AFTER CUP RACE.

Los Angeles An Applicant For Vanderbilt Races.

NEW YORK, July 11.—Another strong applicant for the Vanderbilt cup race has appeared and should any difficulty occur in obtaining the event for New Jersey, the racing board of the American Automobile Association may transfer its activity to the Pacific coast. A telegram has been received by A. B. Hardington, the chairman of the racing board, from Los Angeles, stating that through the efforts of the motorists in that city, Governor Gillett of California has not only been asked to give his consent to the use of the roads in the state for the event, but he has promised to use his influence favorably as required. A course 42 miles in circumference has been mapped out in the vicinity of Los Angeles, which is admirably adapted for high speed offering many miles of open stretches and passing through only two small villages.

NOT EVEN A SIGN LEFT.

Last Evidence of Authority Taken From the Onco Mayor of San Francisco.

SAN FRANCISCO, July 11.—Mayor Bixton, accompanied by District Attorney Langdon today visited the residence which had been used by Mayor Eugene E. Schmitz as his office. The owners were notified that the house was no longer required by "The Mayor." A sign, "Mayor's Office," mounted on a pole in the front garden, was removed and taken to the city hall, where it was placed in position.

DELIVER ULTIMATUM.

CHICAGO, July 11.—The livestock commission men's ultimatum to the big packers on the Post Mortem inspection controversy was given out yesterday by the committee appointed at Monday's session of the Chicago Livestock exchange. They will refuse to sell cattle of whatever class subject to post mortem inspection, as demanded by the packers.

A conference between representatives of the packers and of the commission dealers was held, but no definite results were achieved. Another conference probably will be held today or tomorrow, in which several of the heads of the big packing houses are expected to take part.

MOYER IS ON STAND

Not Likely to be Under Examination Long

HAS MADE GOOD IMPRESSION

Prosecution Thinks He Has Made Sufficient Admission To Show Their Claim Of Intimacy Between Haywood and Orchard.

BOISE, July 11.—Charles H. Moyer, the prisoner, president of the Western Federation of Miners, takes the stand again this morning for cross examination by the State in the Haywood trial. It is not likely that this feature of the case will occupy much time, counsel for the prosecution stating that their examination will be brief. Moyer has told a straight story and the impression he created was favorable in the extreme. The position of the prosecution, however, is that Moyer has made admissions sufficient to show that their claim of intimacy between Haywood and Orchard is well founded. They point to the statement by Moyer that Simpkins, a member of the executive board of the Orchard's outward threats against Steunenberg, who had visited Orchard while the murderer was in Caldwell on his mission of assassination, and who is shown to have been there only a few weeks before the murder, was in Spokane at the time the murder was committed, and sent a telegram to Haywood with reference to securing counsel for Orchard. This has been shown by Moyer's evidence and also that Fred Miller, according to Moyer, went to Denver after the preliminary hearing of Orchard's case at Caldwell, and while in Denver with a transcript of the evidence, was retained by Moyer and Haywood to defend Orchard, getting \$1500 as a fee and for expenses.

It is probable that Fred Miller will go on the stand after Moyer, but the defense may again pass him until after Haywood has been examined. Haywood's indirect and cross-examination may take the remainder of the week, though it is now within the bounds of possibility that the defense will close by Friday night.

It is rumored this morning that the repudiated confession of Steve Adams will be brought out in the course of the rebuttal, counsel of both sides are non-committal with regard to Adams and the defense declines to say positively that they will not put him on the stand. Should they do so, counsel for the state expect to be able to produce the confession and another rumor is that Adams has withdrawn his repudiation of certain portions of the confession and that he will permit a part of it to stand.

The original of the alleged confession is in the hands of counsel for the state. It is said to contain much sensational matters and should it be brought out, it is believed the criminal record achieved by Orchard will in certain respects be eclipsed by the story Adams is said to have told and then withdrawn as untrue.

REMOVE SUBMARINE DANGERS.

LONDON, July 11.—The officers of the navy Commander Ball and Staff Sargeant have invented an apparatus, which it is expected, will remove the present dangers to crews manning submarine boats. It is designed to enable the men to escape from the vessel even if she is filled with water or poisonous gases.

Experiments carried out by the Admiralty at Portsmouth proved it is said, that the apparatus will fulfill what is claimed for it. The invention resembles a diving helmet with a jacket attached and contains an ingenious oxygen generator.

HOW TO OVERCOME THE RUSH.

NEW YORK, July 11.—Announcement is made that in their efforts to solve the problem of the Brooklyn bridge crush, the public service commission will employ several of the best known engineers in the country. The bridge crush has for many years been one of the most pressing in the local transit problems. Many people have been killed and many injured during the rush hours.

BROKE UP VESSEL.

NEW YORK, July 11.—The famous yacht Wildegard built for King Edward when he was the Prince of Wales, in 1874 has been broken up and consigned to the junk pile at Hackensack, N. J. She originally cost \$83,000 but recently the vessel was sold for a few thousand dollars to F. R. Long, a bridge builder who decided to have the vessel broken up.

Home-Canning a Pleasure with the ECONOMY JAR
