#### Schooner Lillebonne Is Entirely Renovated.

The steamship Elder arrived yesterday evening from San Francisco. On her voyage down she lost one of her propeller blades and was on that account delayed a day and a half. The vessel had to go to San Pedro for repairs. These being satisfactorily fixed the vessel returned to San Francisco. On her way up she was again delayed. Off Tillamook Bay Captain Jensen observed a schooner flying signals of distress—at least she was flying an ensign upside down and at half-mast. The Elder immediately approached to render assistance. The vessel turned out to be the San Bueno Ventura and on being interrogated it was found that she was waiting for a pilot to tow her in. The Elder was close enough for the use of the megaphone but when Capt. Jensen found out what the vessel wanted there was not a megaphone large enough on the Elder to carry his language and his wishes as to the destination of that schooner.

The subpoenaed notice is issued from the office of the inspector of the 13th lighthouse district and is dated Portland, Oregon, June 10, 1907.

The following affects the list of lights, buoys, and daymarks, Pacific Coast, 1907.

Columbia River entrance, pages 46, 53 and 54.—Caution—From preliminary information received from various sources it is considered certain that important changes must be made in the buoyage of the Columbia River bar on the completion of the survey now in progress under the direction of the United States engineers.

In the event that it is found that two distinct and satisfactory channels exist, additional buoys, suitably marked to avoid confusion, will be established without further notice.

By direction of the lighthouse board.  
P. J. WERLICH,  
Commander, U. S. N., Lighthouse Inspector.

The German steamship Numantia cleared the bar at 3:40 p. m. yesterday afternoon. Her cargo is valued at \$222,790.42. It consists of flour, lumber and general merchandise.

The steamship Columbia came in yesterday morning. She carried the largest list of passengers she had had in many voyages and had the average amount of freight on an incoming voyage. Amongst her passengers were 33 Greeks for work on the railway on the north side of the river.

The steamer Elmore arrived back last night with a full passenger list. This is the first round trip since she has been repaired and she makes an excellent start. Evidently she did not run across the schooner San Bueno Ventura which was flying signals of distress off Tillamook Bay.

The schooner Lillebonne, which arrived here recently from Manila with a Philippino crew, has been in drydock. She has been thoroughly renovated from

stem to stern, and besides being painted and recalced, she has got a new mizen-mast 100 feet long. Altogether the Lillebonne looks like a new ship.

The life boat Dreadnaught is tied up at the Astoria Iron Works Company's dock. Her engines will be completely overhauled before she returns to her port.

The steamer Melville is having her boilers repaired by the Astoria Iron Works Company and is at present tied up at their dock.

### NOT DONE ACCORDING TO CONTRACT.

#### PROMINENT CITIZEN DISCUSSES ON LOCAL CONDITIONS IN THE CONTRACTING FIELD.

A prominent citizen called at the Astorian office yesterday and said: "I have been reading the reports of how the furniture trust got pinched and I thought I would come in and put you next to a trust here in Astoria that has the furniture trust beat to death, that is the contractors' trust. It is a fright the way prices have soared in the past year or two since it got to working. A few years ago grading was done in Astoria at 25 cents per yard, now it is up to 75 to 85 cents. Of course wages are higher but the raise is all out of proportion, and I have been watching the matter closely and am satisfied the contractors are all standing in together; also the street work is not being done according to specifications. Look at Bond street for instance. The specifications called for a top dressing of rock screenings, instead of that dirt was used. Now when it rains the street is a sea of mud and when it gets dry the dirt blows so you can't see across the street and the city has had to go to the expense of buying and maintaining a street sprinkler because the work was not done according to contract. There is bound to be a day of reckoning ahead for somebody."

#### WALDORF THEATER.

The Waldorf Theater, the home of vaudeville in Astoria, is now open for business, all of the rough edges have worn off and the performance is running smoothly and it is one of the best shows, for the small admission fee of 10 cents, of any in the country. Wilson and Leicester in their Indian act, entitled "Ramona," are the hit of the whole performance and deservedly so, for it is one of the few high class singing acts on the vaudeville stage today. Professor Hunt's collection of trained simians and canines are the wonder of the country performing their many marvelous feats with clock-like precision and an intelligence that only lacks the power of speech to make it human. Pretty little Josephine Gordon and her child impersonations are as clever a bit of character work as ever witnessed in Astoria. Manager Wise declares his intention to conduct a show along the lines demanded by his patrons, a clean performance, and will spare no expense to give them the best there is to be had, regardless of the time, trouble and money that it will take to bring it to the Waldorf Theater.
