Quietly Booming-Real estate metly booming all over this city and changing hands dally, or going under bend for early delivery at very sourand gratifying figures. Some holders waited a bit. Some thorough-going real estate agents in this neighborhood, without the impedimentalaced ties and influences, could do some big and successful work here and give an impetus to the business it surely and serely lacks at present.

Automobile Crooks-There is a startling and realistic string of film pictures running at the Waldorf this week that is proving wonderfully attractive. It shows the rapid, swinging career of a man and his wife and an automobile, the combination producing a long line of bold and dashing thefts from every possible source such a city as New York offers to a smart pair of crooks. The interest in the maneuvers of the pair, their adroit and successful deals with the detectives and cops, and their hair-breadth escapes keep the spectators on the tip-toe of excitement until the last live picture on the string is unfolded. Miss Violet Parker, the dainty balladist, sings with great effect the new and beautiful song entitled "Let Me Write What I Never Dared to Tell!" the whole making a very pleasing scheme of entertainment.
