DESIRE BINGHAM PRESIDENT

Pushcart Men and Peddlers of New York Are Booming Police Commissioner Bingham for President and Waldo Vice-President.

NEW YORK, Sept. 15.—A New Yorker who happened to be in one of the coast towns in Italy somewhat over a year ago, witnessed there the town's celebration of the feast of St. Mary. In the evening the streets were gay with illuminated arches. There was a parade with colored fire and bands, fire balloons were floated and in one of the squares was set up a huge pink and silver and gold altar to the saint, before which a reverent throng constantly passed and upon which scores of candles burned. "How unlike New York!" remarked the New Yorker. A few evening ago, happening to stroll south from the old aristocratic quarter of Stuyvesant Square, he found himself on the edge of a teeming Italian section in the streets of which the celebration he had seen in Italy was being reproduced, illuminated arches, fire balloons, parade, altar and all. He mingled with the throng, and so far as the faces he saw and the language he heard were concerned, he might have been in the midst of Italy.

Many Cities in One.
In New York, embracing as it does, men of all nations, all races, all creed, every holiday and feast day in the world is celebrated by some portion of the population. New Yorkers who do little exploring about the city do not

realize that with 37 per cent of the population foreign-born, the metropolis contains a succession of foreign cities. The aggregate of all foreign born and those of foreign parentage in New York is 2,339,895. New York is the largest Jewish city in the world with about 700,000 Hebrews. During the feast of Rosh Hasanna, on Sept. 20, business will be at a standstill over a large portion of the East Side, and for over a mile along Broadway in the section beginning with Canal street and ending at Astor place. New York contains within a few thousands as many Irish as Belfast and Dublin together; more Germans than Munich, more Italians than Florence, nearly as many Russians as Riga, nearly as many Austro-Hungarians as Prague, and more Norwegians than Christiansand.

Bingham for President.
Mr. Bryan is retired from the limelight of presidential possibilities. President Roosevelt, if he finally decides to run again, had best beware and candidates like Messrs. Shaw, Fairbanks, Taft and Hearst had better take to the tall timber. The Pushcart Peddlers of the East Side are out with a ticket which they believe will sweep the country. The ticket is: For President, Police Commissioner Bingham; for Vice-President, Deputy Commissioner "Rhinevine" Waldo. The proclamation of these new candidates followed the announcement that Commissioner Bingham and his deputy had ordered the police to forget the Sunday law so far as the pushcart men are concerned and look the other way when the peddlers are selling things. The pushcart men wish to sell on this particular Sabbath because during a part of the week they will be idle because of the feast of Rosh Hasanna. Sigmund Schwartz, the President of the United Pushcart Peddlers' Association of Greater New York, and Finnan Haddie Mose Lippman are the original Bingham men. At a meeting of the Peddlers' Association an announcement was made that Mr. Waldo's name was originally Rhinevine Waldo-sky evoked tremendous hysteria. It was suggested that the peddlers give Commissioner Bingham a diamond studded cane and a set of diamond shirt buttons, but frugal afterthought changed this to a set of engrossed resolutions, in red, green, yellow and pink lettering, with a bunch of wax flowers tied to the frame.

WEEK ON WALL STREET.

NEW YORK, Sept. 15.—Gold shipments for New York set in full tide this week and were made immediately available to New York reserves by the operation of the treasury order for deposit of government funds against the engagements. The result was the breaking of the money stringency in Wall street and the recession of the call loan rate to nearly normal figures. The response in the stock market was moderate owing to some realizing on purchases made while money was stringent. The remaining doubt of the money prospect owing to the large demands to be met to accommodate the exceedingly active business conditions also exercised some restraining influence. General confidence was felt, however, that measure of money relief by the Treasury Department would follow any sign of harmful money stringency.

CONFLICTING REPORTS.

HAVANA, Sept. 15.—General Rodriguez, with a force of a thousand men encountered Generals Castillo and Asbert with forces of about the same number last night near Wajay. The government claims the insurgents were dispersed, while rebel and other accounts say the government forces were driven back and defeated. General Rodriguez returned to Havana during the night and his troops are encamped a short distance outside the city. The government lost three killed and several wounded. The insurgent loss is unknown.

WILL WATCH CLOSELY.

