Oregon, Washington, Idaho-

THE POLITICAL COURSE.

The municipal campaign is on at pitted against Tom Devlin for the honors of the mayorality, with a goodly bunch of lesser aspirants in the two tor in the imposition; if this is so fields to contest the public choice for then Mr. Kamm might as well get in officials in June. It is practically admitted that party lines have been swept aside in the metropolis and the city has all but lost its claim to be classed in political parlance as a republican stronghold. It has taken care of too many democrats in the past few this city on a par with the metropolis, years to arrogate to itself any especial and whosoever doubts it, may keep solidity along G. O. P. lines; and judging from its late record in gubernatorlal matters, it must have a care lest it supply another successful democratic candidate for that post.

It is hoped here that there will be a reversal of things at Portland and that ① ② ② ② ② ② ② ② ② ② ② ③ ③ ③ it will contribute something to the republican history of the state that will mean something beside a glaring miscarriage of principles to which Oregon, as a whole, is committed in the national view.

It would seem that the great center of Oregon might get into line for once and show where the republican maforities really emanate from and what of limit they really possess when the actual political energies are happily history, the children not only lived

"UNDESIRABLE CITIZENS."

The term "undesirable citizen" is getting to be a conspicuous slogan these days. The fact that it originated with President Roosevelt in making specific declarations anent the notorious Moyer-Heywood-Pettibone faction, gave it an impetus and interest that has made it available for use in all avenues of recriminative applica-

It has probably reached its coursest and most unfit use at the hands of a group of New York agitators who have misapplied it to the president of the United States. Thanks to the level from which it emanates in this instance it carries no weight save that of vicious insult which can be ignored where it is directed, but cannot be quite overlooked, en route. We be- club. After sampling prosperity they lieve it to be the duty of every news--paper in the land to resent the thing upon the mere hypothesis of its rank disloyalty and to establish the unfor- gest with philosophical serenity that gettable doctrine of the real dignity Mr. Bryan may voluntarily decide not of the office toward which the slur was directed. There is an unwelcome tendency in such things that needs the expressed disavowal of the better elements of the country to render them inocuous, and the press is the first agency looked to in this behalf,

We hope to see every paper in the land go on record with the rebuke that is essential, no matter what its politics may be.

ONE OF THE POTENT SIGNS.

All Astoria is on the qui vive for signs that mean something in the way People subject to bronchial troubles of commercial advance these days, and whenever there is a change in the none are overlooked and all are appreciated for the real value they ex- will "catch" a bronchial cough, which hibit. The coming to this city of the is very disagreeable, irritating and Beebe interests is counted among the annoying. most cheerful and convincing signals of significance recorded this season. by stomach dosing. The medicated air Not only because of the rating of the of Hy-o-mei is the only treatment that Charles F. Beebe Company in the upper reaches the affected parts and gives lists of northwestern business stand- relief and cure. It destroys all the ards, but on account of the nature of disease germs that are present in the the investment they stand for; the nose, throat and lungs, soothes and rethe ship chandlery business, of which lieves the irritated mucous membrance

they are among the largest factors or the coast, is one that we are glad to have enter here because it means that the City of Astoria is to be a commercial terminal, that ships are to stop here and that the business would not have been sent here from Portland, if its owners were not in touch with assurances that mean permanency in this line. It is one of the best indications that we are in possession of on account of the genuineness of the venture and the conclusiveness of it; it may be counted on as among the chiefest manifestations of the trend of commerce in this direction and used as a lever in the win ning of other investments here,

NEW TARIFFS FOR ASTORIA.

It is most cordially hoped that General Passenger Agent Jenkins and his confreres of the A. & C., will lose no time in formulating the new tariff sheet in both freight and passenger departments of the line; and that they will show a manifest conception of the importance of Astoria in the premises. Both scales are susceptible of extensive treatment and modification and should be so set up as to qualify the sense of discrimination that has prevalled here for so long a time, and yet yield acceptable margins to the company.

There is no disposition to see the company lose out on any proposition nor that it should be involved with its competitors in any way disparaging to its business; the new rates should be so established as to compel recognition at the hands of the water lines. Portland and Mayor Harry Lane is Their schedules are too high and have been, all along, and it is said that Jacob Kamm is the responsible facline on a workable basis as to wait until he is forced to do so, for it may as well be understood now, as later revision of the Astoria schedules and an adjustment of them that will put his eye on the Astoria Chamber of Commerce and the other leading agencies of Astoria,

EDITORIAL SALAD.

