PORTLAND, June 22—In further comment on the condition of the California apricot crop, today's advices to jobbers in this city are to the effect that new crop evaporated apricots will probably start at 16@16 1/2 c. o. b. California. Buyers are offering as high as 15c to growers. That will mean around 18c per pound as the Portland price to the retail trade. Last year the opening quotations were 10@11c, the difference indicating the great shortage of this year's crop. Stocks of old are absolutely cleaned up.

A few Portland jobbers were fortunate in securing stocks of new pack apparatus in square tins, and the goods are now on the market at \$3.50 per case. It is unlikely, however, that much of a local demand will develop until fresh grass is done.
