STRIKE SPREADING IN CHICAGO

CEMENT STRIKE INVOLVES 2200 MEN—DRIVERS', GRAIN SHOVELERS' UNIONS ALSO QUIT WORK LARGEST STRIKE KNOWN HERE

CHICAGO, July 10.—A flurry of labor troubles broke in yesterday upon an unusually peaceful summer. The cement workers' strike swelled beyond all calculations, and involved before sundown, 2200 men employed in constructing sidewalks and concrete walls in buildings. Two other disturbances in the building industry were reported, while a walk-out of drivers and grain shovelers brought the total of the day's strikes to five.

Eighty-five per cent of the cement work in the city of every description was tied up by strikers. When 800 cement construction men engaged in the rougher work quit they threw into idleness 900 finishers and 500 building laborers. This marked the largest number of men on strike in Chicago since the teamsters' strike of last summer.

MEET IN DEADLOCK.

CHICAGO, July 10.—Officials of the railroads of the Central Freight Association and representatives of all the big breakfast food companies in the country are expected to meet in deadlock today at the offices of the association here. The cause of the clash is the attempt of the railroads to establish a much higher rate on grain products which will result, it is claimed in an increase of 33 1-3 per cent in the price of breakfast foods to customers.

Threatened increase has caused a hurried influx to Chicago manufacturers of these products.

The present rate between Chicago and New York is 17 1/2 cents. It is expected that this will be raised from 5 to 10 cents.

SEARCH FOR BROTHER IN CHINA

DISAPPEARED IN CHINA ONE YEAR AGO AND IS THOUGHT TO HAVE BEEN MURDERED BY COMPANION—NO TRACE THUS FAR.

SAN FRANCISCO, July 10.—G. W. Morley of Saginaw, Mich., returned yesterday on the China, after a six months search for his brother, R. H. Morley, who disappeared in China, a year ago while traveling with a man named Le Verger. Morley traced his brother to Wu Tun Cheng, on the border of Mongolia, more than 600 miles from Peking.

The last heard of the missing man was in September, 1905. Later Le Verger cashed a letter of credit owned by Morley, in Shanghai, for \$1000. Another letter of credit for a similar amount was cashed in Colombo, Ceylon.

It is suspected that Le Verger killed Morley, took his belongings and fled to France. Morley intends to keep up the hunt to discover what became of his brother. He is seeking information of the whereabouts of Le Verger.

THRIVED ON MILK.

Lady Lives to be 105 Years Old and Eats Nothing But Bread and Milk.

NEW YORK, July 10.—Whether a diet of bread and milk, taken almost exclusively for 40 years is responsible for the remarkable preservation from the effects of old age shown in the body of Mrs. Mary Fay, who died in the city alms house at the age of 105 years a few days ago is causing interest among physicians.

Despite the extreme age of Mrs. Fay, her body is in as perfect physical condition and as well nourished as that of a comparatively young woman according to Coroner Physician Dr. Philip O'Hara. "I have performed 4550 autopsies," he said yesterday, "but she was the best preserved person I ever saw. Were it not for the lines of age in her face she would not have been taken for 25 years of age. She weighed approximately 140 pounds and was little more than five feet in height. The body was exceptionally well nourished, and the teeth in both upper and lower jaws were in perfect condition."

NEWS OF OREGON AND THE NORTHWEST.

CANADA TO INVESTIGATE BUILDING MATERIALS

VICTORIA, B. C., July 10.—With the great influx of population now entering the province, every material suitable for building becomes of great economic value. This has been brought to the attention of the provincial government, and steps are to be taken this season to fully investigate the deposits of fire clay and gypsum that have been discovered in parts of British Columbia. Provincial Assayer Carmichael has been instructed to devote a large portion of the present season to work of this character. He will examine all known deposits in the province, take samples from each and give, when the report is published, a complete chemical analysis of contents. An extended examination will also be made of the west coast of Vancouver Island. A complete report will be made on mineral prospects and the progress of mining. This will supplement the report of the various mining recorders and give expert opinion on the occurrence of different minerals and the chances for the continuity of the deposits. Mr. Carmichael will also take a trip to Kamloops and investigate the deposits of gypsum reported to be in existence in Highland River Valley.

FLORENCE TO HAVE BIG COLD-STORAGE PLANT

EUGENE, Ore., July 10.—William Kyle & Sons, a firm owning lumber schooners, steamboats, sawmills and a store at Florence, at the mouth of the Siuslaw River, in Lane County, have announced that they will at once establish a cold-storage plant for salmon at Florence. All the machinery has been ordered, and it is expected within a few days to arrive from Portland. This will give the fishermen of the Siuslaw an opportunity to get a better price for their fish.

PLAN TO CLEAR LANDS IN BRITISH COLUMBIA

VICTORIA, B. C., July 10.—Manager Roberts of the Fraser River Company, has secured for clearing a large section of land along the E. & N. railway line. The contracts include a tract near Ladysmith of between 2000 and 3000 acres, some lands lying between Ladysmith and Nanaimo, and large tracts lying north of the proposed extension of the E. & N. lines to Cumberland.

