**PRESIDENT ELLIOTT**

Discusses Questions of Vital Importance.

MAKES BUT SHORT STAY HERE

Proposition of Chamber of Commerce to Construct Seawall and Belt Line Discussed and It Appears Railroad Interest Lie In Same Direction.

President Elliott and his party arrived at Seaside at a late hour on Wednesday night. They stayed there till yesterday morning, and after spending an hour or so in walking round the town and taking a general survey of conditions the party again boarded the special and went up the road to Gearhart where another stop was made for an hour. After this the special continued its journey to Fort Stevens where the government officials took the party in hand. A trip was made out to sea on the jetty in an observation car, and this proved thoroughly interesting to the party. On the return trip the special train stopped at the foot of Twelfth street in Astoria when Mayor Wise met the president. The Mayor previously telegraphed an invitation to the whole party to take an automobile trip around the city. This however, on account of President Elliott's pressing engagements in Portland was impossible. The president did however take a walk along Commercial street down to the depot where the train was picked up again. Whilst in the city President Elliott took occasion to thank Mayor Wise on behalf of himself and his party for the courtesy shown them and for the invitation extended to them which they were unavoidably prevented from accepting. The general impression gathered from an interview which was had with the president points to the fact that his visit and that of his brother officials, third Vice-President Levey and General Manager Nutt of the A. & C. R. means very much to Astoria. President Elliott said that he would give the closest study possible to the proposition of the Astoria Chamber of Commerce to build a seawall from Tongue Point to Smith's Point, and to create a commission that will provide both a first-class system of public wharves and a belt railroad around Astoria. The matter has not however gone far enough as yet to announce any definite plans. It will be the task of the Chamber of Commerce and President Elliott's representatives to evolve these as soon as possible. If the plans that shall finally be submitted shall prove acceptable to railroad interests involved, the next question will be the raising of the funds to insure the speedy commencement and conclusion of the work called for. It is practically assured by President Elliott that as soon as the railroad system is completed and in working order or even before that, when negotiations have been so far completed that the whole intended system is in a cut and dried state to be proceeded with, Astoria will be granted the common point rate and will be thereby placed on an equal footing with any other seaport. The Astoria terminals will eventually be used for exporting wheat, flour, and other products abroad, and they will be brought down the Columbia River all the way from Spokane. Should all these great questions be finally agreeably solved Astoria would have no further cause to object to terminal rates in or out. From the foregoing it may be gathered that the best interests of Astoria and those of the railroad would seem to lie most advantageously in the same channel. The president's special left the city between one and two o'clock and it was the intention that they should make all possible speed to Portland. They did not however make the latter city till close on to 5:30.

**TERSE TALES OF THE TOWN**

**Joins The Union—**  
 George Smith, a subject of King Edward VII, yesterday signified his intention of applying for citizenship papers.

**For Salem—**  
 An attendant came down yesterday from Salem to take charge of Olsson Eken, committed to the asylum by order of Judge Trenchard.

**Probate—**  
 In the matter of the estate of D. F. Voss, deceased, an order was made setting the time for the hearing of the final account. George Voss is the administrator of the estate.

**A New Residence—**  
 Mr. Endelburch, the contractor, has commenced the erection of a new residence at the corner of Twelfth and Jerome. It will be a large and handsome structure of two stories.

**To Build—**  
 Philip H. Hadjon has awarded the contract for his new residence to Axel Johannsen. The house which is to be a handsome structure will be erected on Fourteenth between Jerome and Lexington.

**Postponed—**  
 The examination for wheelman for the customs launch Patrol recently announced to take place on June 20th has been postponed to July 31st. Applications for examination will be received up till July 22nd.

**Police Court—**  
 During the past two days there has been no session of police court owing to the ability of all, who were unfortunate enough to be incarcerated, to furnish the required amount of bail. Yesterday two drunks forfeited bail rather than face the court.

**Released—**  
 William Shields, who was serving a term in the county jail for larceny, was released yesterday. Mr. Shields' first enquiry, when he was freed, was as which was the quickest way out of town. He was given the most accurate information on this point gratuitously.

**Succumbs To Disease—**  
 Isaac W. Ellis died early yesterday morning of a complication of diseases, the immediate cause of death being Bright's Disease. Ellis succumbed early yesterday morning at Seaside. He had been working for the Seaside Lumber Co., and was 36 years of age and a member of the National Hospital Association. The remains will be shipped to Newburg, where the deceased's parents reside, for interment. Mr. Gilbaugh and Mr. E. M. Crawford, superintendent of the National Hospital Association, went to Seaside yesterday morning to take care of the body and returned on the evening train.

