JOHANN POULSON GOES OUT

The Lurline Had Slight Mishap and Made No Trip Yesterday—Steamer Melville to Make Four Round Trips to Greenwood Cemetery Today.

Friday the Oriental liner Numantia is expected to arrive from Hongkong and way ports with a particularly valuable cargo, much of which is supposed to be made up of newcrop Japanese tea. Advice received by the officials of the line on this subject, however, are rather indefinite. A big share of the cargo is consigned to points in the interior. As today is a holiday no work will be done on the craft in the event that she arrives before noon.

On her next return the Numantia will stop at Keelung, which from now on will be made a regular port of call for the P. & A. steamers. The Arabia, which sailed from Hongkong May 20 for the Columbia will be the first to drop in at Keelung. Large quantities of rice and tea will be received there for shipment.

The work of loading the British steamship Hyndford with a cargo of flour for North China was completed yesterday afternoon. The shipment is expected to measure 60,000 barrels. The Norwegian steamship Sark is expected to complete her grain cargo for the Orient on Friday.

There were two bills of sale filed in the custom house yesterday. The first, made between David C. Kindred and J. W. Babbidge, disposed of the former's quarter share in the steamer R. Miller (83 tons) to the latter for \$300. The second made between the same parties transferred a one-quarter share in the steamer Volga (74 tons) for \$500 to J. W. Babbidge.

On Tuesday night the Lurline met with a slight mishap on her voyage up to Portland—which is the reason why she did not make her usual run today. The trouble was a leaky boiler tube, which can be quickly repaired and she will be down today as usual.

The steamer Francis H. Leggett will take another cigar-shaped log raft from the Columbia River to San Francisco. She has left the Bay City for the North and will arrive in a day or two.

Last night the steamer Alliance started down to Astoria en route for Coos Bay with a full cargo of freight and all the passengers she could accommodate.

The African Monarch which brought over coal from Australia to San Francisco is due here very soon. She will load lumber, probably at Humes Mill.

The Thetis is expected down tomorrow. She has a cargo of lumber for Australia, totaling about 1,200,000 feet.

The steamer Telegraph brought down a large number of passengers yesterday. Today is her day off.

The Johan Poulsen cleared for Frisco yesterday with lumber.

WALDORF CONCERT HALL.

There is an excellent Cinematograph exhibition at the Waldorf Concert Hall just now. The first series of pictures show some very interesting features of Japanese life—depicting amongst other things the curious methods the Japs have of doing their hair, some quaint skirt dancing, and many other effects. The next series shows the difficulties and amusing incidents which beset a couple who desirous of changing their lodgings set out in search of a new habitation. The scenes are most laughable and the many mishaps which befall the couple are excruciatingly funny until the pair resolve to return to their old home. This exhibition is well worth seeing.

IT MAKES A DIFFERENCE.

It makes all the difference in the world to the convivial man where, and what, he drinks. Most men desire beauty and cleanliness, and handsome appointments in the saloon they patronize regularly, as well as the essential pre-requisite of genuine wines and liquors that are served to them. And these things are so particularly and properly conspicuous at Otto Sund's elegant resort, the Commercial, at No. 509 on the street of that name that they account thoroughly for the fixed and splendid custom he enjoys. There is nothing allowed to pass his counter but the best and choicest in every department of indulgence, and the service behind it all, is the most pleasing and satisfying in the city.

For The Little People.

Every parent in this city should investigate, at once, the new and appreciable shoes for the youngsters, at Charles V. Brown's Commercial street house. They are called the "E. O. Scuffer" and are the very epitome of good wear and real comfort. They are going like wild-fire and the kids themselves are after them because they look so "comfy."

If a man knows anything of his own anatomy he must be aware that his stomach is a magnificent organ and entitled to the utmost consideration; knowing that he will eat at the Palace when he can conserve its safety and comfort, by eating only the best cooked, best served and most compensating meal in the city of Astoria, day, or night, it is always the same, and the Palace habit is one that pays to acquire. Arthur Smith is a master of the art of preparation and service, of all things edible.
