MARINE MEMORANDA

Ajtec Reaches Port From San Francisco Sunday.

COLUMBIA IS NEARLY READY

Several Steamers Cross Out Yesterday—Fleet Arrives in During 48 Hours—Emperur Menelik at Dock, Unloading.

The steamship Astec, of the Astoria-Portland-San Francisco line, arrived in on Sunday and deposited 100 tons of freight at the O. R. & N. dock and went on to the metropolis. Her officers report that when she left the company's docks at San Francisco the steamship Columbia was hauling into the pier, just arrived from the dry-docks and iron works, complete and ready to load for this port and Portland. The Barracouta is due in today and if she has a new captain and crew, it may be taken as a certainty that Captain Doran and his crew have been assigned to the popular old steamer and will be here in a few days with her. If he is on the Barracouta, then she will be one trip late, as she will have to wait the return

of the Barracouta to the Bay City.

The steamer Nome City arrived down from Portland Sunday and tied up at the Callender pier until 11 o'clock yesterday morning, when she went below and anchored, failing to get out over the bar. She was loaded with 24,000 ties from Stella, for Redondo.

The schooner W. S. Redfield has arrived in from San Francisco, and taken her berth at the Hume mills for her outward cargo of lumber.

The French bark Genevieve Molinos arrived down yesterday morning on the Harvest Queen, and will get the earliest possible dispatch for Europe with her big cargo of grain.

The steamship Roanoke was due in this port yesterday from Los Angeles, San Francisco and Eureka, but as she lost a day on her outward trip, she will not hail in here before sundown today.

The schooner Sailor Boy came down from Portland yesterday and will light out for the Bay City just as soon as the bar permits.

The French bark Emperur Menelik was berthed at the O. R. & N. pier yesterday and will discharge 10,000 barrels of cement there for the Southern Pacific. She is a fine looking craft.

Captain Smith of the customs launch Patrol is busy building a weather davit and shield for the department's old Whitehall boat, under

the rear of the Allen paintery on Eleventh street. They cannot give her away and they cannot sell her, so she is to be taken care of. It is the boat that did the boarding service in the old days before the handsome Patrol was put on duty.

The steamer Alliance was due in from Coos Bay last evening, but was probably held up by adverse weather on the yon side of the bar. She is due in hourly this morning.

The Prosper has arrived in port and left up yesterday morning, on the hawsers of the Oklahoma, for Portland, where she will load lumber outward.

The oil tanker Rosecrans has arrived in from San Francisco with her tow, the Monterey, and is anchored in the channel off the Callender pier. She will go up the river this morning.

The steamer Tiverton cleared at the customs house yesterday with half a million feet of lumber, from the Tongue Point mills, for San Francisco, and left down for the lower harbor yesterday evening.

The steamer Aurelia has reached port from San Francisco and has gone on to Vancouver, where she will load lumber for the outward trip.

The oiltanker Asuncion came down the river yesterday and made it out over the bar in a smother of high water yesterday afternoon.

The steamer Northland was another steamer to make it out over the bar yesterday, bound for San Francisco.

Notice to Mariners.

(1879) Alaska—Revillagigedo channel entrance—Tree Point light—Red sector established.—On October 1, 1906, a fixed red sector, embracing an arc of 9 degrees 51 minutes between the bearings N 43 degrees 13 minutes W. true (WNW 3-8 W. mag.) and N. 23 degrees 22 minutes W. true (NW. by W, 1-2 W. mag.), was placed in the light on the western extremity of Tree point, eastern side of the southern entrance to Revillagigedo channel, Alaska. The sector covers Lord rocks in the eastern end of Dixon entrance and extends about 1-2 mile to the west ward of the rocks.

One of the splendid results of physical beautifying is its tendency to create an ambition to be beautiful in every way. When a woman gets a good start by taking Hollister's Rocky Mountain Tea she is all right. Tea or Tablets, 25 cents. For sale by Frank Hart.

County Court—The county court will convene tomorrow morning. Aside from auditing the regular monthly bills, nothing of importance is on the docket.

Goes in Peace—"Tiny" Arrigoni, engineer of Chemical No. 1, was due to leave yesterday on his annual vacation, but was somewhat perturbed about the condition of the engine company's beautiful cat "Chemical," but "Chan" has set his mind at rest and is now proudly nursing seven fine kittens and "Tiny" enters upon his outing with a sense of perfect freedom, there being three men in the house and neighborhood who have agreed to watch over "Chem" and his family. They're all dandies, too, those kittens, and not a single one of them is bot-tailed, like their handsome mother.

COUNCIL HOLD IMPORTANT SESSION

OIL TANK ORDINANCE REQUIRING STORAGE TANKS TO BE REMOVED WITHIN ONE YEAR PASSES BY CLOSE VOTE.

By a vote of five to four, the common council last night passed the ordinance requiring all oil tanks over 5,000 gallons to be removed from the city limits within one year, and prohibits the erection of any oil tanks within the city limits.

The common council met in regular session, Mayor Wise and all the members being present.

Petition from Jas. F. Gardiner and 25 others for a street light at the intersection of 11th street and Kensington avenue was read. Belland objected to granting the request, stating that the light bill was constantly increasing, and he was opposed to establishing any more lights without making an investigation. The request was granted.

Petition from V. Boelling and fifteen others for a street light on Exchange street between 8th and 9th streets was read. Belland again objected, saying there seemed to be no end to the city treasury and the council wanted to get rid of the money as fast as possible. There is no hurry about these lights and they ought to be investigated. The petition was granted.

Petition for an electric light from S. Danziger and eighteen others was referred to the street committee.

Petition from Wm. Humble and fifteen others, asking that the dog-pound be removed from its present location, provoked considerable discussion. The matter was referred to the health and police committee and dog catcher. Kabeth thought the committee had sufficient time to secure a location, as the matter had been before the council for some time. Robinson said everybody objected to the dog pound in its present location. Morton said the dog pound was a nuisance wherever located and Logan suggested that the pound be put in the new engine house. Lebeck suggested that they make sausage out of the dogs.

Petition for a drain on Alameda avenue was referred to the street committee.

Petitions for liquor licenses from Chas. Bertelsen, Wm. Brock, Neils Simonsen and Henry Jones were granted.

A remonstrance against the acceptance of the improvement of Bond street from the west line of 6th street to the McClure line, signed by all the property owners, was read. The petition states that the improvement was not made to the established grade; the sub-grade was not rolled and no attempt made to roll it. The specifications call for the sub-grade to be thoroughly rolled and the first layer of 4 inches of macadam to be rolled. This was not done and no pretense or attempt was made to roll it. The last layer of rock instead of being fine rock as called for in the specifications, was simply loam. The street is so soft that teams cut into it the same as on a mud road. The remonstrance was referred to the street committee.

Communication from County Clerk

(Continued on Page 8.)

ASTORIA GROCERY
