

MOB SWARMS ON HAYWOOD

Steps From Train and is Swept Away by the Hundreds Gathered to Welcome.

HAYWOOD CARRYS INVALID WIFE IN HIS ARMS

Haywood's Mother, Mrs. Caruthers, is Swept to One Side by Crowd of People at the Station and Looses Her Carriage But is Found and Brought back by Her Stalwart Son.

OGDEN RAILROAD MEN EAGER TO SHAKE LABOR LEADER'S HAND

HE STATES THAT THERE HAS BEEN NO QUARREL WITH MOYER AND THAT HE REMAINED TO BE NEAR PETTIBONE—HE KNOWS NOTHING OF PROPOSED CHANGE IN COUNSEL TRYING THE FEDERATION CASES BUT THINKS THERE WILL BE ONE.

SALT LAKE, August 2.—Carrying an invalid wife in his arms, W. D. Haywood, secretary of the Western Federation of Miners stepped from the train in this city tonight into a crowd which had gathered to meet him. In its eagerness to see him the mob almost overwhelmed the little party of travelers. Mrs. Caruthers, Haywood's mother, was swept away from the waiting carriages. She was rescued by her stalwart son, who later after shaking a few hundred hands thanked everybody and with his family started for the home of his sister, Mrs. James Killen.

At Ogden news of Haywood's arrival spread through the railroad yards and many men from the shops and switches, in greasy blue jumpers took advantage of the stop to touch the hand of the labor leader and to cheer him as the train rolled out of the depot. Haywood denied the story of his having a quarrel with Moyer. He said Moyer delayed his stay in Boise so as to be near Pettibone as long as possible. Haywood said he did not know whether there would be any changes in

counsel in the next trial but there probably would be.

The fact that Haywood and Moyer did not leave together has renewed rumors widely circulated sometime ago of serious differences existing between the two chief officers of the Federation. Both men denied these stories today and declared they were circulated for the same purpose of creating dissension and trying to divide the ranks of the miners' organization. It is known, however, that Moyer has not wholly approved of the plan for a celebration in Denver on Sunday and will have no part in it. He believes it would be far better to wait at least until George A. Pettibone, who must remain there in jail, has had his trial.

"It is one of the saddest things I have ever had to do," said Moyer today, "to go away and leave Pettibone in jail. I did not wish to go at all but I shall return to Boise in two weeks to look after Pettibone's interests. I do not know when I will take up my duties at the Denver headquarters, not for some time. My health is none too good."

LIQUOR ON THE SAN PEDRO.

Miss Watson Gets Her Information From Member of the Crew.

SAN FRANCISCO, August 2.—Captain Birmingham, supervising inspector of the Steamboat Service, has received a letter from E. F. Edwards and G. F. Fuller, local steamboat inspectors at Portland, to the effect that they have information that liquor was freely used on board the San Pedro at the time of the collision with the Columbia. The letter says that the information came from Miss Maybelle Watson.

PORTLAND, August 2.—Miss Maybelle Watson said this afternoon that the morning the rescued passengers were taken onto the Elder she was told by a member of the San Pedro's crew that the crew of the latter vessel had been drinking freely from the time they left Eureka. Whether any of the officers of the ship were intoxicated, Miss Watson says her informant did not say. She also says that when the wrecked passengers were taken on board the San Pedro they were given liquor as a stimulant.

At the office of the Inspectors of Hulls and Boilers it was stated that Miss Watson's testimony was not regarded as important, for the reason that it is merely hearsay.

CRUSHED IN AUTOMOBILE.

JACKSON, Mich., August 2.—A west-bound electric car struck an automobile containing five Jackson residents about three miles east of here tonight. Mrs. Levi Palmer, Mrs. Emily Pulver and Bernice Oliver were killed. R. A. Oliver, who was driving is probably fatally injured while his wife escaped with less serious injuries. From the fact that the brakes on the touring car were not set it is believed that Oliver did not see the electric car.

