

## LOGGING CAMPS TO OPEN

**FIRMS NEAR DEEP RIVER RESUME OPERATIONS—ACTIVITY IN RAILROAD CONSTRUCTION AND BOAT-BUILDING ACROSS THE RIVER.**

Logging camps which have been closed for several months across the Columbia from Astoria, have been opened up again and there is a great scarcity of labor, according to William Anderson, a prominent merchant of Deep River, Wash., who was a visitor in the city yesterday. He asserts that there is more activity in the timber industry than formerly and that mill men are preparing to produce the product on a large scale, and that the recent congestion on the market seems to have disappeared.

Mr. Anderson reports that the surveyors laying out the line of railroad to be constructed from Deep River to South Bend, and from that city to Gray's Harbor, have finished their work. The surveyors are greatly pleased with the route selected and claim to have a splendid passage from the Columbia to the harbor. One survey party is at present laying out a line for a railroad from Deep River to Skamokawa.

Mr. Anderson is president of the Deep River Transportation Company, and reports that the hull of the ship which is to be put on the run between Astoria and Deep River has been completed, and that the boat is now awaiting the arrivals of her engines. As soon as the latter have been installed, which will be as soon as the machinery has arrived, the boat will be launched and put on the run as early as possible.

The steamer will probably be put in command of Captain Lumley, although this matter has not been settled as yet. It is expected that the innovation of the new boat will cause an increase of business between the two states at this point and will be a great benefit to Astoria.

F. C. Anderson, the son of Mr. Anderson, killed the largest bear ever seen on Gray's River, early this week. The animal was of the black species and weighed over 500 pounds. The bear had been committing all kinds of depredations in the apple orchards near Gray's Harbor and Mr. Anderson's son caught him in the act of stowing away large

but he is reputed to be a strong, heady man who can be counted on to keep his nerve in a tight place.

The trip that the team is to take Sunday is a pleasant one in anticipation for the players as Manager Charlie Moore, of the St. Johns team, is well liked by all the local men and has the reputation of being one of the most hospital managers on the circuit, always excepting the genial manager of the home team. So all are looking forward to the trip.

The baseball game on Saturday was a good one in which to watch the work of Dean, Manager Brown's new third baseman. He was practically unknown to the fans and there were many remarks in the grandstand when he walked out in an ill-fitting suit to take his position at the beginning of the game. He did not have many sympathizers until he struck his gait. He stopped up one grounder in good form but it was a run and dive stunt after a hard foul near the grandstand which won the hearts of the spectators. It was one of the hardest chances that came to that hard position for any player—third base—and he dug out for the ball and just caught it after a hard run. It was close to the grandstand but he held his nerve and went in after it notwithstanding a stumble meant a smashed head or a broken shoulder.

Dean also showed up well with the stick and secured a hit in that wonderful batting rally which the team held in the eighth inning.

Astoria has a good umpire in "Daddy" Tyler. He does not allow any of the rowdism which frequently mars the sport, especially of the town teams. But he could pull his games off a little faster if he would insist that a policeman or two be provided to keep the heedless crowds back from the players benches. It is enough to manage the players without having to talk to the elod-hoppers who always hang around a player's bench.

The remaining schedule of the season and games to be played by the Astoria team follows: Three games with Woodburn, two with Kelso, two with Frakes, two with Brainerd Cubs, two with Trunkmakers, and one with St. Johns.

## AT THE THEATER TONIGHT

**MR. WILLARD PRESENTS "TWO MEN OF OREGON"—"HIS WORST ENEMY" TOMORROW NIGHT—BOYS CAN ATTEND FREE.**

Owing to the fact that the author of "Two Men of Oregon" has notified Mr. Willard that representatives of the Orpheum Circuit will be in this city to witness the production, there will be a performance tonight contrary to the previous intention. Mr. Willard takes this opportunity of inviting all the boys of Astoria to witness the play free of charge.

On Friday night, S. W. Delanater's great political temperance drama, "His Worst Enemy," will be presented, and Mr. Willard promises a sensation in realistic staging.

