THE COLUMBIA PORT BOARD TODAY

PILOT BOARD UNDER OLD REGIME HOLDS ITS LAST MEETING AND CONCLUDES ALL BUSINESS.

The pilot board as it has been constituted till today, held its last meeting yesterday afternoon at the office of Judge Taylor. The Port of Columbia board comes into being and thereby ousts the old commission today. The business transacted by the pilot board yesterday was the outlining of a report to be made to the governor and the conclusion of all business up to date. The report will contain a full account of what has been done by the late board, stating the expenditures that have been made and will set forth the present conditions of the pilot service; the number of licenses issued to pilots, the number of vessels and of what tonnage brought in and out, and the fees collected by Oregon pilots, a report concerning the condition of the pilot schooner San Jose, belonging to the state and the cost of maintaining her up to date. The report is not yet in shape, but when completed will close up the business of the old board to date. No steps have been taken towards a resignation of the old board nor anything of the kind. In fact, no notice was taken of the bill in the way of questioning its validity or its effect upon the old board. All three members of the board were in attendance. Included in the report will be a list of the Oregon and of the Washington pilots on the river.

It is considered by many that if the supreme court holds the bill unconstitutional they will also hold the repealing clause unconstitutional and the whole bill would therefore collapse. In that case the old board would still be in office and would continue to act.

The time of commencement of action by the lawyers engaged to test the constitutionality of the bill is at present indefinite, and, until the new board is organized and does some act which amounts to an injury or threatens an injury, it is not likely that anything will be done. The parties intending to contest would have no basis until such act or threatened act is committed.

Kidney complaint kills more people than any other disease. This is due to the disease being so insidious that it gets a good hold on the system before it is recognized. Foley's Kidney Cure will prevent the development of fatal disease if taken in time. T. F. Laurin, Owl Drug Store.

NEW WAGE SCALE

Wages the United Railroads Intend to Pay.

WIRES SHORT CIRCUITED

High Power Transmission Wire Connected To Trolley Wire Cause Explosion In Power House Tying Up Car System—Parties Unknown.

SAN FRANCISCO, May 22.—A wage scale of from 25 to 33 cents per hour according to the length of service is the new scale put into effect today by the United Railroads according to the officials of the company. This is the scale which President Calhoun proposes to pay the non-union employes with which he declares he will hereafter operate his cars. The old scale was 31 to 33 cents an hour.

United Railroads trolley lines north of Market street were put out of commission last night by miscreants who managed by means of a wire or chain to connect a high power transmission wire with the trolley wire on Church street between Fifteenth and Sixteenth streets. The instant effect of diverting the 13,200 volts of electrical current to the trolley wire was a frightful explosion in the Turk and Fillmore sub-station.

The switchboard, which is connected with all of the trolley lines, operated by the company north of Market street, burned out, and the attending electrical display struck consternation and fear in the neighborhood.

It is remarkable that the trouble was not attended by loss of life. The cars may not be run until tomorrow as it will take some time to get the wires in working order.

YOUTHFUL EXPLORERS.

Brother and Sister Going to Smith's Sound to Study Esquimaux.

COPENHAGEN, May 22.—Two youthful explorers, Knud Rasmussen and his sister, the latter 20 years old, have started on a perilous trip. The couple are students of ethnography. They are going to Smith's Sound to find an Esquimaux tribe, which is reported to have never come in contact with civilization. Their only attendant is an Esquimaux. They will travel in dog sledges and will depend for food upon shooting. They hope to reach the Canadian mainland sometime in 1908.

ASTORIA IN PORT.

Arrived in New York—Captain Has New Solution for Cold Weather.

NEW YORK, Bay 22.—When the anchor liner Astoria, just in from Glasgow, was about 1000 miles east of Sandy Hook on Saturday, she passed through a field of twenty icebergs. The bergs were all medium sized and were scattered over a great area.

Captain Lumsdane of the Astoria, has found a reason for the cold weather. He says the Gulf Stream, which ordinarily has a range between 45 and 55 degrees north latitude, is away to the north and he found for the Atlantic a high barometer with a southerly wind, which is very unusual.

"I don't say that the Gulf stream is out of its margin," said the captain "but it is to the northward of its normal course. This accounts for our winter weather home in Scotland, where we have been having snow every other day. We don't have the seasons we used to have."