Last year the people of the United States consumed sugar at the average rate of 76 pounds each. In 1830 the average consumption was 14 pounds. If sugar is a civilizing force the United States stands well to the front,

Louisiana is trying to settle the question of how long molasses will sustain life. Judging from pioneer on it, but grew up into strapping six-

A number of British patents of nobility have been found to be bogus American heiresses who run after titles get so badly fooled generally that this discovery is immaterial.

Los Angeles is to get a supply of electricity generated by water power over 128 miles of wire. The Illinois Jeep waterway project has large possibilities of the same sort.

Silent Smith left \$5,000,000 to his wife and \$20,000,000 to his sister. Yet few who apply for matrimony are satisfied with a promise of sisterly affection as a substitute.

French Canadians in Massachusetts have organized a large republican consider it a good thing to stick to.

Some of the southern papers sugto be a candidate in 1908.

The Ohio presidential exposition opened even ahead of time.

Suffers Three Years-Hands and Eye Most Affected - Employed Doctor to No Effect - Now Entirely Recovered and Will Recommend

CUTICURA REMEDIES IN **ALL PARTS OF PARISH**

"My wife was taken badly with cosema for three years, and she employed
a doctor with no
effect at all until
she employed Cutieura Soap and
Ointment. One
of her hands and
her left eye were
b a dly affected,
a n d when s h a
would stop using
Cuticura Soap and
Ointment the ecsema came back,
but very slightly;
but it did her a sight of good. Then we
complied with the instructions in using
the entire set of Cuticura Remedies
and my wife is entirely recovered. She
thanks Cuticura very much, and will

SOUTHERN MAN CURED Of a Terrible Eczema by Cuticura in Six Weeks.

"Some time ago I suffered terribly with eczema, and I had the best medical attendance, but the more medicine I took the worse it seemed to get. I kept on with medicine for about five weeks until I saw the Cuticura Remedies advertised, and I at once purchased the Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent, but had not the slightest hope of them curing me. After I had used the first set of the Cuticura Remedies I saw the improvement, and in just six weeks my skin was as smooth as ever. I advise any one suffering from this terrible disease to use the Cuticura Remedies. Henry J. Stelljes, 132 Spring St., Charleston, S. C., June 12, 1906."

Complete External and Internal Treatment for Every Humor of Indanta, Chairren, and Aduits consists of Cuticura Soap (20c.) to Cleanse the Skin, Cuticura Ontmient (30c.) to Heal the Skin, and Cuticura Resolvent (30c.) to the latter Skin, and Cuticura Resolvent (30c.) to the latter Skin, and Cuticura Resolvent (30c.) to the latter Skin, and Cuticura Resolvent (30c.) to the Util View Hood, Soid throughout the world. Fotter Drug & Chem. Corp., Sois Props., Bission, Mass.

in all parts of the bronchial tubes and quickly overcomes the irritation.

Bronchitis is really an inflammation of the mucous membrance lining the air passages and is purely a local disease, so that it needs a local treatment like that afforded by Hy-o-mel. If there is any doubt in your mind

as to the power of Hy-o-mel to cure bronchial troubles so that the system will resist coughs and colds, the unusual way in which it is sold by T. F. Lauren should dispel that doubt. He agrees to refund the money to any purchaser of Hy-o-mel who is not perfectly satisfied with the results following the use of the remedy. He does not help you it does not cost penny, while if it cures, the expense is nominal, for a complete Hy-o-mei outfit is sold at only \$1.00.

My Best Friend.

Alexander Benton, who lives on Rural Route 1, ort Edward, N. Y., says; "Dr. King's New Discovery is my best earthly friend. It cured me of asthma six years ago. It has also performed a wonderful cure of incipient consumption for my son's wife. The first bottle ended the terrible cough, and this accomplished, the other symptoms left one by one, until she was perfectly well. Dr. King's New Discovery's power over coughs and colds is simply marvelous," No other remedy has ever equaled it Fully guaranteed by Charles Rodgers, druggist. 50c and \$1.00. Trial bottle
