

SEPTEMBER REPORT OF FISHERIES

MASTER FISH WARDEN H. G. VAN DUSEN SUBMITS SOME INTERESTING FIGURES TO OREGON BOARD OF FISH COMMISSIONERS.

The following interesting details are taken from the comprehensive report of Master Fish Warden H. G. Van Dusen to the Oregon Fish Commissioners, at the Capital City yesterday for the month of September, 1906:

After showing in detail the matters of arrests and the disposition of the various cases in the courts in which the delinquencies were tried out, the Fish Commissioner shows the status of the various hatcheries over the state, in the following terms, to-wit:

At the McKenzie river hatchery we have succeeded in collecting 5,658,000 Chinook eggs with salmon enough in sight for another four or five hundred thousand eggs.

At the Salmon River Hatchery we have collected 556,000 Chinook eggs, with prospects good for about a million more. At this hatchery we will also make a collection of Silverside eggs this fall.

At the Willows River hatchery we have collected 344,000 Chinook eggs and will probably get twice as many more before the season is over. We should also get a supply of Silverside eggs at this hatchery, but I don't expect much from them this year, on account of the railroad work interfering.

At the Umpqua river hatchery we have collected 4,000,000 Chinook eggs with salmon enough on hand for another million.

At the Siuslaw river hatchery station the work on the Chinook salmon began September 24, 1906, and from the number of salmon on hand and in sight this year will be a banner year for that station.

At the other Coast hatcheries and at the Ontario hatchery on the Snake river, the work of taking eggs has not yet begun. At Ontario the salmon generally begin to spawn about the middle of October and are all through by the middle of November.

He then proceeds to illustrate the finances of the month under the several headings employed in the business, the conclusive elements of which are determined in the following figures:

The disbursements for the month are shown in the following table of expenditures:

Men and Women.

"Men," she said, "are continually asking in the newspapers the questions:

"Why does a woman always want to know if her hat is on straight?"
"Why does she sharpen pencils with her husband's razor?"

"Why will she ruin a fifty dollar gown in a struggle to save 2 cents at a bargain counter?"

"I think it is about time we women should retaliate on the men with some questions like these:

"Why does a man when he finishes with a newspaper always throw it in a heap on the floor instead of sliding it up neatly?"

"Why when sent to look for something in bureau or closet does he always return and say it isn't there?"

"Why is his Sunday morning headache always due to what he ate, not to what he drank, on Saturday night?"

"Why as he laughs at women does he fail to perceive that women find much of the ludicrous in him?"—*Minneapolis Journal.*

Discouraging Quest For Capital.

One of Pittsburg's bank presidents is a friend and most unassuming benefactor of ambitious young men. He is sympathetic when listening to cases which merit encouragement, but can also dismiss an interviewer with admirable abruptness.

A youth on one occasion enticed the banker's office and joyfully anticipated that he intended going to college. He intimated that a little assistance in the matter of obtaining a scholarship would be a most convenient asset with which to start on his career.

"And to what profession do you aspire?" questioned the president graciously.

"I won't give up," asserted the young man boldly, "until I am privileged to place after my name the letters D. D., LL. D."

The banker turned in his chair and intimated that the interview was at an end by saying tersely:

"A capital idea, sir, but one entirely beyond the resources of this bank."—*Harper's Weekly.*

but the goods are here to back up the argument. Something like three hundred pairs of warm, woolly webs of winter comfort, and not a pair among them but what will make you feel kindly toward this store if you buy them.

Buy all you need from these lots. Blankets won't be as cheap again in a hurry. The blankets we're talking about are not cotton flannel sheets, but **BLANKETS** made from pure **OREGON WOOL**.

The sizes are liberal, weights heavy, finish elegant--the lot including all the different kinds made by the Brownsville and Salem Woolen Mills.

Other stores have advanced, and are still advancing, blanket prices. Here they are lowered as the following quotations show--quotations, by the way, that can hardly fall short of creating a little sensation in Blanketdom.

These prices for Tuesday, Wednesday, Thursday and Friday only.

Order of the Cincinnati. The Patriotic Ancient and Honorables of Columbia, as the new order is called, is within a fortnight of organization and the list of charter members includes some of the leading men in the city.

Several multi-millionaires as well as men famous in the departments of learning and art are on the list. The charter roll is limited to 100 and at present more than 90 applicants have been accepted. The scrutiny to which the lives and characters of the applicants has been subjected is severe and it is the intention of the founders to make the order distinctly one of merit.

A sweeping pledge is required of all candidates and this must be signed with the first application. It demands first of all an unswerving loyalty and devotion to the government of the United States and those in authority under it. Any smirch on the character of an applicant is sufficient to bar him from membership and he must endorse the ideas which are basic in the principles of the Grand Army of the Republic.

NATURE'S WARNING.

Astoria People Must Recognize and Heed It.

Kidney trouble comes quietly, mysteriously.

But nature always warns you through the urine.

Notice the kidney secretions. See if the color is unhealthy—

If there are settlings and sediment. Passages too frequent, scanty, painful.

It's time then to use Doan's Kidney Pills.

To ward off Bright's Disease or diabetes.

William M. Spayd, living on Winter street, southeast corner of D street, Salem, Ore., says: "It is just about three years since I recommended Doan's Kidney Pills through our local papers. I said that words could not express my good opinion of Doan's Kidney Pills, or describe the remarkable effects they had on me. My kidneys had been a source of annoyance for a number of years and I suffered severely from back-ache and pain across my loins. I couldn't go out and split a piece of kindling wood without my back pain-ing me. The kidney secretions were irregular and my rest at night was dis-

turbed on account of their frequency and there was a scalding pain in passage. I was advised to try Doan's Kidney Pills and procured a supply. By the time I had used a little over one box I was entirely free from backache and the action of the kidney secretions was regulated so that I could rest the whole night without being disturbed. My kidneys were toned up and strengthened and my health was improved in every way. Three boxes of Doan's Kid-

ney Pills made me feel like a new man. I am always glad to express my gratitude for what they did for me.

Plenty more proof like this from Astoria people. Call at Chas. Rodgers' drug store and ask what his customers report.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.
