PROCEEDINGS IN THE UPPER COURT

YESTERDAY'S PROCEEDINGS IN THE CIRCUIT COURT—REED VERSUS CITY OF ASTORIA ON TRIAL—NATURALIZATION ORDER.

Judge McBride and the entire personnel of the circuit court, are busily engaged these days in trials demanding the consideration of the jury, and, there is but little time for anything around the court house but the law, its exposition and its application.

Yesterday the case of Myra Reed versus the City of Astoria, involving a claim in the sum of \$2,000 for alleged damage to property caused by sliding earth set in motion by reason of certain public improvements inaugurated by the city, occupied the attention of the court, bar and jury the whole day long, and was continued over until today.

In the matter of the civil action entitled Tull & Gibbs versus E. N. Zeller, an order was made in behalf of its final settlement, and the cause was dismissed from the docket.

During the day Judge McBride handed down the following order, which is entirely self-explanatory:

"In the matter of the Naturalization of Aliens:

"Pursuant to an Act of Congress approved June 29, 1906, it is ordered that the first Tuesday of each regular term of this court and each Tuesday of such term thereafter shall be, and are, hereby designated as days for final action on petitions for naturalization of aliens—said days to be known as Naturalization Days.

(Signed.) "THOMAS A. M'BRIDE, Judge."

The following well known citizens constitute the jury in the Reed damage case now pending in the upper court: Messrs. R. McMath, C. F. McDermott, O. Erickson, H. L. Henningsen, J. E. Logan, W. McKeever, L. E. Wilson, Joseph Palo, A. H. Sale, Victor Miller, N. C. Enevoldsen and L. Ohler.

As of Themselves—The original plan of having the county establish a dyking district to embrace all the property along the west side of Young's River between the Lewis & Clark bridge and Tucker creek, doing the work of dyking the same and assessing the cost to the property interested, having failed for statutory reasons, the people who are interested in the project held a meeting in the court house in this city yesterday, with a view of devising an acceptable and practicable method of accomplishing the important undertaking. The idea now fostered is that the owners involved shall organize a company and assess the holdings for the relative and necessary amount and have the work done by contract. A special committee consisting of Messrs. A. C. Miller, Gelo Parker and A. H. Sale was appointed yesterday to estimate the cost, determine the necessary lines and figure the bearing of each parcel of land to the general scheme, and to report fully and finally on the 6th of the coming month to an adjourned meeting. It is said the successful issue of the plans of these citizens will reclaim nearly 2,000 acres of land in that neighborhood.

Accessory to Progress—Messrs. Fisher Brothers Company of this city, have come into possession, by deed made and filed yesterday, in the office of the county clerk, of the river front property known as lot 1, in block 7, of McClure's Astoria, the grantors in the case being Tongue Point Lumbering Co., and the consideration being \$7,000. This is a fine piece of business property, lying alongside the Warren Cold-Storage plant, with perfect rail and water facilities and upon which it is the purpose of its new owners to erect in the very near future, a two or three story brick or cement warehouse, to meet the demands of the company's growing business.

To Change His Name—An application has been formally filed in the county court of Clatsop county for the privilege of changing his name, by Joseph Burn, who wishes to resume his old family name of Joseph Palo. It seems from the affidavit on file that Burn is the English of Palo and as his family and kinsmen all retain the original name, Mr. Burn wants to do likewise. The court has made an order fixing Monday, October 29, next, as the day for hearing and deciding the matter.

Entertained Tonight—The Dorcas society of the First Lutheran church will be entertained this evening at the home of Miss Betsy Emberg, in Alderbrook. All members and friends are cordially invited to be present.

Stokes, of the popular firm of Foard & Stokes Co., are taking advantage of the development soon to begin, in the country lying along the Coast by investing heavily in timber lands along the Siletz river in the north part of Lincoln county and have also bonded the Gray sawmill at Toledo, where it is proposed to mill the timber on the completion of the railroad down the Coast.

Shut Down for Repairs—The Westport Lumber Company, at Westport, broke one of the head blocks to their log carriage and have ordered a new modern Allis carriage from the factory to take the place of the old one, which is getting out of date. Pending its arrival the mill has been closed down, but Manager Palmer expects to start up in about a week. With this exception the mill has been running steadily and their only complaint is no cars, except what they see going through town with an engine yanking them along.

Wires Were Mixed—Yesterday morning's rain storm loaded the local wires to a point where they dipped and interfered with each other in very annoying and confusing fashion. The A. E. power wires came in contact with the fire department strings and put the latter agency out of business entirely for a few brief moments, and there was a general blowing out of fuses about the city. But all was straightened out in little or no time and no important results followed.

THINGS THEATRICAL UNDERWAY

ALL IS IN READINESS FOR THE INDUCTION OF THE NEW ASTORIA TEMPLE OF AMUSEMENT TOMORROW NIGHT BY "ROYAL CHEF."

Manager R. E. Elvers, of the new Astoria Theater, reports the opening business of the house moving along with success and celerity, and wholly in line with his hopes for a splendid initial performance tomorrow night. Over two hundred tickets have been sold already and there are 750 to go today and tomorrow, and there is no reason to doubt they will all be out by the time the curtain rises on "The Royal Chef," at 9 o'clock tomorrow night.

The remaining seats are scheduled to sell at the following rates: For anything unreserved on the lower floor, at \$1.50 each; in the first and second rows of the balcony, at \$1.50 each; next two rows, balcony, \$1.00; next four, balcony, at 75 cents each, and general admission, 50 cents. These are the regular prices and the house will be packed to the doors to witness the beauties and indulge in the fine music incident to the opening show, which with its forty-two people and superb scenery has much to offer the lover of things theatrical.

The carpenters and painters have finished their labors in the new building and this morning the carpet stretchers will be at work there; the tapestries will all be hung today and the seating completed and the whole house put in shape for the reception of its first big audience.

The stage is in complete readiness for the big troupe and the great string of handsome scenes they carry with them. The house does not furnish scene sets of any kind, all such accessories coming in with the companies on this circuit.

No Astorian who can be there should fail to see "The Royal Chef" and have the laugh of his life, as well as showing his public spirit in the general contribution to the first grand public opening of this new temple of amusement. Don't forget! Nine o'clock tomorrow night: "The Royal Chef!"

Do You feel sleepy and not a bit like working in the afternoon? Perhaps it's because of the kind of lunch you're eating—too heavy an dtou hard to digest. Why not try the Palace restaurant on Commercial street, where all the baking is done in those famous slow-process ovens, which turn out light appetizing, wholesome things? You'll save money, too.
