Break it and note how much of it is chaff. It is this chaff that contains the unpleasant astringent principle (tannin), on account of which coffee drinking does not agree with some people.

Barrington Hall The Steel Coffee

You will taste the difference in the first cupful. The chaff has been removed from this coffee by a wonderful steel-cutting process. Packaged by machinery in sealed tins—it is the only pure coffee, free from dust and tannin-bearing chaff.

MAKING CAPITAL OF BRYAN'S SPEECH

EFFORTS OF NUMBER OF EASTERN NEWSPAPERS TO DEPRECIATE NEBRASKAN'S UTTERANCES IN LONDON CARRY NO WEIGHT.

WASHINGTON, D. C., July 19 (Special).—An attempt has been made in certain quarters to make anti-Bryan capital out of Mr. Bryan's speech in London in which he seemed to reassert his devotion to the principle of 16 to 1. A number of eastern newspapers which can see nothing but disaster before the democratic party with Bryan as its leader have seized upon this utterance and are making it the subject of deprecatory editorials.

In view of this, an examination of what Mr. Bryan really said, and the circumstances under which he said it, is worth while. The speech was made at a Fourth of July gathering of Americans in London, and it followed a talk by Ambassador Whiteley Reid. Mr. Reid, as was very proper upon the occasion, boasted of American progress and prosperity. All through this speech there ran an undertone in which he twitted Mr. Bryan because of the latter's prediction that without the free coinage of silver no permanent prosperity could come. Mr. Bryan's answer was in a like spirit of banter, and during the course of his remarks, he said: "When I see the progress my country has made walking on one leg, I wonder what it would have done walking on two legs."

Of course, he referred to the monetary standards and had in mind that the country might have made greater progress with two standards instead of one. But doesn't it seem a pretty small peg upon which to hang a belief that, were he again to lead the democracy, Mr. Bryan would, in the light of present conditions, advocate the free coinage of silver, as a cardinal Democratic doctrine?

If the anti-Bryanites of the East are going to check the rising tide of Bryan sentiment they will have to get something more substantial than this London speech with which to scare away the gold democrats who are now disposed to favor the Nebraskan.

NEWS OF OREGON AND THE NORTHWEST.

GOOD WATER SUPPLY.

CENTRALIA, Wash., July 19.—The Centralia Water Supply Company has almost completed all new work that was ordered done on the Centralia water system. The company has tried to fulfill every agreement of its franchise, and now the city will probably drop the suit against it to annul the franchise. Instead of one broken-down pump, which was being used when the City Council stepped in, there are now three good pumps, with a capacity of 3,200,000 gallons of water every 24 hours, which is more than the city uses. Two of the pumps are connected with the river and one with the fresh-water well. The water will be filtered through a big 20-ton filter.

OCTOGENARIAN DIES.

LA GRANDE, Ore., July 19.—Mrs. Lucetta Lansdon, aged 81 years, died this morning at the home of her son-in-law, W. H. Allstott, of this city. She was born in Meigs County, Ohio, February 16, 1826. With her parents she moved to Illinois, and in 1845, married James Lansdon. In 1874, Mr. Lansdon died. She leaves six children, two of whom, Mrs. Laura L. Stults and Mrs. Lylly Allstott, live in this city. The funeral will be held from the Allstott residence tomorrow afternoon, Rev. W. H. Gibson, of the Baptist Church, officiating.

HAY CROP GOOD.

LEBANON, Ore., July 19.—After 16 days of as hot weather as the Willamette Valley ever experienced, the atmosphere has been tempered down by foggy mornings and cool nights. The hay and fall sown wheat were too far matured to be damaged, but the general opinion is that the Spring grain has been damaged, as well as fruits and berries.

SHERIFF'S POSSE FIND HORSES.

BENR, Ore., July 19.—In the Green Mountains a few days ago Sheriff Elkins and a posse from Prineville found 12 horses in different parts of the mountains, all suffering for lack of feed and water. One horse was sore where a brand had been cut out. The horse was brought to Prineville and will be made use of as evidence against Hogg, Adams and Fitzgerald, who were arrested last Thursday, charged with killing a calf belonging to J. M. Smith. Saturday evening they were arraigned before Justice Lucky and held to appear before the grand jury in bonds of \$1000 each.

Some of the horses found by the Sheriff were hobbled, some staked out and others penned in two cunningly contrived corrals. These corrals had wings built of logs and brush from a quarter to half a mile in length. The horses are believed to have been stolen.

ABERDEEN GAINS 7000 POPULATION IN 5 YEARS

ABERDEEN, July 19.—A census of the city just taken by Professor R. B. Kellogg, under the direction of the Mayor and City Council, shows a present population of 10,137, a gain of 7000 within the past five years.

Many foreigners in this city cannot speak English well enough to answer the necessary question, and so were not included in the report. This enumeration will entitle the city to be advanced to the second class and steps to that end will be taken at once.

A REAL WATERFALL AT THE STAR

'STATE'S EVIDENCE' PLAYED AT STAR LAST NIGHT BY WILLARD COMPANY—STAGE EFFECTS ARE MOST REALISTIC.

Certainly the production of "State's Evidence" made a hit last night, and every one enjoyed the performance immensely. Great praise can be bestowed on the efforts to please that the Willard Company make. It is their aim and object to perform. Both Mr. Willard and his manager's efforts are to make their engagement one that the people can all enjoy and find recreation and amusement in.

We are pleased to state that this company has agreed to prolong their engagement into five weeks, instead of two as first advertised and we are sure that they will be well justified in so doing.

The company last night all carried their part excellently. Our friend, Solomon Isaacs, with "Hi like ha Heagle," caused great merriment, and was certainly "Johnnie on the spot." But a word in regards to the beautiful water scene, which was portrayed most naturally in the second act. Great praise must be bestowed on Mr. Puritan, the stage manager and mechanic of the Star Theatre and his assistants, for they certainly did themselves proud, having a real waterfall on the stage and it is these things that help make success.

O. G. Higbee, Danville, Ill., writes, Dec. 2, 1901: "About two years ago I was laid up for four months with rheumatism. I tried Ballard's Snow Liniment; one bottle cured me. I can cheerfully recommend it to all suffering from like affliction. 25c, 50c and \$1.00. Sold by Hart's drug store."
