ANNUAL CONVENTION.

NEW YORK, July 14.—The tenth annual convention of the National Association of State Dairy and Food Departments (Interstate pure food commission) to be held at Hartford, Conn., July 17-20, it was said here today, promises to be the most important conference of its kind ever held in this country, following as it will upon the passage of the first federal pure food law. Manufacturers of every class and kind have been invited and are expected to attend in large numbers.

NEWS OF OREGON AND THE NORTHWEST.

SHINGLE OPERATORS TO HOLD MASS MEETING

SEATTLE, July 14.—A call was today sent out to all shingle manufacturers of the state to attend a mass meeting of operators to be held in this city on Sunday afternoon. The object of the meeting is to discuss the situation in general and to outline a plan of action in regard to the contract asking for a closed shop and the use of the union label, which the unions have presented to the manufacturers. The call as issued emphasizes the importance of the manufacturers acting in concert in regard to the present demands of the men in order to protect themselves.

The officers of the International Weavers' organization claims gains, and that the operators are signing the contract. They state that much is hoped for through the exercising of the boycott on non-union shingles in the East.

CAMP AT AMERICAN LAKE HAS LIVELY APPEARANCE

TACOMA, Wash., July 14.—Six companies of the Twenty-second Infantry have arrived at the American Lake camp San Francisco for the military maneuvers in August, and more are to follow at intervals. The Twenty-second is under command of Colonel Alfred Reynolds.

Captain John J. Bradley, of the Fourteenth Infantry, will be one of the assistants of the Quartermaster's Department.

IRRIGATION CREW IS PARTIALLY ASPHYXIATED

KLAMATH FALLS, Ore., July 14.—A crew of five men at work in one of the new tunnel shafts on the government irrigation works was partially asphyxiated Thursday by the powder smoke from blasting and from the foul air in the shaft.

All the crew was removed before any serious consequences resulted. One or two of the men became unconscious, but revived immediately upon reaching the surface.

WHITMAN FARMERS PLAN TO BEGIN HARVESTING

COLFAX, Wash., July 14.—Whitman County farmers are making every preparation for the wheat harvest which will open in full blast in the western part of the county next week. While a large force of laborers are gathering in the small towns ready for work, it is anticipated that help will be very scarce. That crop promises to be a bumper, save for the slight damage caused by the late hot weather. Careful observation shows that the crop is not injured as much as at first thought, yet the damage will reach 15 per cent. The recent cool weather has ripened the grain quite evenly, late wheat filling better than earlier, on account of the weather being better suited to its development.

JACKSON COUNTY PAYS TAXES.

SALEM, July 14.—The Treasurer of Jackson County yesterday paid \$98112.50 into the State Treasury, representing half payment of that county's share of state taxes for the year 1906.

MEETS A TERRIBLE DEATH

J. B. MULLIKEN ELECTRICIAN OF OREGON CITY, ELECTROCUTED, BY COMING IN CONTACT WITH LIVE WIRE.

OREGON CITY, Ore., July 14.—J. B. Mulliken an electrician employed by the Portland General Electric Company was electrocuted at 9 o'clock this morning, while working among a network of wires at the top of a pole near the Methodist church, at the corner of Seventh and Main streets, in the heart of the city.

Mulliken ascended the pole to adjust a wire, and in some manner a short circuit was caused by him, a current of 2300 volts passing through his body, frightfully burning the flesh. The accident was witnessed by a crowd of persons who were passing along the street, but all were powerless to render the unfortunate man any aid. The power station was immediately telephoned, and as soon as the current was turned off the body was lowered to the ground in a blanket. The Coroner is investigating the case.

RUSHING TO JOHN DAY TO SECURE TIMBER LAND

SUMPTER, Ore., July 14.—There has been quite a rush to this section by timber land locators during the past three months. The land lies west of the reserve in the John Day country in Grant county, and is covered with a good growth of yellow pine. Many of the locators are from Portland and the coast towns of Washington. So rapidly is this land being sought it will be but a few months until every available acre has been taken from the control of Uncle Sam. Among the locators are many women, some of whom have barely reached the age of 21 years.

One train on the Sumpter Valley Railway was so crowded with these locators that many of them were compelled to stand in the aisles during the run from here to Austin station.

ABERDEEN GRANTS FRANCHISE

ABERDEEN, Wash., July 14.—The City Council has granted a franchise to E. C. Finch for the establishment of an independent telephone system. The granting of the franchise was vigorously fought by Mr. Sands, representing the Sunset Telephone Company; but the ordinance was passed with only one Councilman voting against it. It is expected that the Hoquiam City Council will grant a franchise to Mr. Finch also, and that the two towns will have the benefit of the same service.

GRAFT CHARGES AT LA GRANDE.

LA GRANDE, Ore., July 14.—The Mayor in a communication to the Council says that report of graft are prevalent. In connection with gambling and other matters, the message recommended the appointment of a committee of three to examine these charges and exonerate or find guilty the interested parties.

The whole Council was appointed as a committee on this question. Next Wednesday evening the Council will meet and consider all charges.

ERECTING BOX FACTORY ON NESTUCCA RIVER

CLOVERDALE, Ore., July 14.—A new enterprise is being established about five miles from here on the Little Nestucca River. Frank Foster Jr., and Sr., are erecting a box factory and shingle mill. It will be the first box factory in Tillamook county, and the boxes they are to make are the round cheese boxes, which are used extensively in the East, but are almost unknown in Oregon to the cheese factories. The machinery is on the ground and it is expected the mill will commence operations August 1. The entire output of the factory can be sold in this county.

YOUNG CHINA PHEASANTS VERY SCARCE IN LINN

ALBANY, Ore., July 14.—Young China pheasants are very scarce this year, and the indications are that the approaching open season will be a poor one for hunters. The early rains, this Spring, coming about the time the birds were hatching out, killed a large percentage of them, and this is the cause of the scarcity.

Mulliken was aged about 28 years, and unmarried. His home was in Michigan. He had worked here about 2 1/2 months, and was temporarily occupying the position of local superintendent, doing the work of Superintendent J. W. Miller, who fell from a pole and was injured some time ago.

SHINGLE MEN TO MEET.

SEATTLE, July 13.—A call was today sent out to all shingle manufacturers of the state to attend a mass meeting of operators to be held in this city on Sunday afternoon. The object of the meeting is to discuss the situation in general and to outline a plan of action in regard to the contract asking for a closed shop and the use of the union label, which the unions have presented to the manufacturers. The call as issued emphasizes the importance of the manufacturers acting in concert in regard to the present demands of the men in order to protect themselves. The officers of the International Weavers' organization claim gains and that the operators are signing the contract. They state that much is hoped for through the exercising of the boycott on non-union shingles in the east.

FARMERS DIE OF HEAT.

BAKERSFIELD, Cal., July 14.—Two deaths occurred from sunstroke near here today. Both were farmers.
