

MOTHERHOOD

MRS. DANIEL SULLIVAN

Unquestionably preparation for healthy maternity is accomplished by Lydia E. Pinkham's Vegetable Compound more successfully than by any other medicine, because it gives tone and strength to the entire feminine organism and renders it perfectly normal.

A woman in good physical condition transmits to her children the blessings of a good constitution. Read what Lydia E. Pinkham's Vegetable Compound did for Mrs. Sullivan, 589 E. 7th Street, Flatbush, N. Y.

"What a blessing Lydia E. Pinkham's Vegetable Compound is to motherhood. I send you a picture of my three months' old baby and myself, and the photo shows the splendid condition of our health. That I am so well and the baby so healthy and happy is entirely due to your excellent remedy Lydia E. Pinkham's Vegetable Compound. I took it for five months before baby came and it brought me an easy confinement and kept me strong, whereas I was weak and in perfectly miserable health all the time when my first three children were born."

Mrs. Geo. Walters of Woodlawn, Ill., also writes:

"I feel it my duty to tell of the good Lydia E. Pinkham's Vegetable Compound has done me and to recommend it to all expectant mothers to insure a healthy child and easy birth. I had lost three children and was discouraged when a friend advised me to try Lydia E. Pinkham's Vegetable Compound. I did so and it not only kept me well and strong but I have as healthy a child as you will find anywhere. I hope other discouraged women may read this letter and take Lydia E. Pinkham's Vegetable Compound and be benefited by it as I have been."

Women should remember that for more than thirty years Lydia E. Pinkham's Vegetable Compound has been without a rival in sustaining woman's health and curing all those painful ailments peculiar to her sex. Its record shows that it has cured almost every form of female complaint, organic troubles, inflammation and ulceration, falling and displacements and consequent spinal weakness, and is peculiarly adapted to the periods of child-birth and change of life. It cures backache and all those bearing-down sensations.

If there is anything about your case you do not understand write to Mrs. Pinkham, Lynn, Mass., for advice. It is absolutely free. Thousands of women have done so and have received help.

NO POLITICAL NURSERY.

It may as well be known now, as later, that the Astoria Chamber of Commerce is not a political nursery, nor an exchange for the bolstering of personal and private ambitions. There is but one cult supported there by the money subscribed so broadly and generously by the people of this city and county, and that is the commercial future of Astoria and Clatsop county. This is enough to keep the best and liveliest energies of that body actively at work for years to come, and no time or interest can be frittered away in pursuit of individual successes of any sort whatever.

The only latitude known there is the broad-gauge line of common endeavor for the common good; the building up of the city and the country upon which we all rely for the vital business increases that are certain to come if they are but sought and utilized. The work done there in this behalf must be well and promptly done, without dubiety, doubt nor delay; it is the doctrine hereabout to dawdle and wait and temporize and play with opportunities, but this is going to change and the cardinal creed of the Astoria Chamber, henceforth, is to find out what to do and do it, using the best judgment of the community as a guide and the good of the community as an ideal and actual ultimate. Anything less than this is folly and rank bad faith. "All ye who enter here, leave selfish designs behind!"

THE FOOLISH KNAVES.

Uncle Sam's sub-treasury at Chicago, has been mulcted to the tune of \$173,000 in gold, or crisp cash; and only foolish knaves have taken it. The folly of it lies in the unerring certainty that the government will run the last man down engaged in the robbery and will recover the last dollar of the deficit. It is always so; no man ever yet escaped the long hand of the nation except through the portal of death and the grasp of the avenging hand barely missed him as he slipped through the grim gate of release. So it will be with the Chicago theft; every man connected with it will be run down and every dollar of the loss will be made good by those attained or by those who stand sponsor for them in any relation at all. It is a beautiful tradition of ours, and is widely known and is highly respected, but the broad trust the government imposes, the wholesale handling of the countless millions given over to its servants daily and hourly, kindles the deathless and damnable lust for it, that inspires the oft-repeated and as oft-defeated attempt to successfully steal some of it. It is the silliest of all crimes on the American calendar!

THE HARRIMAN GRILLING.

