of a narrow road to let the automobile get by, and then looking after it a little crossly, perhaps sees that sign, he smiles and feels better.

The formula for success in life which the late Baron Alphonse Rothschild laid down for the young men of France and distributed by means of printed cards was: Shun liquor; dare to go forward; never be discouraged; be polite to everybody; employ your time well; never tell business lies. Pay your debts promptly. Be prompt in everything. Bear all troubles patiently. Do not reckon upon chances. Be brave in the struggle of life. Maintain your integrity as a sacred thing. Never appear to be something more than you are. Take time to consider, then decide positively. Carefully examine every detail of your business.—Exchange.

One hundred distinct and separate books telling the complete story of the San Francisco earthquake and fire, each one of them "the only authentic account," are in preparation in the various cities of the country, and they will be offered to the public before the embers are cool "handsomely bound, beautifully illustrated, and a great money-maker."

For years there has been trouble between dogs and mail carriers. The following regulation settles the question: "Carriers are not required to deliver mail at residences where vicious dogs are permitted to run at large. Persons keeping such dogs must call at the post-office for their mail."

In a single year the total number of pins manufactured in the United States was 68,889,260 gross. The total number of pins manufactured in the United States during 1906, the census year, was 68,889,260 gross. There are forty-three factories in all with 2353 employes.

Numerous as automobiles now are there are more automobile caps in circulation than the manufacturers are able to provide automobiles for even by working overtime.

New York beats the cities of the world in the length of its street railway tracks. If in one single track its surface, elevated and subway system would extend in a straight line for 1018 miles.

It is believed that Japanese rice wine is, next to grape wine, the oldest alcoholic beverage known to man, its use in Japan dating back over two thousand years.

From June to September the average fly mother accumulates a family of 2,000,000 children. If all these children lived the flies would crowd mankind off the earth.

If you knew the value of Chamberlain's Salve you would never wish to be without it. Here are some of the diseases for which it is especially valuable; some nipples, chapped hands, burns, frost bites, chilblains, chronic sore eyes, itching piles, tetter, salt rheum and eczema. Price 25 cents per box. For sale by Frank Hart and leading druggists.

MAKE THOROUGH INSPECTION.

CHICAGO, June 21.—Chief Sanitary Inspector Hedrick yesterday detailed three inspectors to make a thorough investigation of the small packing plants which heretofore have escaped the limelight by being scattered throughout the city. The truth of the claim made by the big packers that the former really were to blame for the meat scandal will then be tested.

Particular attention will be paid, it was said, to the light, air, and ventilation of these plants, as well as to the question of cleanliness. The "smaller fry" is said to have made considerable progress in cleaning up.

These reports with their recommendations will be complete by tomorrow and probably will be made public on Saturday.

HORSE DIES.

CHICAGO, June 21.—A dispatch to the Tribune from Lexington, Ky., says: The noted race horse Claude, owned by M. J. Daly, died at Edward Corrigan's farm in this county yesterday. Claude won 28 races and \$67,690. He captured, as a 3-year-old, the California, Tennessee, St. Louis, and Fort Erie derbies, and was second to the picket in the American derby. Claude was by imp Lissak, dam Lida H. by Lisbon, and was purchased as a yearling by Daly for \$250. He was never out of training from his yearling form until retired this spring, being raced both winter and summer. He was bred to several mares this spring.

SULLIVAN WILL RESIGN.

NEW YORK, June 21.—Congressman Timothy D. Sullivan left for Washington yesterday to prepare his resignation as a member of the house. Mr. Sullivan's resignation was required under the law as he will be a candidate for the state senate this fall, and the constitution provides that no person shall be eligible to the legislature who at the time of his election is, or within 100 days previous thereto, has been a member of Congress.

20 MULE TEAM PURE BORAX

IN THE LAUNDRY Softens Water Saves Cleans and Whitens Clothes

A HEALTHY OLD AGE OFTEN THE BEST PART OF LIFE

Help for Women Passing Through Change of Life

Providence has allotted us each at least seventy years in which to fulfill our mission in life, and it is generally our own fault if we die prematurely.

Nervous exhaustion invites disease. This statement is the positive truth. When everything becomes a burden and you cannot walk a few blocks without excessive fatigue, and you break out into perspiration easily, and your face flushes, and you grow excited and shaky at the least provocation, and you cannot bear to be crossed in anything, you are in danger; your nerves have given out; you need building up at once! To build up woman's nervous system and during the period of change of life we know of no better medicine than Lydia E. Pinkham's Vegetable Compound. Here is an illustration. Mrs. Mary L. Koehne, 371 Garfield Avenue, Chicago, Ill., writes: "I have used Lydia E. Pinkham's Vegetable Compound for years in my family and it never disappoints; so when I felt that I was nearing the change of life I commenced treatment with it. I took in all about six bottles and it did me a great deal of good. It stopped my dizzy spells, pains in my back and the headaches with which I had suffered for months before taking the Compound. I feel that if it had not been for this great medicine for women that I should not have been alive to-day. It is splendid for women old or young, and will surely cure all female disorders."

Unknown Friends.

There are many people who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy with splendid results, but who are unknown because they have hesitated about giving a testimonial of their experience for publication. These people, however, are none the less friends of this remedy. They have done much toward making it a household word by their personal recommendations to friends and neighbors. It is a good medicine to have in the home and is widely known for its cures of diarrhoea and all forms of bowel trouble. For sale by Frank Hart and leading druggists.