**The Longest Day—**  
 Tomorrow, June 22nd, will be the longest day of the year. The sun rises at twenty-two minutes after 4 a. m. and sets at forty minutes after seven; just one minute later than today. And after tomorrow the days will begin to shorten again for the fall. Ugh! When is summer coming?

**Cherries of Oregon—**  
 They were brought into the Astorian office yesterday—these cherries—and they came from Mr. J. C. Sutton's orchard at Morningside, near Salem. Just one spray of them weighed something over a pound and a half, and the excellent flavor weighed about 10 pounds in proportion. They were certainly magnificent fruit, and Mr. Sutton is to be heartily congratulated on his achievement in this line.

**Silver Wedding—**  
 Mr. and Mrs. J. A. Montgomery of 355 Duane street, celebrated the 25th anniversary of their wedding at their residence yesterday. Mr. and Mrs. Montgomery were married in the Methodist Church in Astoria just 25 years ago and, unlike a good many other married folks these days, have led a happy and contented life ever since. A number of friends were present at the residence to offer their congratulations, and the Morning Astorian the coming last, offers its congratulations none the less sincerely.

**Got Off the Rocks—**  
 The steam schooner Yosemite got off the rocks at 8 o'clock yesterday evening and it seems she is quite without damage. It appears that the accident was due to the faulty vision of the lookout, who sang out "Red buoy to starboard." This was as it should be. However, the red buoy was a black one which was as it shouldn't be, and so the Yosemite went on the flatrock at half speed.

**TO BE PROSECUTED FOR MURDER**

INFORMATION FILED IN JUSTICE COURT BY DEPUTY DISTRICT ATTORNEY CHARGING BOWLSBY WITH MURDER.

An information has been filed in Justice Goodman's court charging J. H. Bowlsby, who shot and killed Cleve Jennings with the crime of murder. So, in spite of the verdict and recommendations of the coroner's jury, it is yet possible that the laws of the United States may be upheld. Justice may be done as soon as Deputy District Attorney McCue can get the necessary witnesses together the case will proceed in the Justice Court. The gathering of the witnesses will be proceeded with as quickly as possible and no time will be lost in presenting the case. Deputy McCue says that it would be impossible to overlook a case of this description.

**REGATTA DATE IS CHANGED**

**SPECIAL MEETING OF REGATTA COMMITTEE CHANGES DATE OF REGATTA TO SEPTEMBER 2, 3, 4— COMMITTEE'S REPORT.**

At the special meeting of the Regatta Committee in the Chamber of Commerce rooms last evening, the date of the regatta changed from September 5, 6, 7 to the 2, 3, and 4. The change is the time of holding the regatta was necessary owing to the fact that the Norwegian singing societies would be in the city before the time formerly set by the committee and a great many of the singers probably would have left before the regatta had commenced. At the citizens' mass meeting in the city hall some time ago, it was the common opinion that the two were to be held at the same time and it was to concur with this idea that the earlier date was set.

Fairbank's Banquet.

All citizens desiring to attend the banquet to be given in honor of Vice-President Fairbanks at the Hotel Moore on Monday evening, July 15, under the direction of the Chamber of Commerce, are requested to signify their intention by calling upon Manager John H. Whyte in the Odd Fellows' building and signing the list. The number of places at the banquet is limited and it is urged that those who intend to be present should sign up at once.

**The Waldorf Theater.**

The Waldorf Theater is still drawing the same crowds that packed the place on the opening nights. Manager Wise is leaving no stone unturned to provide the best talent for his performance, that money, time and labor can bring to Astoria. And the people are appreciating his efforts by giving him their patronage. The actors have the spirit of the thing and at every matinee and evening performance they work to the limit and endurance of their powers and ability. The small charge of admission is certainly no criterion of the general excellence of the show for it is as good as any of the higher class houses which get a great more than the 10 cents charged by the Waldorf.

**IT MAKES A DIFFERENCE.**

It makes all the difference in the world to the convivial man where, and what, he drinks. Most men desire beauty and cleanliness, and handsome appointments in the saloon they patronize regularly, as well as the essential pre-requisite of genuine wines and liquors that are served to them, and these things are so particularly and

properly conspicuous at Otto Sund's elegant resort, the Commercial, at No. 509 on the street of that name that they account thoroughly for the fixed and splendid custom he enjoys. There is nothing allowed to pass his counter but the best and choicest in every department of indulgence, and the service behind it all, is the most pleasing and satisfying in the city.