NEW YORK, Sept. 15.—That the United States government purposes to scrutinize closely all shipments of fire arms, ammunition and munitions of war, from this port to West Indian, Mexican, Central American and South American ports, primarily to prevent filibustering for the Cuban insurgents and to insure compliance with existing neutrality laws, became evident yesterday when a special order on the matter was issued by Nevada N. Stranahan, collector at the port of New York.

WANT THE MONEY

Frisco Relief Corporation Would Control Cash.

GO AFTER RED CROSS FUND

Rumor That Red Cross Directors Would Distribute \$1,800,000 Fund Causes Sensation Among Bay City Relief Corporation.

SAN FRANCISCO, Sept. 15.—It is said the relief corporation is considering the advisability of sending an agent to Washington to look after San Francisco's interest in the \$1,800,000 held there by the National Red Cross for the relief of this city.

Word from Washington that the directors of the Red Cross had decided what disposition should be made of the money but would meet on Sept 25, created a sensation at relief headquarters today. It has been given out right along that this money would be turned over to the corporation early in September, \$300,000 being held in New York and \$600,000 in Boston. An agent from Boston is now on the way to San Francisco to look into the situation.

ONE KILLED; FOUR INJURED.

THE DALLES, Sept. 15.—While moving a pile driver on a high trestle at Lyle yesterday afternoon, ropes attached to the machine parted, resulting in the death of William Williams, engineer of J. M. Bruce & Co.'s bridge crew, and seriously injuring four of his assistants. The injured men are lying in the city hospital at this place.

The pile driver with which the long bridge across the Balfour place is being built, was at an elevation of 35 feet when the accident occurred. The heavy machine toppled over, pulling the ropes out of the donkey engine as it fell and carrying down the five unfortunate men, who were all caught in the mass of machinery, scalding water and steam.

As soon as they could be extricated from the debris the injured men were brought to this city by the steamer Kellogg and taken to the hospital, where Williams, who was terribly scalded, lived but a few hours. Williams was unmarried and 49 years of age. He left a mother in Santa Rosa, Cal.

MISS RUBY ROBINSON DEAD.

THE DALLES, Sept. 15.—Miss Ruby Robinson died here yesterday at the Sanitarium. She was 22 years of age and very popular here, having attended High School for several years. The body will be shipped to Madras for burial, her father and brothers living there.

STUDENTS ARRESTED.

GENEVA, Sept. 15.—Three Russian students, George and Leon Kereseldize, and Nestor Magoloff, were arrested here yesterday at the request of the Russian government, charged with robbing the treasury at Donchleske, in the Caucasus, on April 12 of \$157,500.

HOP PICKERS SHAKEN UP.

PETALUMA, Sept. 15.—A special train of six cars of hop pickers was run into by a freight train tonight. Both engines were demolished. A few passengers were injured, though none seriously.

Toilet-Toilet.

In the "New World of Words," 1720, "toilet" is defined as "a kind of Tablecloth or carpet made of fine Linen, Satin, Velvet or Tissue, spread upon a Table in a Bed Chamber where Persons of Quality dress themselves; a Dressing-cloth." A similar definition is given in Bailey's dictionary. The origin of the word is curious, for Cotgrave has: "See 'Toilette,' 'A toilet, the stuff which drapers lay about their cloths; also a bag to put nightgowns in.'" In the "Rape of the Lock," 1. 121, "toilet" seems used for the table and its contents:

And now, unveiled, the toilet stands display'd,
Each silver vase in mystic order laid.

Giant Tomato Plants.

The largest tomato plants in the world are found in California. One grower has three plants which have reached a length of thirty feet. In three months from the time the seeds were planted the vines had climbed to the top of a twenty foot trellis. The trunks of these plants, says What to Eat, are one and a half inches in diameter and the foliage is thick and luxuriant. Enormous quantities of tomatoes have been picked from them and the fruit is of unusual size, possessing an extraordinary fine flavor.

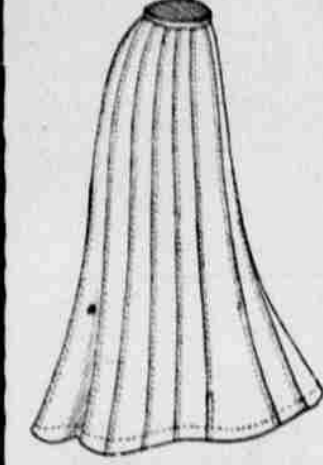

But Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"When my boy was two years old he had a very severe attack of bowel complaint, but by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy,
