Unless Provisions Come Soon Suffering Will Be Intense-Territory Around Cascade Locks in Grip of Severe Blizzard.

CASCADE LOCKS, Ore., Jan. 30 .-Cascade Locks and all the little towns on either side of the Columbia for quite a distance have been locked in the grip of the severest blizzard of the season. At this point 18 inches of snow fell the first of the week in almost as many hours, and this, as in the case of Portland, turned to sleet and mist later, putting all telegraph and telephone lines out of commission and completely paralyzing all train and boat schedules.

River traffic suffered even worse, The Dalles City, which went up Saturday, was caught in a huge jam off Memaloose Island and it required the combined efforts of the Hercules, release her. She passed down late Sunday evening. Later the Kellogg got wedged into floating ice and wallowed for hours Monday before she Third Panel is Called and Will Be picked up a free channel,

This condition has filled the people on this side of the river with gravest doubts as to the situation in the smaller towns on the Washington side. Not one of the regular steamers has stopped with supplies at Stevenson, Carson or Collins since two weeks ago Saturday, and it was reported here before the wires went down that the jury box when court adjourned today people there were in great need, and and it is expected that tomorrow afthat unless their stock of provisions ternoon, at the latest, District Attorwas replenished within the next few days the suffering would be intense. GOVERNOR ASSASSINATED.

Russian Official Who Caused Prisoners to be Flogged is Killed.

ST. PETERSBURG, Jun. 30 .- M. Guldema, governor of the political prison in Vasili Ostroff, a suburb of this city, was shot while walking in the main street of the Island today and died immediately

The assassin, a youth of 18, dresse as a workman, emerged from a ter house as M. Guldema was passing on his way home and shot him twice in the stomach. The youth also shot and mortally wounded a prison ward who accompanied M. Guldema, and who pursued the assassin. The latter disappeared and the police have been unable to find any trace of him.

Guldema was sentenced to death by the local group of terrorists for the mercliess use of the lash in suppressing the "hunger strike" which the prisoners on Basili Island declared a fortnight ago as a protest against the killing by a guard of a prisoner who was leaning out of a window, Guidems caused the prisoners to be flogged in order to force them to eat.

DRAG LAKE MICHIGAN.

CHICAGO, Jan. 30,-That W. R. Weiboldt, once wealthy North Side merchant and Board of Trade operator. and his daughter, Martha, who disappeared with him after a mysterious attempt had been made to fire the Wei holdt department store Saturday night have committed suicide by drowning together in Lake Michigan, is the opinion of Captain King of the Sheffield Avenue police station, who re ceived a jointly signed note from the fugitives to that effect yesterday.

The note disposed of the last Joubts in the minds of the police as to the fate of Wieboldt and his daughter, I was announced today that attempts would be made to drag Lake Michigar in the vicinity of Lincoln Park for

The devotion of Martha, who is 17 years old, and the youngest of Wieboldt's children, to her father after financial reverses had left him with but a pittance, was known to all the friends of the family. She lived alone with him after other members of the family had left him. It is said by the police that she was with him late Saturday night and a few minutes before the fire broke out in the department

SAN FRANCISCO, Jan. 30 .- Testi-

mony of a sensational character was brought out today by the government at the hearing of the Harriman merger case before Interstate Commerce Commissioner Lane. Assistant Traffic Manager Bissell of the Santa Fe, who is also a director in the Western Pacific, conceded that the Santa Fe and serving an "unwritten agreement," whereby they share about equally in the citrus fruit traffic of Southern Appropriations Will Be Larger California. R. A. Graham, formerly manager of the Oregon Oriental Steamship Company, agreed to produce as evidence a letter which he declared he received from Traffic Manager Campbell of the O. R. & N. peremptorily canceling a traffic contract between the two companies, because the O. R. & N. road had acquired a longer to give Graham's company any traffic or the use of the O. R. & N. docks at Bortland or rail rates other than the full local tariff. General D. Mansfield, Shotwell's assistant, and E. E. Calvin, general manager of the Pacific Coast division of the Southern Pacific were among the witnesses.

P. P. Schwerin of the Pacific Mail Steamship Company testified that besides the fleet of steamers owned by the company, it operates the Mongolia and Manchuria, which are owned by Harriman. Severance called attention to the minutes, which showed that the Oregon Short Line owned these steamers, but Schwerin said that so far as he knew Harriman owned charged the Pacific Mail \$30,000 a month for the use of the steamers. the money being sent to New York.

Schwerin testified that the San Francisco & Portland Steamship Company with Traffic Manager Luce, of the Southern Pacific, but Schwerin explained that increased wages to stevesary. These increases did not affect the railroad, he admitted. Severance characterized the raise of both rates at the same time as "a coincidence." smiling as he spoke,

This nettled Schwerin and he volunteered the statement that there was no real competition between the railway and the steamers, because the steamers give better service and get more freight than they can handle without solicitation.

Loeb Officially Denies Report That Olliver's Bid Was Accepted.

WASHINGTON, Jan. 30 .- Secretary Loeb tonight made public a statement from the White House, to the effect that the Panama canal contract has not been conditionally awarded to Mr. Olliver. No decision has been made that the contract will be awarded to any of the bidders. Olliver's bid was so hopelessly defective that it could not be considered and time was given him to complete it. If it is put into such shape, it will be considered along with the Gillespie-McArthur Company bid, which may itself be altered, and whichever bid seems most advantage us may be taken, or both be re-

fleet of steamships, and refusing any Result May Be Strenuous Opposition by Members from Marion County-Many Minor Changes May Be Made In Bill.

> SALEM, Ore., Jan. 30 .- The gen-ral appropriation bill for the expenses of the state government was introduced in the House yesterday afternoon, and for the first time a definite idea of what the leaders propose in the way of apportionments can be estimated. The bill, No. 284, was introduced by Driscoil, of Mutnomah, and has all the items usually contained in the general appropriation bill, other expenses, like the State University, agricultural institutes, Normal Schools and state printing plant, being covered by special bills. The bill carries a total appropriation of \$1,244,970, which is fully as much as was expected and somewhat over the total of the estimate of the secretary of state published some time ago. The committee, however, has whittled off several yards of proposed expenses from Salem institutional reports, and the Marion county delegation may be expected to arise and say things.

The differences between the bill as drawn up by the Multnomah delegation and the estimates of the secretary of state, constitute the battling ground of the measure, except that some members of the House will probably desire the material pruning of some of the items passed by both secretary and delegation, while others will want the estimates increased.
