

LOOK AT A KERNEL OF COFFEE

Break it and note how much of it is chaff. It is this chaff that contains the unpleasant astringent principle (tannin), on account of which coffee drinking does not agree with some people.

Barrington Hall The Steel Coffee

You will taste the difference in the first cupful. The chaff has been removed from this coffee by a wonderful steel-cutting process. Packed by machinery in sealed tins—it is the only pure coffee, free from dust and tannin-bearing chaff.

BLOOD FLOWS IN RUSSIA

Conspire to Capture Three Great Forts
HELSINGFORS, July 31.—A gigantic military conspiracy aiming at the simultaneous capture of Russia's three great sea outposts—Cronstadt, Sebastopol and Sveaborg, arranged by the revolutionary military league, was prematurely sprung here last night by an attempt to arrest members of a company of sappers, who had mutined on account of the death of a comrade, alleged to be due to ill treatment.

The entire garrison of the fortress at Sveaborg flamed out instantly in revolt. All artillerymen and sappers garrisoning the place are involved. Only four companies of infantrymen remained loyal. The mutineers seized forty machine guns, and practically all the quick firing guns and light artillery in the fortress, but even with this aid they were unable to hold the main fort against the loyal infantry. The fighting continued all night long. The heaviest firing was heard from 10 o'clock in the evening until 1 in the morning.

Fleet Opens Fire.

This morning a detachment of civilian revolutionaries entered the marine barracks on Skatuden Island, hoisted a red flag, and were joined by all the marines. Nine cruisers, torpedo boats, and destroyers lying in the harbor opened fire on the barracks. This fire was answered from the third story windows of the barracks with machine guns and rifles.

The torpedo boats and destroyers which were lying closer to the shore were subjected to such a hot fire from the barracks that the crews were driven below decks. They finally steamed out and joined the cruisers. The sea attack was in co-operation with the attacks by the cosacks and infantry from the land side. Toward evening the firing ceased and the authorities announced that the barracks had been captured.

There are rumors that the fortress has now fallen into the hands of the insurgents but they lack confirmation. It is believed the cessation of firing is only a prelude to a renewal of the battle between the mutineers and the government troops.

An authoritative estimate of the killed and wounded cannot be obtained, but the casualty list on both sides must be heavy, for fighting is waged with desperation.

POLICYHOLDERS GET SUMMARY JUSTICE IS LIST OF NAMES INFLICTED

MUTUAL LIFE POLICYHOLDERS ASSOCIATION SECURES LIST THROUGH AID OF COMPANY OFFICIALS.

NEW YORK, July 31.—The Mutual Life Policyholders' Association has, it is announced today, secured a copy of the list of the company through the co-operation of the officials of the company. The list is a duplicate of the one filed at Albany and it is not the special stencil list which the company is using for itself. The association, therefore, has the same names as the international policyholders committee which the latter secured at great expense through copying the names at Albany.

The associations' list was obtained from the Trow Printing Company, which made up the Mutual's first list. It was directed to make six copies of the typewritten names. It made seven, so as to have a spare list for business reasons and also in case there should be demand for another. The policyholders' association heard of this list and began negotiations with the Mutual's officials to obtain it. The negotiations occupied several days and finally the list was given up. The association therefore finds itself in the same position as the international committee as regards the names of the policyholders at practically no expense.

A conference between Richard Olney, chairman and Samuel Untermyer, counsel, of the International Policyholders' committee and Bernard B. Baker, chairman of the Mutual Life Policyholders' Association, has been arranged for this afternoon.

EX-MAYOR IS DISGRACED.

Former Mayor of Paterson, N. J. Returns Home and Surrenders.

PATERSON, N. J., July 31.—William H. Belcher, former Mayor of this city, returned to Paterson yesterday on a train on the Erie Electric and surrendered himself to David Morris, night warden of the county jail.

Belcher was forced by his poverty to give himself up. He had been in New York for several days. He declared he had no means with which to make restitution of the funds which he is alleged to have obtained before he fled from the city and that he was back to answer the charges against him.

Belcher has not been out of the country in spite of rumors that he was in the Hawaiian Islands and China. Since his disappearance he has wandered about the country, obtaining employment where and when he could, and was finally forced by stress of circumstances to return to the city where he once had friends.

