## A STEADY DRAIN.

Sick Kidneys Weaken the Whole Body—Make You Ill, Languid and Depressed.

Sick kidneys weaken the body through the continual drainage of life-giving albumen from the blood into the urine, and the substitution of poisonous uric acid that goes broadcast through the system, sowing the seeds of disease. Loss of albumen causes weakness, languor, depression. Uric poisoning causes rheumatic pain, nervousness, nausea, cricks in the back, gravel and kidney stones. The proper treatment is a kidney treatment and the best remedy is Doan's Kidney Pills.

N. S. Williams, carpenter, of 239 Liberty street, Salem, Ore., says: "A number of years ago the doctors told me my kidneys were in bad shape. I came west on account of the trouble, thinking the change of climate would help me but nothing I did gave me relief in spite of the use of remedies and medical treatment. On procuring Doan's Kidney Pills I found them the best medicine I ever used. At the time I got them I was suffering from an intense burning sensation and if two live coals were placed directly over my kidneys. The secretions from the kidneys were the color of strong black coffee and of a bad odor. After using two boxes of Doan's Kidney Pills I did not have the least pain in my back or trouble with the kidneys. I give all the credit for this to your valuable remedy."