ST. LOUIS BREWER BETTER.

SCHWALBACH, Prussia, August 2.—The physician in attendance upon Adolphus Busch, the brewer of St. Louis, who has been seriously ill at his villa near here, announced today that Busch was now out of danger and improving gradually.

"THE WESTERN GENTLEMAN."

A Good Sized Audience Grets its First Production and Applauds.

Lee Willard and his company last night presented a comedy drama entitled "A Western Gentleman" to a crowded house who heartily enjoyed every moment of the evening's entertainment.

Mr. Willard in the character of Jack Mason, the gambler, gave a perfect characterization of the part, his very bearing and language denoting a deep and profound study of this role. His rendering of the second act had the audience in tears and all through the play swayed the feelings of his hearers from humor to pathos.

Miss Ethel Roberts surprised all her hearers by her wonderful versatility. Her perfect performance of "Camille" hull from thought as she gaily romped upon the stage as Bess Fairfax a bare-footed child of 10 and her delineation of the role transported many a gray-haired pioneer of the West back to their childhood days.

Sidney Payne in the character of Jim Bixbee kept the audience in roars of laughter from the rise to the fall of the curtain and his conception of the hanger-on lawyer was a most excellent one.

Mr. Willard and his company have become most popular here and theatergoers say unanimously that it is the best stock organization that has ever appeared in this city.

MOROCCO SITUATION

France and Spain Working With One Purpose.

SENDING TROOPS AND SHIPS

Dispatches Received State That the State Bank in Tangier Has Been Pillaged and a British Consular Employee Has Been Taken Away.

PARIS, August 2.—French and Spanish governments are acting in concert and with great promptness to meet the situation that has arisen in Morocco. A warship of each of these powers is now in the harbor of Casa Blanca, and three French and one Spanish man-of-war are now on their way to Morocco.

France has proposed to Spain an immediate landing of French and Spanish troops at Casa Blanca and in anticipation of a favorable reply has prepared three transports at Toulon to convey 2500 men and 6000 horses to Morocco. What further steps, if any, are contemplated has not been made public. A slight delay and embarrassment in meeting the situation is caused by the absence of Premier Clemenceau, who is at Carlsbad taking the cure.

Official communication issued today says any action of powers in Morocco is limited to that granted to them under the Algeiras convention. Up to midnight no telegram had been received from Tangier reporting the arrival there of fresh news from Casa Blanca. Dispatches from Oran, Algeria, report the state bank at Tangier has been pillaged and a British consular employee has been captured between Tangier and Elksar.

MADRID, August 2.—The government announces in addition to the cruiser Infanta Isabella, the cruiser Don Alvaro de Bazan, now at Las Palmas, has been ordered to the Moroccan coast.

MAYOR WISE RETURNS.

Mayor Herman Wise returned yesterday from Collins Springs where he went last Sunday to take a much needed vacation. He reports that quite a number of Astorians are spending a few days at the resort, which he was delighted with during his stay. The Mayor said last night that while he was much benefited by his trip he did not stay long enough to enjoy it as much as he might have on account of his numerous duties in the city. He reports the waters of the springs as being very excellent, that the hotel accommodations are very good, and the facilities for recreation in keeping with the other features of the resort.

WIRELESS IN ASTORIA

Representative of Company Will Install at Once.

TATION ON SMITH'S POINT

Present Plans Are to Place Stations at Astoria, Portland, Tacoma and Seattle—Promoters Are on the Ground and Anxious to Interest People.

Astoria is to have the first commercial wireless telegraph station on the Pacific Coast, all arrangements having been completed for an immediate installation. According to present plans stations will be established at Astoria, Portland, Tacoma and Seattle in the order named and within one month the Astoria station will be ready to transact business.

