B. F. ALLEN & SON

So many unthinking people, and the world is full of such, say they are afraid of clever women. Why, it is the fools who do all the harm in the world and in the family, and it is the constant task of the clever to undo the mischief caused by their folly.

In bringing up a child, teach it to make friends easily with other children and with older people as well. Courtesy, like love and languages, is most easily learned by the youngest. Do not follow the course pursued by one really devoted mother who gives time, thought, and energy to the business of pushing her little ones in its studies, while the child's social training is badly neglected.

NEWS OF OREGON AND THE NORTHWEST.

FOREST GROVE MAN MAKES BEST BOWS

FOREST GROVE, July 13.—An industry which is deserving of special mention is being carried on by F. S. Barnes at this place, which is the manufacturing of bows from the Oregon mountain yew, from which during the past 15 years about 1200 have been made and sold all over the United States. Yesterday an order was received from Tacitus Hussey, of the commercial club of Des Moines, Ia., vice-president of the National Archery Association of the United States, aged 72 years, for one of these bows.

Will H. Thompson of Seattle, the greatest archer in America, says "the bows made by Barnes are superior to any others made in the world."

Oregon should have Barnes' exhibit of the Oregon yew wood bows at the Jamestown exhibit next year.

FIRST PEACHES IN POLK.

INDEPENDENCE, Ore., July 13.—The first home-grown peaches of the season were brought to town yesterday. The peaches are of a very large variety and a delicious flavor. They were raised by H. Heselton just north of town.

CLYDE G. CORNELL DIES AT BROOTEN SPRINGS

CLOVERDALE, Ore., July 13.—Clyde George Cornell died Wednesday morning at the Brooten Mineral Springs, near this place, aged 27 years of consumption. He was a resident of Clackamas county, and was a brother-in-law of Asa Wells, of Beaver. Cornell had doctoring in California, Oregon, and Washington, and came here to the Brooten Mineral Springs for treatment about two months ago. The remains were interred here.

AUSTIN CRAIG LIKES PHILIPPINE ISLANDS

FOREST GROVE, Ore., July 13.—Dr. C. I. Large has received a letter from Austin Craig from Calapan, Mindoro, Philippine Islands, dated June 13, where he has a government position in school work. Mr. Craig has been absent nearly two years. He was formerly county school superintendent of this county, and was editor of the Washington County Hatchet. He says he has excellent health and likes the country.

HEALTH BAD.

SEATTLE, July 13.—Owing to the breaking down of his health, Will H. Thompson, the father of Chester Thompson, the slayer of Judge Emory, will not be able to conduct the defense of his son. The counsel is not yet selected.

EXCESSIVE HEAT AT ALBANY.

ALBANY, Ore., July 13.—Remarkably hot weather was experienced throughout this part of the state yesterday. Thermometers ranged from 99 degrees to 102 degrees in the shade in different parts of the city. Excessive heat was noticeable in the morning and continued the entire day, being relieved by cool winds in the evening.

HEAT MAY HURT SPRING WHEAT.

JUNCTION CITY, Ore., July 13.—At 3 o'clock yesterday afternoon the heat registered 102 in the shade; a few more continued days of the hot winds will shorten the spring wheat yield more than one-third. The binders will commence cutting fall wheat next week, and the yield promises to be above the average.

OREGON MEN PUT ON STAND.

APPLETON, Wis., July 13.—John and Joseph Black and August Anderson of Shawano, were arraigned before Court Commissioner Kellogg today when testimony was taken in the case in which it is alleged they had entered tracts of government land in the vicinity of the Sprague river, Klamath county, Ore. Four witnesses were placed on the stand, they being Henry J. Cole of Jackson county, Ore.; Jefferson Howard, Butler F. Helman and Sumner F. Parker of Ashland, Ore.

The government will print something like 800,000 or 900,000 copies fewer this year of reports by various bureaus and departments, thereby effecting a saving of nearly three-quarters of a million dollars. No one will be the worse for this diminution of expense and output except, perhaps, the junk dealers of Washington, to whom eventually the stock of books not distributed by Congressmen goes.

CLINGS TO WATER PIPE UNTIL SHE IS RESCUED

ALBANY, Ore., July 13.—By holding to the water pipe after she had fallen into a well until a ladder was lowered to rescue her, Mrs. Peter Karstens saved her life in a thrilling accident at the Karstens farm near Albany this week. Her husband was making preparations to clean out the well and had removed the cover. Mrs. Karstens walked out of the kitchen door and straight into the well before she noticed the change. She fell into deep water, but clung frantically to the pipe for several minutes until a ladder was lowered and she was helped out exhausted.

PLANING MILL BURNS.

MOAB, Wash., July 13.—Fire wiped out the big planing mill of the Newman Lake Lumber Company yesterday afternoon. The loss is estimated at \$18,000 partly covered by insurance. The mill is said to have cost \$10,000 and the stock destroyed, which includes a large quantity of fine mouldings, is said to be valued at \$8000. The mill was splendidly equipped and was running full blast to fill accumulated orders.

NEW CATHOLIC HOSPITAL FOR TOWN OF ALBANY

ALBANY, Ore., July 13.—St. Mary's hospital will be the name of the hospital soon to be installed under the auspices of the local Catholic church in the former residence of Rev. Father Metayer, deceased. The building is one of Albany's largest and most beautiful structures, and the interior has been entirely remodeled, fitting it for hospital work. The equipment for the new hospital has been purchased from the Florence Sanitarium in Salem. Nurses from San Francisco will soon arrive to take charge of the hospital, and local physicians will attend to the surgical part of the work.

WANT MUCH AND OFFER NOTHING

Tacoma Company Applies For Trolley Franchise in City of Centralia.

CENTRALIA, Wash., July 13.—Another attempt was made by the interests represented by E. J. Weeks of Tacoma at the Council meeting Wednesday night to secure a franchise granting to the Pacific Coast Traction Company, of Tacoma, a franchise to own, operate and maintain an electric street railway upon certain streets in the City of Centralia. No action, except to refer it to the proper committees was taken. The new franchise is much the same as the one rejected several weeks ago by the committee for the Centralia-Chehalis Electric Railway & Power Company.

One provision is made that the company shall not forfeit its franchise if it runs cars at least every six months. No penalties, forfeiture or the like are provided, except a bond of \$2000 that the company will comply with laws enacted by the Council in regard to the franchise. The company desires to have either single or double tracks, and many other privileges, and in return give the city the right to place one cross-arm upon the company poles, if the city sees fit to do so. The opinion seems to be that Centralia does not need the Pacific Traction Company now half as bad as it did six months ago, as the Northern Pacific and Southern Pacific are showing every intention of coming through here.

HOT AT FOREST GROVE.

FOREST GROVE, Ore., July 13.—The government thermometer here registered 103 degrees yesterday. It has not been so hot here before for five years.

She was searching through a shop for that new device for womankind minus maids—the corset cover buttoned down the back—when a new compound noun came to her ears. It was "lady-wear." It appears this is the latest addition to the vernacular of the shops and under it saleswomen group all feminine habiliments of the lingerie order. "There is no doubt about it," said the searcher for a corset cover that was to give a transparent waist an excuse for being "this word, perhaps born in the workshop where skirts and waists are made by the hundreds of thousands, will stick."

The Queen of Siam owns a thimble which was a present from her royal husband. It is made in the shape of a lotus, band of the finest gold, and is studded with diamonds, which are so arranged that they form her name and the date of her marriage.
