Complete Market Reports Corrected Each Day Giving the Wholesale Prices of Commodities, Farm Produce and Vegetables.

PORTLAND, July 8.—The principal feature in front-street jobbing business the past week was the greatly increased trade in fruits and fancy vegetables. The month of July holiday season has become recognized as the time when the largest shipping demand is to be expected, and while dealers in fruits had accumulated stocks in preparation for some increase in total business, the hot weather was an incident that could not be foretold. As a result, the weather conditions coming on top of the holiday trade created an unprecedented demand that taxed the capacity of dealers to meet.

There continues to be a very good market for all concerned, in the egg market, prices being firm at 22c, which is considered reasonable to buyer and satisfactory to seller. In some quarters a half cent is named on top of the generally accepted figure. Ranch eggs are not coming in sufficiently to meet requirements, but the light receipts are being augmented by the Eastern goods, that sell side by side with the local eggs. No Portland storage eggs are being withdrawn, as far as could be learned. Butter is firmer, though there are still very heavy receipts from usual sources of supply, and some from quarters new to this trade previous to this year.
