## GARBAGE STRIKE

New York Health Department  
Cleans Up.

### MUCH SICKNESS WILL ENSUE

People Whose Health and Lives Were  
Endangered by the Accumulation of  
Fifth Sided With Strikers and Im-  
peded the Work of Cleaning Up.

NEW YORK, June 29.—Early today scores of carts manned, by non-union men and volunteers from the health department sallied forth to tackle the mounds of garbage and refuse that has accumulated in the streets since the strike of the city's drivers began, ten days ago. The East side where the conditions are especially serious because of the dense population, was visited, and at daylight considerable progress was made in removing the foul-smelling refuse. Conditions in some parts of the congested districts can be imagined, when the refuse piled makes the streets impassible. Several doctors who have visited the districts where conditions are worst, say that a great deal of sickness and many deaths must necessarily follow as a consequence of this disastrous strike.

The Health Department which has been called upon by the Mayor in this emergency to prevent pestilence, is moving with vigor. Dr. Walter Benschel, who has been put in charge of the work with full power personally to direct the onslaught on the garbage heaps today. It is a curious fact that the people whose health and very lives are menaced by the prevailing conditions yesterday aided the strikers in an attempt to drive away workmen who had been sent to remove the garbage. Realizing this curious situation, Dr. Benschel called for and is receiving ample police protection. The strikers are showing signs of uneasiness, now that the Health Department has taken hold and have sent a communication to the newspapers offering to arbitrate.

### PREMATURE CELEBRATION.

Chief of Police of Council Bluffs Has  
Novel Scheme.

CHICAGO, June 29.—A dispatch to the Tribune from Council Bluffs, Ia., says:

Chief of Police Richmond has struck upon a unique scheme to prevent the premature celebration of Independence Day by deputizing boys and girls to act as special police.

A long line of youngsters lined up yesterday and received appointments and assignments. Each was required to take the regular oath of a patriot and then the youngsters were assigned specific districts.

The novelty of having the power of arrest over the boy in the next block has appealed greatly to the youngsters who are showing their appreciation by keeping a sharp lookout on every boy who purchased fireworks, quite to the disgust of the dealers.

### ITALIANS TO CELEBRATE.

Garibaldi's Birthday Celebration Comes  
on Fourth of July.

NEW YORK, June 29.—Italian residents of New York will join in this year with Americans in celebration of July 4. The reason is that July 4 is the birthday of Garibaldi, and this year is the 100th anniversary of his birth. While the Italian government has appropriated \$200,000 for a fitting celebration in one, New York Italians have not been backward in preparation for the day.

Since Garibaldi lived, for a period of his exile on Staten Island, it is fitting that the Italians should make a pilgrimage to Clifton to designate the pantheon that now covers the humble cottage in which he lived. More than thirty thousand men are expected to be in line for the march to the scene of the ceremonies.

### MURDER SUSPECT ARRESTED.

Arrested For Murder of Armenian Priest  
In New York.

NEW YORK, June 29.—From information contained in a cablegram, received at police headquarters tonight from Marseilles, may clear up the murder of Kasper Veturian, the Armenian priest whose body was found in a lodging house here a month ago. The cablegram stated that Boghus Farkain has been arrested there at the request of the New York police for the priest's murder.

### METCALP BACK AT CAPITOL.

WASHINGTON, June 29.—Secretary Metcalf returned yesterday from Oyster Bay where he conferred with the President regarding contracts for two 20,000 ton battleships, and several submarine boats, and other matters which he desires to close up before leaving for the Pacific Coast.

## PROSPECTS BRIGHT

Adjustment of Operator's Strike  
Expected Soon.

### SMALL IS VERY CONFIDENT

Labor Commissioner Neil Was In Con-  
ference With Deputy President Kon-  
enkamp In New York—No Details  
Given Out.

SAN FRANCISCO, June 29.—President Small of the Commercial Telegraphers' Union said tonight the prospects of the adjustment of the trouble between the Western Union and Postal Companies and their telegraphers are very bright. He says it is the firm opinion that the affair will be adjusted before another week rolls around.

NEW YORK, June 29.—Labor Commissioner Neil came to New York from Washington, today, and this afternoon held a conference with the executive committee of the Telegraphers' Union. After the conference Deputy President Koenenkamp stated that both the national and local situations were discussed but refused to say just what length the matter had been gone into.