Belcher had been missing since August 1, 1905. At the time he left Paterson, a few of his closest friends were ready to draw him out of financial difficulties. They did not know at the time that he was charged with having obtained \$20,000 by fraudulent representation and that \$5000 was taken from the Manchester Building & Loan Association, of which he was the president.

What Belcher did with the money he obtained has never been told. He neither smoked nor drank, was an exemplary family man and had never got into any difficulties. When it was evident that his absence was to be permanent an effort was made to obtain as much as could be raised by a sale of his property which included a good sized farm near Paterson. A receiver was appointed a few days after he left Paterson, and eventually the former mayor was adjudged a bankrupt. His farm sold on June 8 last.

Belcher during the several days he spent in New York making up his mind to return was in the humblest circumstances. He has aged perceptibly and his hair is grey from the worry to obtain a livelihood.

ATLANTA, July 31.—Floyd Carmichael, a negro of 22, was identified by Miss Annie Poole of Lakewood, a suburb of Atlanta as the man who assaulted her early today and was shot in front of the Poole residence in sight of his victim this afternoon by a posse. After he had been shot there were cries of "burn him", but the police arriving at this time prevented such an action. About 10 o'clock this morning Miss Poole while returning from a visit to a neighbor was attacked by the negro who choked her until she was unconscious. When the alarm was given a posse quickly formed, but not until late this afternoon was the negro captured and brought to Miss Poole's presence. She identified him and volleys of shots rang out and the fellow fell dead. Miss Poole was only 15 years of age.

FOR ANNUAL TOURNAMENT.

German Naval Attache Completes Arrangements For Yacht Race.

LOS ANGELES, July 31.—The Times today says:

One of the most important men in the international yachting world visited Los Angeles yesterday and left last night for Washington. This was Commander H. C. Hebbinghaus, the naval attache to the imperial German embassy at Washington.

He is the right hand man of the German Emperor in all those arrangements for the contesting of American yachts in which his majesty has shown so much interest.

Commander Hebbinghaus, has now another international yachting affair on hand and has completed arrangements for an annual tournament between three German and three American yachts. If these tournaments are sailed on the American side of the Atlantic all control of them will be in the hands of the Eastern Yacht Club of Boston and Marblehead and when the three Yankee craft compete in German waters the races will be under the auspices of the imperial Kaiserliche Yacht Club of Kiel.

"For a long time his Majesty," Mr. Hebbinghaus said, "has wished that there could be more yacht races between American and German Yachts. Consequently when Mr. Howard of the Eastern Yacht Club mentioned some of the present ideas in Germany they were received with the greatest enthusiasm and it was afterward arranged that three German Yachts should come to America to race against three American yachts of the same size. This will be for a cup presented by the Eastern Yacht Club. By the consent of the President the trophy will be the Roosevelt cup."

"Next year three American yachts will cross and race at Kiel for a cup to be presented by his majesty. Nine vessels have been built and raced in trial contests for the honor of being among the trio which will represent Germany at Marblehead and I think that about 18 are being prepared for test in America."

TUNNEL WORKERS STRIKE.

New York Tunnel Workers' Union Want Raise in Wage Scale.

(Continued from page 1)

Gustav Weinberger, chairman of the executive committee, issued a statement that the strike would be continued until a satisfactory arrangement on the scale of wages is outlined by the contracting company. Those affected by the demands of the workmen are the United Engineering Company, O'Rourke Construction Company, New York Tunnel Company and Pearson & Sons.

To August Belmont an ultimatum was sent yesterday on behalf of the tunnel workers who threaten a general strike in the new tunnel between Joralemon and Henry streets, Brooklyn, and South Ferry. It stated that the tunnel workers desired arbitration of the union conditions in the tunnel and that considerable dissatisfaction existed concerning the open shop conditions introduced by the Crawford Company, subcontractors for the New York Tunnel Company.

APPEARANCES

Often a person is sized up by his appearance; by the tone that surrounds him. And more often a business house is sized up by the stationary it uses. A cheap letter head or a poor bill head gives a mighty poor first impression and makes business harder to transact. Good printing costs no more than poor printing. The first impression is half the battle in business. You wouldn't employ a "sloppy" salesman; why put up with "sloppy" stationery, that gives a wrong impression of the importance of your business. Let us do your printing and help you to make that ten strike.