The play is a strong one based upon actual facts and as an interesting episode of life as seen almost every day of the present time of politics, this production should prove a most interesting evenings entertainment.

is an expression as old as the race. No doubt the rising and setting of the sun is the most regular performance in the universe, unless it is the action of the liver and bowels when regulated with Dr. King's New Life Pills. Guaranteed by Charles Rogers, druggist. 25c.

## LABORING MEN TO BE IN PARADE

**BIG DELEGATION TO COMBINE WITH REGATTA IN PRODUCING MOST SPECTACULAR DISPLAY OF FLOATS EVER SEEN HERE.**

The semi-weekly meeting of the Regatta and County Fair Committees was held in the rooms of the Astoria Chamber of Commerce last night with a large attendance, and all the reports turned in gave every indication of the coming celebration being the biggest ever attempted and the most successful ever held in this city.

President Sowden and other representatives of the Trades and Labor Council were present at the opening of the meeting and made preliminary arrangements for the big labor day parade. They announced their intention of holding a big mass meeting on Tuesday night when the subject will be thoroughly threshed out and delegates appointed to take active part in the work with the Chamber of Commerce committees.

It is the intention of the labor unions in the city to join the Regatta parade on the afternoon of labor day, September 2, with huge floats of every description and applied to every industry in the city. This part of the parade will be its biggest industrial feature and will prove to the thousands of visitors what Astoria can produce. All members of the trades and labor council are asked to attend the mass meeting next Tuesday night.

It is probable that a large tent, 80x100 feet, will be used for the county fair exhibits, as it is believed that the engine house is not large enough for the purpose. There was considerable discussion on the matter last night and a conference of the fair committee will be held to decide on the change.

Chairman Bowlby of the fair committee has appointed several men in the different parts of the district to interest themselves in the collection of exhibits and the county fair is expected to have the largest representation of any previous year. The matter of handling the live stock exhibition is an important feature, and it is probable that the engine house will be used for this purpose, while the tent will be used for the agricultural exhibits.

Fred Johnson is chairman of a committee which is listing all rooming houses in the city in order that the visitors will find ample accommodation. In former years the dearth of room has been a serious drawback to the celebration, and the committees this year desire to have all parties having rooms to rent, or those who would like to assist them by notifying them that they have a spare room, to notify them as early as possible so that they may make their plans accordingly.

Advertisements to this effect have been placed in the local papers and the citizens of the city will confer great assistance on the Chamber of Commerce by furnishing plenty of room and thereby giving visitors a good impression of the city, which they would not have if they failed to find accommodations.

Chairman Barry of the sports committee, made a report of his work thus far in regard to the land and water races. He has the largest program that has ever been presented, almost every style of race to be thought of being embodied in the list. He reported that much interest was being taken in the water sports by local men and that several racing shells were being put in shape for the races.

He is making arrangements with Portland people for shell races, motor boat races, yacht races, and numerous other events. Wherever it is possible to get sportsmen interested in the races he is sending notice of the big meet and it is probable that the sports will be large enough to attract the attention of any city in the west.

A large number of special attractions will be added to the Regatta, such as high-diving, hair-raising stunts in the water, divers going down to the bottom of the river and changing from men's clothing into the garb of a woman, an' numerous other features of an interesting nature.

A night parade will be provided in which a boat will tow a line of other boats, a rope strung with colored lights being the only object visible in the darkness. The snaky curves and twists will be decidedly unique and pleasing to the spectators, for whom a huge grandstand will be erected on the wharf at the foot of Eleventh street.

The question of securing an admiral for the fleet of boats which will be twisting around the course during the sports was discussed last night and members of the committees were asked to look up a good navigator or captain to take charge of the fleet.

Numerous features of the Regatta and

Fair were thoroughly threshed out last night, while members of the committees having the various departments in charge made reports which gave a glowing description of the work done thus far. There will be 61 races, the program of which will be published later.

### NEW TO-DAY.

Dell B. Scully, notary public. Any old hour at Scully's cigar store. tf.

Panama hats cleaned and blocked. Leave them with Dell Scully. tf.

Oliver typewriters and automatic stenographers at A. R. Cyrus, 424 Commercial street. tf.
