PORTLAND, August 22—There would appear to be a wide difference of opinion among dealers in eggs just now. Probably this is not to be wondered at when it is taken into consideration that Eastern eggs are now and have been for some weeks in direct competition with ranch eggs.

Upon the receipts of heavy lots of Eastern, there is said to be a greater temptation to boost the price of ranch than can be withstood by the holders of the imported goods, for if the market on ranch can be held up, naturally a better figure can be obtained for the product brought in to compete.