Mr. R. H. Marriott, electrical engineer of the Western division of the United Wireless Telegraph Company, which company will install these stations, is in the city and will remain here until the completion of the station when he will leave to superintend the erection of the other plants. Mr. Marriott is a gentleman well versed in this subject, having devoted his whole attention to the subject of wireless telegraphy since 1899. Either as experimenter or as a superintendent of installation, Mr. Marriott has charge of the Western division installations and the fact of his being personally on the ground shows the importance of these stations.

The Astoria station will be located above Smith's Point the principal part of which will be a mast 200 feet high. This mast will support the wires leading from the instruments in a small instrument house to the apparatus at top of mast. The power necessary will be taken from the city lighting circuit. Messages received or transmitted by wireless telegraphy to and from vessels will be sent either by wireless or line telegraphy and a general business transacted.

The importance of the establishing of a station will be better understood when it is known that it is the intention of the company, in connection with the government, to establish a chain of stations that will reach from Nome to the Isthmus of Panama. At the present time the government has stations established at Point Loma, Point Arguello, Mare Island, Farolone Islands, Cape Blanco, Cal.; Table Bluff, North Head, Cape Flattery, Port Orchard (Bremerton), Wash.; and Nome and St. Michaels in Alaska. A station is also being built at Sitka. These stations are partly naval and partly U. S. Signal Corps. Most of

RIVAL TONGS ARE SHOOTING

Tongs in New York and Boston Fight Over Similar Philadelphia Fracas.

THREE ARE KILLED AND SEVEN WOUNDED

The Hip Sing Tong, of New York, Takes a Run Over to Boston and Pays the On Leong Tong a Fraternal Visit and Three New Members Taken in.

HONG WONG ARRESTED FOR HAVING POWDER STAINS ON HANDS

THE MEMBERS OF THE HIP SING SOCIETY MAKE EARLY ARRANGEMENTS IN BOSTON FOR THE CARNIVAL AND ARRIVE WITH THE FIREWORKS IN TIME TO BREAK UP A MEETING OF THE HATED ON LEONG TONG AND CHASE THEM HOME.

BOSTON, August 2.—Burning with hatred for the enemies belonging to On Leong Tong, a band of New York Chinamen numbering a dozen or more and said to be members of the notorious Hip Sing Tong, entered a narrow alleyway in Chinatown tonight and opened fire on half a hundred Chinamen, killing three and injuring seven. At the first volley, the Chinamen rushed to their quarters. The Hip Sings chased their victims into their own doorways and shot them down as they rushed upstairs into the side rooms. Then casting away their revolvers the Hip Sings ran from the Chinese quarters, most of them escaping the police. Immediately after the shooting one of the Hip Sings was captured by a policeman as he was running away. The man gave the name of Nim Sing. Later an

officer took into custody Hong Woon whose hands were powder stained. Both prisoners were charged with manslaughter. The police have arrested seven other Chinese who are strangers in the community.

Fully 50 shots were fired. The visitors shorts were careful in accuracy as is apparent from the fact that each of the three men killed is shot through the heart. The trouble had been brewing for a week. New York Chinamen arrived a week ago and added details of police were placed in Chinatown. After this the New Yorkers suddenly disappeared. Trouble appears to be the result of the shooting in Philadelphia for which the Boston Tong was partially blamed. It is thought the Hip Sings came from New York to punish the On Leongs for the Philadelphia affair.

FORESTRY CONVENTION.

SACRAMENTO, Cal., August 2.—A meeting of forestry officers of the various states and territories of the Union which maintain forestry bureaus has been called by Gerald B. Lull, state forester of California, and will be held in this city in September, simultaneously with the Fifteenth National Irrigation conventions. The purpose of this meeting is to bring together the men charged with the administration of state forest laws for discussion of their mutual problems.

KEPT WEDDING A SECRET.

MODESTO, Cal., August 2.—The secret marriage of Mrs. Thomas Kyle, formerly Miss Ida May Reynolds of San Francisco, to R. G. Morey, a contractor of Portland, became known here today when the charming widow was seen by friends traveling with her young husband. The young couple, it came out, have been married since last December, but have been able to keep it quiet until discovered today.