Week in, and month out, the fatuous grilling of E. H. Harriman goes on, with absolutely no tangible and popular results in sight. The man of millions and his sublime nerve are as undisturbed today as they were sixty days ago when the Inter-State Commerce Commission made its first essay at his regulation, and the adjustment of his commercial powers to the equities supposed to legally exist between

him and the people, are as far from settlement, and perhaps farther, today than ever before. It is becoming farcical and is contributing another layer to the thickening crust of public distrust of the real potency of governmental sway and effectiveness in railway control. Enough has been discovered, according to the reports sent out, to convict him of all sorts of radical offenses, but the matter of punishment is, apparently, of no moment at all in the scheme of the inquiry and reprisal. Are the railroads greater than the government? It would seem to be so, judging from the resultless scrutiny so far projected by this alleged important arm and function of the government. But the people would like to know, once for all, the real status of the situation, in order to adapt themselves to the finality that is to supervene in the control of the national affairs.

EDITORIAL BALAD.

A resolution, in terms analogous to those already passed by the Clatsop county court and the Astoria Chamber of Commerce, would read well, coming from the common council of Astoria, the board of school directors of the Astoria district, and the Astoria water commission, and any other source of taxation hereabout, butting the Port of Columbia Commission squarely between the eyes of it!

Admitting that the chance of an oil-tank explosion is as one to a thousand, the climax involved in the thousandth is what is sought to be avoided. It is a problem that forbids the taking of a chance in a million. The aftermath obliterated all arithmetical calculations.

Some one has said that it is reported on the hearsay of someone else, that George W. Larnier is under consideration in the executive office, for appointment to the Clatsop commission on the Port of Columbia commission. We do not believe it.

Just imagine 50,000 gallons of flaming oil swinging up the Astoria water line on the penetrating front of a flood tide at night, or day, either. The proverbial "feather in hades" wouldn't be in it for the ghost of a second!

If her name had been Susan instead of Evelyn, perhaps nobody ever would have fallen in love with her and her photograph never would have been published.

After passing through the mosquito season in Portsmouth, N. H., Count White ought not to let himself be bluffed by such a thing as an infernal machine in his bedroom.

ECZEMA GERMS DISCOVERED

Dr. Dennis, Well Known Specialist, Explains Discovery.

In a paper read before the National Medical Society in Chicago, Dr. D. D. Dennis explained his experiments which led up to the discovery of the eczema germ.

This discovery has settled the long disputed questions that skin diseases are due not to condition of the blood but to disease of the skin itself. Dr. Dennis explained that cures could be effected only by curing the skin through the skin. The majority of skin sufferers, he said, were entirely healthy in all other respects, showing no pathological symptoms.

By applying certain harmless vegetable ingredients direct to the injured skin the doctor explained how the disease condition could be relieved instantly, taking away the terrible itch and leading to an early cure.

The reading of the paper was followed by a general discussion in which a number of Chicago's most eminent physicians participated. In reply to several questions, Dr. Dennis defended his course in having permitted the D. D. Co., of Chicago, to put out his prescription in original bottles to be sold at \$1 a bottle, instead of stating his formula only to brother physicians who could then prescribe the remedy. Dr. Dennis said there were thousands of sufferers from skin diseases who could not or would not pay the regular fees for being under the care of a physician, so that the same results could be accomplished by selling "D. D. Prescription" in original bottles through druggists. He declared that he did not consider his remedy a patent medicine in the ordinary sense of the word, which was evidenced by the fact that while some brother physicians had apparently grown jealous of him, others were freely directing their patients to use D. D. Prescription for eczema and similar diseases.

After Dr. Dennis had concluded Dr. A. B. Hartley, of Albany, N. Y., read a paper on tubercular infections.

THE CORRECT CLOTHES SHOP

Final Opportunity to Buy
Men's High Class
\$20.00 SUITS \$15.00
— FOR —
and a Harvest of Bargains
for this Week's Buyers!

The two items told of here don't begin to tell the story of opportunity for thrifty folks to save by buying this week at this store. If you've lived in Astoria any length of time you must know that when you buy clothing at the Danziger Co. Store you get at least 25 per cent more for your money than any other clothing house gives you. This fact has been so thoroughly established that no one can honestly question it.

Now when we mark certain lines of \$20 suits at \$15 you understand, don't you, why you really save more than the stated reduction. For instance, suits or overcoats that we sell regularly at \$20 would cost at least \$25 at other stores and when we cut the price to \$15, you really save 40 per cent of what you'd pay regularly for such garments anywhere else. Get here early as possible and secure choice from a very large line of the best \$20 suits for men in the city at

\$15.00