STEVEN'S WIFE TALKS.

Says Her Husband Has Not Been Offered Presidency of the N. P.

WASHINGTON, May 22.—According to Mrs. John F. Stevens, her husband has not been offered the presidency of the Northern Pacific Railway by J. J. Hill or anyone else, as the St. Paul report has it. She stated that the report that Stevens was about to become head of that system originated in Wall Street. She said her husband has three offers under consideration but none of them has any relation to the presidency of the Northern Pacific.

GEM THIEF SUSPECT.

DENVER, May 22.—In the arrest of Ed Phillips, who was taken from a train at La Junta, Colo., on suspicion of being a pickpocket, the authorities believe they have captured one of the persons guilty of robbing a jewelry store at Ogden of \$25,000 in gems.

THE VALUE OF PERSONAL KNOWLEDGE

Personal knowledge is the winning factor in the culminating contests of this competitive age and when of ample character it places its fortunate possessor in the front ranks of

The Well Informed of the World.

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.

A Knowledge of Forms, Knowledge of Functions and Knowledge of Products are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of

Known Quality, Known Excellence and Known Component Parts and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to worldwide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of—Syrup of Figs—and to get its beneficial effects, always note, when purchasing the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna.

TARIFF REVISION

Manufacturers Association on Record as Favorable.

SECRETARY STRAUSS PRESENT

Spoke At Manufacturers' Banquet and Expressed a Desire For Labor and Capital to Meet on Friendly Ground—Labor Standard High in America.

NEW YORK, May 22.—The National Association of Manufacturers went on record today in favor of a revision of the tariff and the negotiation of more treaties. A debate preceded this vote on the report of the committee on the tariff and reciprocity. The committee based its recommendations on the poll of the 3000 members of the association. Of the total number replying, 55 per cent declared for immediate revision, while 20 per cent expressed a "hands off sentiment." Eight per cent believed the time for a revision had not arrived and the other 17 per cent expressed indifference. Four hundred members and guests were present at the banquet at the Waldorf-Astoria tonight, and the balcony boxes were filled with women.

President Van Cleave, of the association, spoke briefly, saying that he desired to contribute the slogan that "Americanism Must Rule America." "This association," he said, "has no fight with the labor unions except as American citizens should fight that sort of labor unionism which tries to dictate as in San Francisco. It is proposed to fight no union, but simply fight for the rights to manufacture under the conditions of industrial peace. To work when and where he pleases is the demand on behalf of the worker by the employers."

Secretary Strauss was greeted as he rose to speak with much applause. He said in part: "Most of the strife between capital and labor would disappear if it were more fully recognized that a high rate of wages, within economic limitations, is a powerful lever to reach a low cost of production, which practically rules today in the industries of the United States. I hope another year you will have with you at your annual activities representation of the great labor groups which rightly share with you the credit for America's wonderful industrial development, who have shared and are entitled to share more and more with you, according to the measure of their deserts, the prosperity that has crowned

your and their joint labors. In no country in the world is the standard of labor and the standard of life among the wage-earning classes higher, and I hope the country may have your aid and cooperation in hastening the day when the honest individual may be permitted more and more to enjoy the fruits of constant industry and the advantages of his own labor, free alike from the tyranny of his own class and of the inequitable exactions of the employer class."

FRISCO GRAND JURY.

No Indictments Voted—Final Meeting To Be Held Today.

SAN FRANCISCO, May 22.—Friday morning next is the time chosen by the grand jury for the practical culmination of its inquiry into the big bribery deals which have been unearthed during the past months of graft investigation and unless present plans are upset by unexpected developments, a bundle of true bills involving the large corporation owners will be filed in Judge Coffey's Court at that time.

It took but two sessions of the grand jury after Ruef's confession was made, with the penitent boss as the star witness at each, to secure the missing links in the chain of evidence against the trolley gas, and telephone officials. The prosecution made so sure of its ground that the announcement was made that the end of the long months of labor would come this week, and yesterday's developments bore out this promise. No indictments were voted yesterday, but arrangements were made for a final meeting tomorrow afternoon, when the few on which official action remains to be taken will be drawn.
