## APPEARACES

Often a person is sized up by his appear－ ance；by the tone that surrounds him．And more often a business house is sized up by the stationary it uses．A cheap letter head or a poor bill head gives a mighty poor first impression and makes business harder to transact．Good printing costs no more than poor printing．The first im－ pression is half the battle in business． You wouldn＇t employ a＂sloppy＂sales． man；why put up with＂sloppy＂station ery，that gives a wrong impression of the importance of your business．Let us do your printing and help you to make that ten strike．