In connection with this large development scheme, said to cover 50,000 acres of land in all, there will be work done on Nanaimo River in the way of securing very extensive power, for what purpose is not yet made public.

O. S. P. ASSOCIATION IS IN SESSION AT NEWPORT

NEWPORT, Ore., July 10.—The annual meeting of the Oregon State Pharmaceutical Association opened its sessions here today. There is a good attendance from various towns in the valley, including Portland, and many are expected to arrive during the next four days. The meeting will close July 13.

ON LONG TRIP.

Three Boys Returning Home From Traveling Around the World.

CHICAGO, July 18.—A dispatch to the Record-Herald from Philadelphia, says: "I ain't got a cent, but I'll be home in three weeks," said Guy Krumm, aged 15, of Danville, Ky., who arrived yesterday with two other boys on the American liner Friesland from a two years' tour of the world. The other two plucky specimens of Young America were Otto Ford, 18 years old, of Seattle, Wash., and Glen Howell, of Atlanta, Georgia. It was November, 1904 that the boys ran away. They met in Chicago and made their way to Seattle before shipping on the Marion Frazer for New Zealand. Ford and Howell shipped as able seamen and Krumm owing to his youth was accepted as cabin boy. The boys sailed about 33,000 miles. Twice on their voyage they nearly starved.

ICEMAN ON THE RACK.

KANSAS CITY, July 10.—In an investigation of the ice manufacturing concerns today, Harry L. Burk, secretary of the People's Ice & Storage Co., practically admitted that his concern dictates the price of ice. Burk denied that he had any authority to make price for any other company. He simply fixed the price of his own company and all other companies promptly followed suit. The witness was unable to tell the cost of production and declared that supply and demand fixes the price of ice.

MANY PORTLANDERS ARE VISITORS AT SHERWOOD

SHERWOOD, Ore., July 10.—More than 100 excursionists, residents of Portland, came out on the morning train Sunday and remained during the day in attendance at the meetings of the German Lutheran Synod at St. Paul's church, one mile west of town, returning in the evening.

The general assembly will close its sessions today, which convened July 4. The delegates assembled have labored faithfully and harmoniously for the best interests of the church and its people at large.

Rev. Arthur Spleiss, local pastor, has had a call to a Portland pastorate, but has not yet fully decided to accept. The members of his congregation here are fully determined to retain him if possible, as he has succeeded in building up a strong church as well as useful school.

AUGUST NOT GUILTY.

German Society Claim Man Arrested For Being Anarchist is Innocent.

SEATTLE, July 10.—From investigations made, the German society of this city claims that August Rosenberg now under arrest in Germany on suspicion of being an anarchist with designs on Emperor William's life, was a plain everyday mining man. The society claims that the chemicals found here are the only ones used as an assayer. They also claim the statement he presented at the anarchist meeting here, at which Most delivered an address, has been disproved. The "anonymous" letter, which he had when arrested, is supposed to be written by a relative with whom he had trouble.

HARVESTING NOW IN FULL SWAY IN MORROW COUNTY

HEPPNER, Ore., July 10.—Harvest is now well on in most parts of Morrow county. Headers have been running for two weeks in some localities, cutting barley, but little wheat has been cut so far. All of the machines that are running are near Lone and Lexington, which country is earlier than that around Heppner and the southern part of the county. Farmers near Heppner claim that this year's crop is equal to any they have raised. The heads are filled well and there is a good stand of straw.

Threshing will not be commenced for about two weeks, in general, yet some few machines will start up the latter part of this week. Machine men are claiming a shortage in help and say that it is impossible to get all the help that they will need to take care of the crop.

BODY FOUND IN WISKAH.

ABERDEEN, Wash., July 10.—The body of Gilbert Eede, aged 73, was found in the Wishkah River by a searching party Sunday evening. Eede had been running a scow boat on the river for some time. Last Friday evening the scow was found adrift and a lantern burning. Death is supposed to have been accidental. He leaves a widow and grown children in England. This makes the third body found in the Wishkah within the last week.

PREPARE FOR WORK

(Continued from page 4)

quarters will not be opened before August 1. As usual, the republican headquarters, this year, are "up against" the same proposition that their democratic opponents have wrestled with in recent congressional campaigns—there isn't any money in sight. Democrats have become hardened to this chronic state of campaign poverty and are much less troubled, therefore, than are the republican managers. It appears to be the accepted belief that the "frosty mitt" instead of the "glad hand" will be extended to this year's solicitors of campaign contributions. Certainly, many of the old sources of revenue are forever cut off, and unless new sources can be located there isn't going to be much doing in the way of campaign funds.

MINISTER MURDERER.

MANGUM, Okla., July 10.—Rev. J. L. Rea pastor of the Christian church, early today shot and probably fatally injured George A. Stephens, his brother-in-law and then cut his own throat. Rea may recover. Rea and his wife had separated, and Mrs. Rea went to her brother's farm. Stephens went to the pastor's house and asked for her belongings. The men quarreled and Rea shot Stephens.