### MICHIGAN FOREST FIRE.

SAULT STE MARIE, June 29.—Millions of dollars, worth of timber on the northshore of Lake Superior is threatened with destruction by a forest fire, that started in the woods there a couple of days ago. The timber is exceedingly dry.

### ANTI-AMERICAN FEELING.

Japanese Becoming Convinced That Race  
Prejudice Is The Cause.

TOKIO, June 19.—Another serious report of anti-Japanese feeling in San Francisco has been received to the effect that the San Francisco authorities have placed an embargo on Japanese engaged in the business of intelligence agencies and have also refused them license of every kind thus preventing them from engaging in any other business than that of a purely commercial character. Should the report be confirmed it will serve to confirm the belief here that the display of anti-Japanese feeling in that city is based on racial prejudice.

## WASTE NO TIME

Judge Wood Anxious to Conclude  
Boise Trial.

### THE STATE IS WELL PLEASED

Prosecution Congratulates Itself On  
Testimony Give By Some of the Wit-  
nesses for the Defense—Defense At-  
tempts to Disprove Orchard's Words

BOISE, June 29.—Departing from the rule established by Judge Wood when the Haywood trial commenced the session today will continue through two sessions. Up to the present, Saturday has been a half holiday, but Judge Wood is anxious to conclude the case as early as possible in July, and will waste no time. Next week, on account of the Fourth of July celebration, court will be obliged to adjourn, shortening the weeks work to five days.

This morning the defense continues evidence on Orchard's alleged experience in the Coeur d'Alenes and by witnesses will endeavor to disprove his statement that he was one of the men who blew up the Bunker Hill and Sullivan mines. After this it is possible that the Colorado end of Orchard's story will be taken up, and Max Malish, who has been spoken of by Orchard as one of the men who suggested the blowing up of a boarding house at Denver where non-union men were staying, will be on the stand. It is probable that his direct and cross-examination will take up a considerable part of the day. Mr. Darrow, who is conducting the defense, lays down no definite program of witnesses,

but, according to the plans laid last night, the Coeur d'Alenes will be the first scenes before the court today.

The state is congratulating itself upon the admission made yesterday by the former member of the executive board of the Western Federation, D. C. Copley, who said that while he was in San Francisco, Orchard's conversation with him led him to draw the inference that Orchard claimed to have some connection with the explosion at the Bradley residence. They also express satisfaction over the admission by Copley that Lyle Gregory, who Orchard says he murdered in Denver, was a detective for the mineowners. The state has so far been unable to get before the jury any reason for the killing of Gregory.

On the other hand, the counsel for the defense, do not hesitate to express much jubilation over the testimony of the Scotchman, Thomas Wood, who was the first man to go over the ground in the Vindicator mine after the explosion and the killing of Beck and McCormack. His evidence went far to prove that the explosion was due to an accident. The inference is that McCormack took the box containing 25 pounds of dynamite with him when he left the eighth level to go to the sixth, and that the pistol carried by Beck, accidentally exploded, setting off the dynamite. Wood said he was not called as a witness at the coroner's inquest and he frankly stated to the court that he thought the reason he was not called was that no one knew he was there. Wood was a discovery by the defense.

It is now expected that the defense will have finished the direct examination before adjournment for the Fourth. In this event, the rebuttal testimony may be concluded by the end of the week. Much depends, however, upon the progress made by the defense in its effort to open up the alleged conspiracy of the mine owners.

### FRISCO STRIKE CONFERENCE.

SAN FRANCISCO, June 29.—A conference between President Calhoun of the United States Railroads and a number of labor leaders who have been

playing an important part in the conduct of the carmen's troubles, was held here yesterday. The strike situation engaged the attention of the conferees for something like three hours, and when the delegation of labor leaders finally withdrew from Calhoun's office, the story spread that the street car strike was in a fair way to be settled. The settlement, if one is reached, will not, it is declared, involve any concessions from Calhoun or any action whatever on the part of the street railway company.

The trouble will be brought to a conclusion, it is said, by the withdrawal of all the support now accorded the Carmen's Union by the various local labor organizations, represented on the campaign committee of the allied unions.
