WILL DISREGARD FINDINGS.

State Commission Will Appeal to Interstate Commerce Commission.

PORTLAND, April 30.—The Southern Pacific Company will disregard the finding of the state railroad commission that the rate on green lumber from valley points to San Francisco of \$5 a ton is excessive and a complaint will be made to the Interstate Commerce Commission petitioning that the railroad company be ordered to reduce the rate.

The state commission recently held a hearing at which both the lumber interests and railroad were represented. Last Thursday it submitted its findings, unaccompanied by any order or threat to the company. The controversy being over the interstate rate, and state commission without authority in the matter of a refusal of the railroad to accede to the finding leaves the state commission with appeal to the Interstate Commerce Commission as its only recourse.

AMERICAN JACKIES WIN.

NORFOLK, Va., April 30.—The first international boat races between the crews of warships off the Jamestown Exposition grounds in Hampton Roads was rowed yesterday between boat crews from the British armored cruiser Roxburgh and the American battleships Alabama and Virginia. The Britishers were left far behind after holding the lead for the first 100 yards, and the Alabama jackies won from the Virginia's crew by a scant ten yards after a bow and how struggle over the mile course.

The victory for the Alabama men won for them the Jamestown cup, offered for the best crew of rowing officers in the fleet of America, England, Germany and Austria. The time of the winners was 10:01. The course was a mile straightaway. Twenty-one ships were represented.

METAL TRADES ASSOCIATION.

California Employers Met and Agreed To Arbitrate.

SAN FRANCISCO, April 30.—The California Metal Trades Association made up of eighty-four employers of metal trades workmen at a fully attended meeting last night concluded, after a lengthy discussion to leave the question of hours to a board of arbitration. No names were suggested, it being the opinion of the employers that this detail should be left to a joint conference between the employers and employes. The offer to arbitrate as made by the Metal Trades Association will be received by the conference committee of the Iron Trades Council today and placed before the locals tonight and tomorrow night at the several meetings scheduled.

It is the opinion of the employers and employes that no definite action will be taken until an arbitration board is named and testimony taken to support the demands of both sides.

RUEF TRIAL.

Johnson, Special Counsel For Prosecution, Objects To Ach's Remarks.

SAN FRANCISCO, April 29.—Of the 50 men composing the new venire issued yesterday by Judge Dunne in the Ruef case, 45 answered to their names in court today. Twenty-five of these were excused over the objections of the defense. Seven of the remaining 20 were examined, five standing aside for cause and two of them being tentatively accepted.

H. Johnson, special counsel for the prosecution was stung by Ach's frequent and sneering references to him as "private counsel employed for public prosecutions," finally said: "I've heard enough of these slurs directed against 'private counsel' and I am tired of it. I would rather appear for the prosecution of a boodler and a rogue, a thief and a scoundrel, a man who shamelessly robbed his own city, than I would almost any other type of a citizen. That's my position."

Ach demanded that the nine jurors be already sworn in and veniremen present be instructed to "ignore utterly the remarks of the counsel for the state."

"The jury, Mr. Ach," said Judge Dunne, "will be instructed on all phases of law at the proper time."

RAISED CUB LION ON BOTTLE.

WASHINGTON, April 30.—An interesting experiment is being tried in the Bronx Zoo. Bedouin Maid, a big lioness, gave birth to a litter of cubs about a week ago. She refused to notice her offspring and the keepers were obliged to search for a foster-mother. A large Spitz dog was found, but before she arrived at the Zoo, one of the three cubs died. Another died the day following the arrival of the canine wet-nurse, and the remaining cub refused nourishment. Mrs. John Scratchen, wife of a keeper, volunteered to take charge of the remaining cub. She said she had brought up nine children and saw no reason why she should fail to raise the remaining baby lion. The veterinarian ordered the cub turned over to her, and Mrs. Scratchen hunted up one of the bottles on which she had brought up her youngsters. The tiny animal took to the bottle like an old toper and is apparently flourishing on the treatment. ROYALTY SMILES ON ROMANCE.

LONDON, April 30.—The Prince and Princess of Wales have taken a keen interest in the marriage of Captain Godfrey-Fassett to Miss Eugenie Dudley Ward, the story of whose engagement is of a romantic nature. The captain is a querry to the prince, and was in attendance on his royal highness at Henham last November as the guest of Lord Stradbroke. Another guest was Miss Dudley Ward, who is a keen billiard player. Captain Godfrey-Fassett also is very fond of the game, and the two frequently played as partners at Henham. After a particularly interesting game, near the close of the visit, the captain suggested to his fair partner that they should adjourn from the billiard room, and the lady consenting, her admirer proposed another kind of partnership. What her answer was her friends learned a few days later in the formal announcement that a marriage had been arranged between Captain Godfrey-Fassett and Miss Eugenie Dudley Ward. The wedding takes place at the Chapel Royal, and the Prince and Princess are to be present. This semi-royal romance is likely to make the game of billiards exceedingly popular among ladies.

The president's son is daily growing stronger and soon will be able to go to Hot Springs, Va., where it is reported he will spend the last days of his convalescence. TRAINING FOR INFANTRY.

WASHINGTON, April 30.—One of the most important matters now being considered by the general staff of the army is the proper physical training for infantry. It is recognized that the infantry of the army is the backbone of the service, and various propositions are under consideration for increasing the number of infantry regiments from 30 to 54. It has been suggested that infantry regiments be given a two instead of a three battalion organization and that the additional regiments be organized from the third battalion with a slight numerical increase in the strength of that arm. This would entail an increase in the strength of the army of the United States, but some hope that Congress would favorably consider such a proposition is given by the fact that last session it authorized an increase in the strength of the artillery.

KILLS MAN WITH UMBRELLA.

LONDON, April 30.—"God forbids that I did it maliciously," exclaimed Madge Dunning, when arraigned at Leeds, on the charge of killing George Leaf, a policeman, with her umbrella. Some remarkable facts were related at the inquest. Leaf was on night duty at a railway station, and ordered away a young woman who was trespassing on railway property. He followed her off the premises, when suddenly she turned and thrust the point of her steel-handled umbrella into his face. Twice she repeated the blow, the handle breaking at the third thrust and leaving the end sticking in the officer's face. The woman was arrested, where he died as the result of his terrible injuries. On the way to the police station, Miss Dunning stated that she had often been told that if she did not conquer her temper she would find her way to the gallows. Believing, they also say, that alcohol is one of the most fruitful sources of poverty, disease and crime, they are pleased to add that it is sparingly employed as a remedy by a majority of medical men.
