CHAMBER COMMERCE NOTES

EFFORTS TOWARD THE COMMON POINT RATE ON WHEAT AND THE BRICK-MAKING POSSIBILITIES.

Manager Whyte has written to the owners of all of the foreign ships that ply the Columbia River asking them that if a common point rate on wheat is secured, will they consent to come here.

The work of finding out the commercial value of the clay in this vicinity was put under way yesterday when the first sample was sent to Prof. John Fulton, mineralogist and geologist of the government experimental station, Corvallis. In this manner Mr. Whyte hopes to induce manufacturers of the products for which it may prove itself adapted for, to locate here. It is thought that tile and art brick can be produced as well as the common kind of red brick.

R. M. Watson, editor of the Seaside Signal, called on Manager Whyte yesterday and expressed himself in favor of an earnest endeavor toward the cooperation of Seaside and Astoria. He invited Manager Whyte to express his views on the subject through the columns of the Signal and it is Mr. Whyte's intention to do so at an early date. Mr. Watson and Mr. Whyte's intention to do so at an early date. Mr. Watson and Mr. Whyte, who is an ex-newspaperman, in talking things over discovered that they had many acquaintances in common amongst the craft, in particular Mr. Watson knew Orthstein, one of the most famous men of his day, a blacksheep, but a scholar, a gentleman and a genius. Mr. Whyte was with Orthstein when he died in the South.

"Friends"

The society comedy-drama, "Friends," put on by the Howard-Dorset Stock Company the forepart of this week at the Astoria is a play that the people like, it fairly teems with heart interest, although the comedy end is not neglected by any means. It is an absorbing story and the attention is held at a high pitch throughout its action. Astoria people have the idea that George Howard can do nothing but comedy, they are mistaken his work in "Friends" marks him as a thoroughly competent actor in all phases of the profession. In this play Mallon Marquam the leading lady has a part that exactly fits her clever personality and her main scenes are played with the proper amount of discretion and she overdoes nothing. Altogether this is the best bit of work that she has displayed during the time the company has been here. The cast this week introduces a new member of the company, Nick Cogley and he speedily sustained the reputation of the company and won the approval of the audience. The other members of the company are all happily cast and it is a surprise to their friends out in front, to notice the change of characters from play to play.

FOR SERVICE AND CONVENIENCE:

The prime essential of a business establishment is to have it open for the purposes of business when it is needed; not closed by custom nor any rule of hours. This essential attaches to the drug store of Dr. C. E. Linton at 185 Eleventh street, which is open every one of the 24 hours in the day; and with a stock that meets every requirement likely to arise in that time. It is one of the exceptions and is thoroughly endorsed.

IT MAKES A DIFFERENCE.

It makes all the difference in the world to the convivial man where, and what, he drinks. Most men desire beauty and cleanliness, and handsome appointments in the saloon they patronize regularly, as well as the essential pre-requisite of genuine wines and liquors that are served to them. And these things are so particularly and properly conspicuous at Otto Sund's elegant resort, the Commercial, at No. 509 on the street of that name that they account thoroughly for the fixed and splendid custom he enjoys. There is nothing allowed to pass his counter but the best and choicest in every department of indulgence, and the service behind it all, is the most pleasing and satisfying in the city.
